

*Let's do it right*

# Who We Are

Formerly Republic Chemicals Industries, Inc., is a wholly Filipino-owned manufacturing and distribution company and one of the leaders in the marketplace. Pioneer has been providing excellent service for over sixty-five years, as well as reliable industrial and household adhesives, sealants, waterproofing, specialty coatings and insulation. The company's brand names are known throughout the Philippines, with Pioneer Epoxy, Pioneer Mighty Bond, and Pioneer ElastoSeal.

# Our Purpose

Uplifting lives by empowering, inspiring and challenging individuals to excel in their craft.

**Message from our CEO to Our Valued Customers, Partners, and Associates:**

It is with great pride and gratitude that I extend my warmest greetings to our valued customers, partners, and associates. For nearly seven decades, Pioneer Adhesives, Inc. has been a leader in adhesives and construction solutions, driven by a commitment to excellence, innovation, and sustainability.

Our growth has been fueled by the highest standards of product quality and our dedication to continuous improvement, as reflected in our ISO 9001:2015 certification and international expansions. At Pioneer, our corporate purpose—“Uplifting lives by empowering, inspiring, and challenging individuals to excel in their craft”—guides everything we do.

Looking ahead, we remain focused on becoming the best in our industry, dedicated to serving our customers, protecting the environment, and supporting our communities.

Thank you for being an essential part of our journey.

Let's do it right!

*John W. Spakowski II*

# Our History

## 1950s

**1958**

Established as Republic Chemical Industries, Inc.

**1959**

Launched its first adhesive product, Ironwood Glue.

## 1960s

**1967**

First to introduce Pioneer Epoxy in the Philippine market.

## 1970s

**Mid-1970s**

Launched the Instant glue in the Philippine market - Pioneer Mighty Bond

**1979**

Expanded to specialty contracting through PSBSI (Pioneer Specialty Building Systems, Inc.)

## 1980s

**1985**

Strengthened product offerings with epoxy-based waterproofing coatings and flooring systems.

## 1990s

**1995**

Grew operations to a 3.1 hectares Lucia M. Spakowski (LMS) manufacturing complex in Canlubang, Laguna.

**1996**

Won prestigious awards for innovative and consumer friendly ElastoSeal packaging by packaging industries in Philippines (Phil Star Award), in Singapore (Asla Star Award), and in Chicago, USA (World Star Award).

**1998**

Acquired ISO 9002 1994 certification for quality management system.

**2000**

Initiated direct export to UK, Australia, Malaysia, and other Asian countries

**2012**

Started JWS Foundation Philippines, now known as Pioneer Adhesives Foundation, Inc. (PAFI) focusing on three advocacies: environmental, educational, and disaster-relief.

**2015**

Mounted the first Angat sa Dagat National Bangkarera

**2017**

Established presence in Indonesian market as PT. Pioneer Adhesives, Inc.

**2018**

Built its second plant in Punes, India and awarded as one of the best start-up companies in India 5000 Business Awards

