ABOUT US

Our passion is to create collections of table textiles that accompany our customers in the most beautiful moments all year round. We design and produce our products taking care of quality, finish and variety of expectations in terms of patterns and colors.

Our product range consists of seasonal and special occasion table textile collections. We design collections by matching patterns of placemats, napkins and napkin holders to tablecloths and table runners. Thanks to ready-made sets, the customer saves time and chooses ready-made sets of elegant table textiles.

We cooperate with stationary, exclusive showrooms and interior design boutiques that offer table products in their portfolio. We cooperate with online stores, prestigious hotels, restaurants and yachts. We look forward to find partners of our brands all over the world. We ship worldwide (mainly via DHL Parcel and DHL Express).