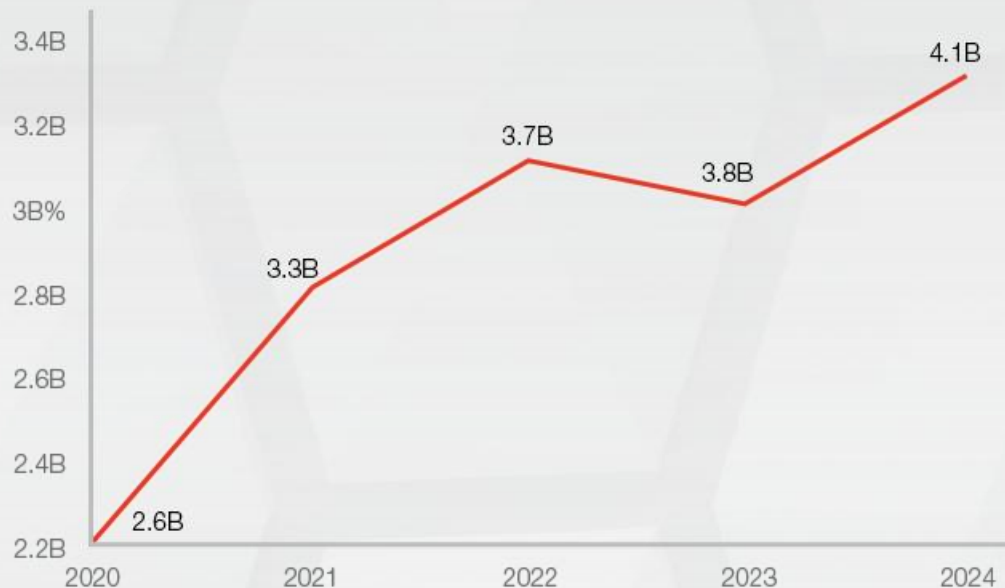

**2019**

Brand of the year, The CEO Magazine

## Financial Highlights

Pioneer Adhesives, Inc. continues to demonstrate financial strength and resilience, ensuring the company remains a trusted partner for clients worldwide.

This financial stability reflects Pioneer’s ability to consistently deliver quality, invest in innovation, and adapt to evolving market demands.

### Revenue Growth

Pioneer has achieved consistent growth, with its Compounded annual growth rate (CAGR) of 11.7% over the last 4 years.

### Global Operations

With manufacturing facilities in multiple locations and a presence across Asia, Europe, and the Americas - Pioneer Adhesives supports a diverse and growing global client base. Additionally, the company operates a plant and offices in India, as well as an office and warehouse in Indonesia, reinforcing its strong international footprint

### Investment in R&D

Pioneer Adhesives is deeply committed to innovation, continuously investing in research and development to enhance product performance, sustainability, and industry applications. With dedicated R&D teams and advanced testing facilities, we develop cutting-edge solutions that drive growth in key sectors like construction, mining, and DIY.

Our pursuit of innovation keeps us at the forefront of adhesive technology, ensuring we meet evolving market needs.

# Adhering to **Success**

## **OUR VISION**

We will be the elite adhesives and construction solutions company that consistently achieves profitable growth by doing it right to masterfully serve its customers whilst caring for its community and the environment.

## **OUR MISSION**

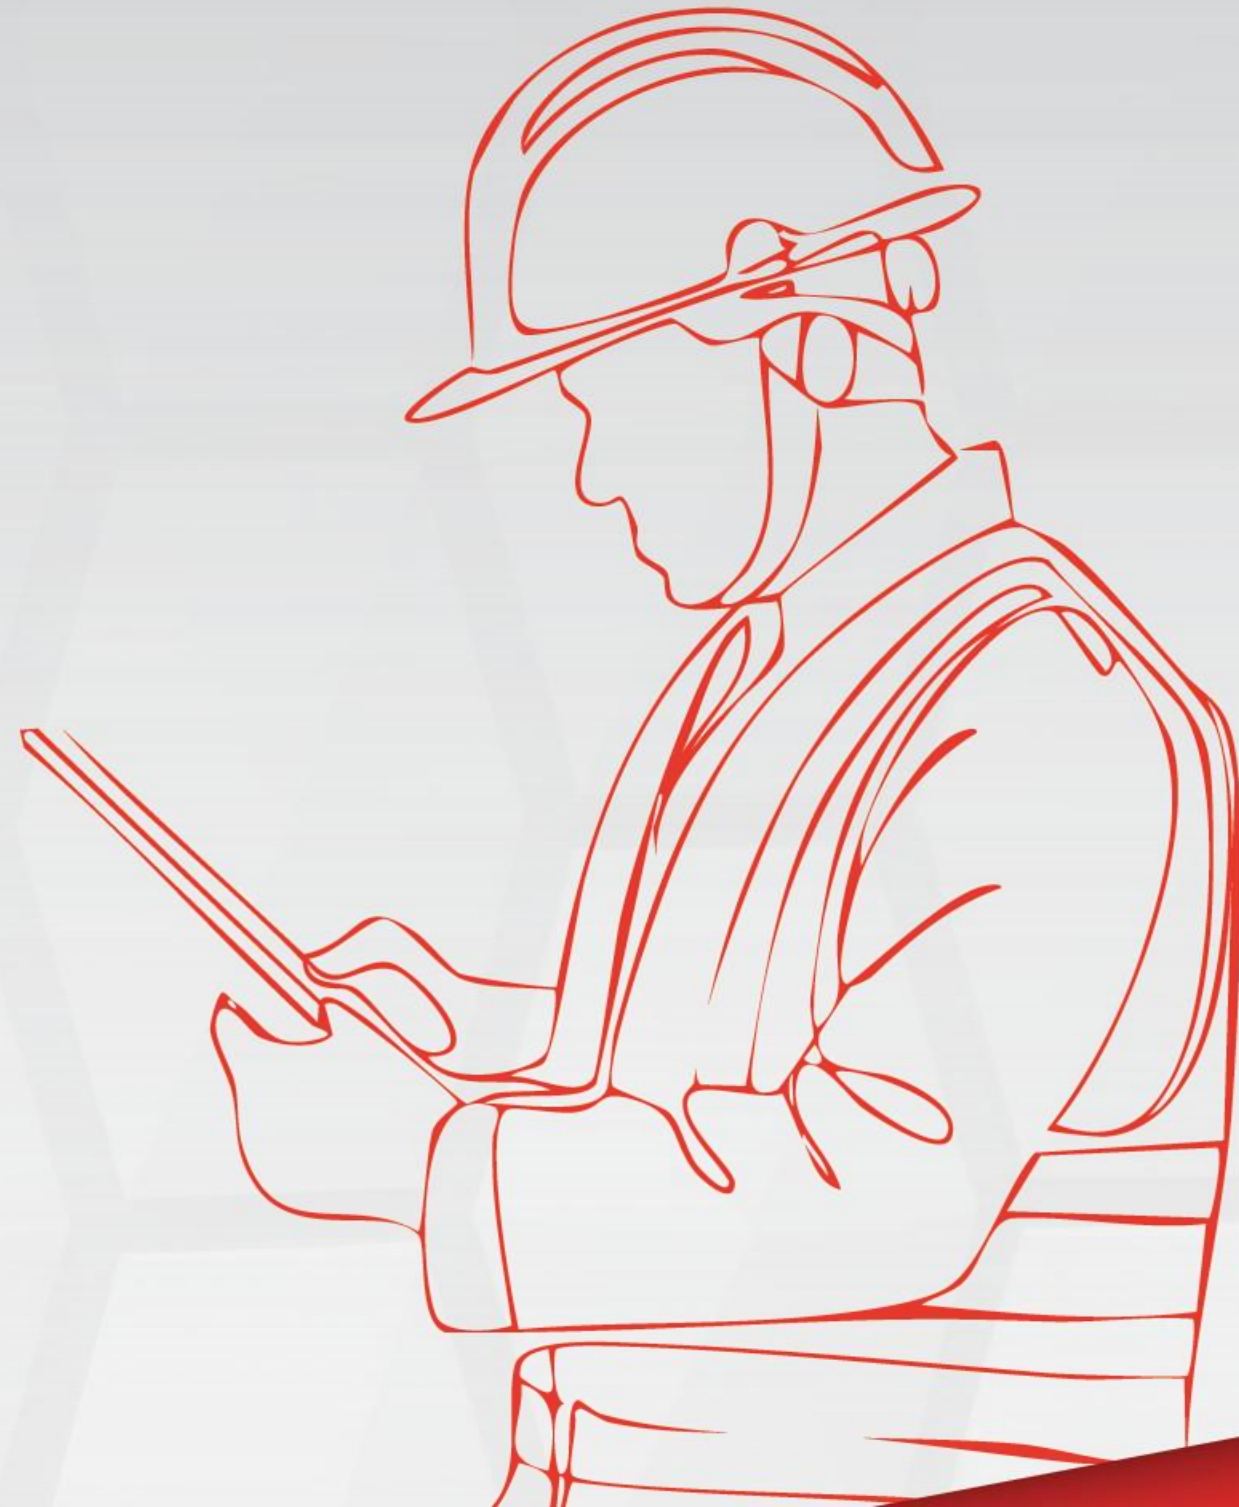

As a dynamic multinational adhesives and construction solutions company, we commit to doing things right by:

- Exceeding customer expectations through process excellence and innovation; living our corporate values of teamwork, integrity, malasakit (compassion), and excellence.
- Continually promoting sustainable development; and achieving quality and profitable growth objectives.

# Manufacturing Excellence

At Pioneer Adhesives, manufacturing excellence is more than just precision and performance—it's our commitment to innovation, consistency, and customer trust. Our facilities are built to world-class standards, driven by advanced technology, stringent quality systems, and a mindset of continuous improvement.

Every product we make reflects our dedication to reliability, safety, and the evolving needs of the industries we serve. From raw materials to finished goods, excellence is embedded in every step.

# Global Reach

Pioneer Adhesives extends its impact far beyond borders. With a growing international footprint, we bring world-class products and technical expertise to customers across key markets worldwide. Our integrated manufacturing and distribution networks are designed for agility—ensuring fast, reliable delivery and on-ground support wherever our clients operate.

As we continue to expand, we stay true to our roots while building strong global partnerships that drive shared success.

*Let's do it right*

# Commitment to **R&D**

Innovation is at the heart of Pioneer Adhesives. Our commitment to research and development fuels the creation of smarter, safer, and more sustainable adhesive solutions. With dedicated R&D centers and a team of experts driven by curiosity and customer insight, we continuously explore new materials, formulations, and technologies that anticipate market trends and elevate performance.

We don't just keep up—we push the boundaries of what adhesives can do.

*Let's do it right*

# Commitment to Learning

At Pioneer Adhesives, learning is a cornerstone of innovation. We foster a culture of continuous improvement by investing in knowledge, skills, and people. Through the Pioneer Adhesives Foundation Inc., we provide comprehensive training programs that empower our teams to stay ahead of industry trends and technological advancements.

Whether it's through technical upskilling, leadership development, or sustainability-focused learning, we ensure that our people grow alongside our products—building a smarter, stronger Pioneer for the future.

# NO JOB TOO TOUGH.

The right sealants and adhesives for every job.

# Commitment to Change

Over the past decade, **Pioneer Adhesives Foundation, Inc. (PAFI)** has collaborated with numerous organizations, government institutions, enterprises, and dedicated volunteers, all of whom have been instrumental in advancing its mission. Guided by the values of excellence, volunteerism, *malasakit*, and integrity, PAFI has continuously worked to create lasting waves of positive change across the country.

Through its initiatives in craftsmen training, community development, education, and environmental sustainability, the foundation empowers individuals and communities, fostering growth, resilience, and a commitment to a better future.

# Our Services that **Stick**

## **Certifying Skilled Professionals**

Pioneer provides installation services packed through accredited contractors.

## **Expert Help On Demand**

Pioneer provides expert consultations to help clients select the best products and application methods within 48 hours upon request.

## **Empowering Thru Training**

Customized workshops on product usage, safety protocols, industry best practices and provide certification to applicators and craftsmen.

## **Reliable Customer Care**

Dedicated customer service teams ensure seamless experiences through troubleshooting, warranty support, and feedback handling.

**PRODUCT CATALOGUE**

# MIGHTY BOND

## Mighty Bond

Advanced cyanoacrylate adhesive that provides an exceptionally strong bond in seconds on a wide variety of substrates.

## Mighty Bond Shoes

Advanced cyanoacrylate adhesive designed for emergency shoe repairs, instantly achieves a high strength bond on a variety of materials like rubber and leather.

## Mighty Instant Glue Remover

Special solvent used to dissolve and remove newly cured instant glues and other adhesives from different surfaces.

## Mighty Bond Anti-Clog Tech

Innovative packaging with precision application, flowback nozzle for longer storage life and reduce waste, and a stand-up tube for easy use.

## Mighty Bond Xtreme

Advanced cyanoacrylate adhesive designed to give superior bonding strength on metal that can resist impact, heat up to 120°C, and water.

# DIY - EPOXY TUBES AND MOLDABLE CLAYS

## All Purpose Epoxy

Heavy-duty general repair for wood, metal, concrete, glass, porcelain, ceramic and plastic.

## Durasteel 5 Epoxy

Fast-setting high performance steel-filled adhesive which cures to a steel-hard metallic gray mass. It is ideal for quick cure repairs that require high strength & durable bonds.

## Plus Five Clear Epoxy

Adhesive that cures in just 5 minutes. It dries clear and is ideal for fast perfect bonding & repair on a variety of materials.

## Clear Five Epoxy Syringe

A fast setting, high performance adhesive in syringe format. It is a two-component resin adhesive that dries clear in just 5 minutes.

## EpoxyClay All Purpose

Fast-setting epoxy putty for quick and permanent repairs on a variety of materials and is used for home repairs or workshops.

## EpoxyClay Steel

Steel-reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of steel.

## EpoxyClay Aqua

Epoxy putty optimized for repairs on damp, wet areas, and underwater surfaces, as well as to any dry surface.

# DIY - GLUE AND CONTACT CEMENT

## Contact Bond

All-purpose toluene free contact cement which forms tenacious but flexible bonds on similar and dissimilar materials.

## Wood Glue

Water-based industrial adhesive in D3 classification with excellent resistance to moisture, water, heat and solvents. It is ideal for bonding all types of wood.

# LUBRICATING SPRAY, RTV SILICONE AND LIQUID SEALANT

## Mighty Gasket Black & Grey

Superior temperature resistance and outstanding weatherability. Used for general glazing and sealing applications for cars and motorcycles.

## Mighty Gasket Red

Formulated to perform at high temperatures, ranging from -85°F to 500°F (-65°C to 260°C). Used for sealing and bonding for bigger engines such as trucks and buses.

## RC1 Lubricating Spray

Silicone-based, multipurpose spray that can be used on any moving parts to provide better, longer-lasting lubrication and protection from rust & corrosion.

## Mighty Gasket Liquid - Grey

Engine sealant capable of joining uneven surfaces. Enhances seals and helps prevent leakages in motorcycle engine parts.

# ROOF AND GUTTER SEALANTS

## ElastoSeal

Ready-to-use elastomeric rubber sealant for superior weatherproofing and sealing of most construction joints, and is highly resistant to UV rays and temperature changes.

## ElastoSeal Clear

Neutral cure sealant for industrial and electrical applications that remains permanently flexible and exhibits excellent adhesion to a wide variety of substrates.

# EPOXY

## All Purpose Epoxy

Highly versatile structural epoxy that bonds a wide variety of materials (wood, metals, ceramics, concrete, and hard plastics).

## Maestro Marine Epoxy

Flexible epoxy designed to resist cracking caused by movement and expansion and contraction.

## Marine Epoxy

Water-resistant epoxy that can be used as a heavy-duty adhesive or non-porous putty.

## Non-Sag Epoxy

Highly viscous epoxy ideal for filling gaps on vertical and overhead surfaces. Works even on wet substrates.

*\*Water and chemical resistance is achieved once epoxy mixture has fully cured.*

# SEALANTS

## Mighty Seal - Acetic Cure

Moisture curing silicone sealant suitable for use as a general purpose sealant or adhesive with excellent resistance to UV and outstanding weatherability.

## Pioneer Pro Painters Buddy

Acrylic Gap Sealant

One-component latex, non-staining, and paintable gap filler, formulated for both interior and exterior use.

## Mighty Seal - Neutral Cure

Non-corrosive neutral cure premium silicone sealant which can be used to meet a variety of general industrial sealing and gasketing needs.

## Pioneer Pro Flex-O-Seal

Flexible, durable, and weather-resistant elastomeric sealant that has very good adhesion to most construction materials.

## Mighty Seal - Biocide

Fungicidal silicone rubber sealant designed to seal nonporous surfaces where conditions of high humidity & temperature extremes exist.

## OmniFix

Multi-purpose 2-in-1 hybrid adhesive and sealant used for almost any kind of construction and repair work.

## Pioneer Pro Water-Tite 100

Instant Plug

Ultra-rapid plugging mortar designed to stop leaks in concrete structures, repair pipes and cracks, and fill holes.

## Pioneer Pro Water-Tite 101

All-Purpose

Ready-to-use capillary waterproofing recommended for swimming pools, basements, supporting walls and columns, bathrooms and water tanks.

## Pioneer Pro Water-Tite 102

Flexible Cementitious Waterproofing

Easy-to-apply flexible waterproofing membrane capable of bridging hairline cracks and is ideal for kitchens, bathrooms, basements and concrete structures.

## Pioneer Pro Water-Tite 103

Premium Flexible Cementitious Waterproofing

Highly flexible waterproofing ideal for large areas of application such as basements, big concrete roofs, swimming pools and parking garages.

## Pioneer Pro Water-Tite 200 Barricade

Interior & Exterior Elastomeric Coating

Decorative waterproof paint used for above-grade exterior surfaces where a highly durable elastomeric coating is required. Offers long-term exterior durability.

## Pioneer Pro Water-Tite 400

Easy-to-apply long-lasting waterproofing with a wide range of uses and a wide tolerance to expansion and shrinkage of substrates. Ideal for flowerbeds, planter boxes and building basements.

## Pioneer Pro Water-Tite 401 PU Plus

Single-component water-based polyurethane liquid waterproofing membrane. It has a minimum of 500% elongation at break with better tensile properties.

## Pioneer Pro Water-Tite Power Flex

Designed to provide superior water proofing flexibility, easy-to-apply and is ideal for wet areas such as bathrooms, concrete gutters, cistern tanks and firewalls.

## FLOOR COATINGS

### Pioneer Pro Great Floor 100

Epoxy specially formulated as a high-strength binder designed for use as a protective coating and as a high quality concrete epoxy primer.

### Pioneer Pro Great Floor 200

Two-component polyamide epoxy compound used as finishing coat for concrete flooring subject to light foot traffic.

### Pioneer Pro Great Floor 300

Heavy-duty, 100% solids epoxy-based floor coating. Ideal for floors exposed to heavy foot and rubber-tired traffic, chemical spills and power washing.

## PAINTING PREPARATION

### Painter's Buddy Liquid Skim Coat

100% acrylic smoothing rendering paste to be mixed with white or grey colored cement for repairing uneven surfaces and filling small bubbles in concrete surfaces prior to painting.

### Painter's Buddy Skim Coat

A cement-based finishing plaster consisting of finely crushed white marble and high-grade sand aggregates of consistent quality and composition, which helps correct surface imperfections and covers pin holes.

## MARINE COATINGS

### Pearl Glaze

A durable, protective topcoat to prevent wood and steel boats from degradation, Pearl Glaze yields a flexible film with high impact resistance and superior protection against saltwater, acids, alkalis and other destructive elements.

### Epoxy Primer

Epoxy-based sealer recommended as base layer for painting works. Adheres well to previously painted or bare wood, steel, and concrete surfaces. Provides a good surface finish for applying top coat.

*\*When properly applied on steel surface*

## SPECIAL FORMULATIONS

### Laminating Epoxy

Easy-to-apply water clear liquid epoxy system designed for wet lay-up and ambient temperature cure of fiber reinforced composites such as aramid (kevlar) and other inorganic particulates.

### Injectable Epoxy TH

Restores structural integrity of concrete through crack injection. Suitable for vertical, horizontal, and overhead applications.

## Pioneer Pro Concrete Epoxy

### High Viscosity

Thermosetting type of concrete adhesive specially designed for repairing cracks on concrete surfaces. Exhibits non-sagging behavior when applied on vertical or sloping surface up to 1/8" thick films and cures to a hard, durable and infusible bond between concrete and wood, metal or masonry.

## Pioneer Pro Concrete Epoxy

### Low Viscosity

Low-viscosity, pourable and self-leveling concrete adhesive designed for patching damaged or degraded concrete structures. It is suitable for large areas of application. It exhibits a durable, tough, impact-resistant, water-resistant, & chemical resistant film once fully cured.

## Pioneer Pro Pipe Jointing Epoxy Putty

Specially formulated for installation and repair of cast iron, concrete, clay, ceramic and rigid PVC pipes, and is effective for vertical or overhead applications.

## Pioneer Pro Anchoring Epoxy

High-strength structural adhesive designed for anchoring bolts, dowels and reinforcing bars into concrete & masonry.

## Pioneer Pro Builders Bond

High-strength construction adhesive used for a bonding a variety of building materials, and eliminates the need for screws and nails.

## Pioneer Pro Builders Bond Turbo

Hybrid construction adhesive best for heavy-duty usage and can hold up to 1,200 kgs per 100 square centimeter.

## Pioneer Pro Multi-Filla

Heavy-duty epoxy adhesive and filler ideal for repairing unsound concrete. Can be applied up to 1 inch thick without sagging and can be used underwater.

## Pioneer Pro Tile Adhesive

Heavy duty tiling adhesive mortar that is suitable for both horizontal and vertical applications.

## Pioneer Pro Bond Crete 400

Modified acrylic emulsion that has been formulated to be used in two ways. As a bonding agent to increase adhesion, and can be added to a plastering mixture to increase its strength.
