WHO WE ARE AND OUR PURPOSE

- For over **30 years**, we have specialized in developing, manufacturing and commercializing food in both **local and international markets**.
- Our **mission** is to make food accessible worldwide by connecting raw materials to the **global** food industry.
- We are driven by innovation and a commitment to excellence, **building long-term relationships** that become strategic alliances.

PRODUCTS, BUSINESSES, AND MARKETS

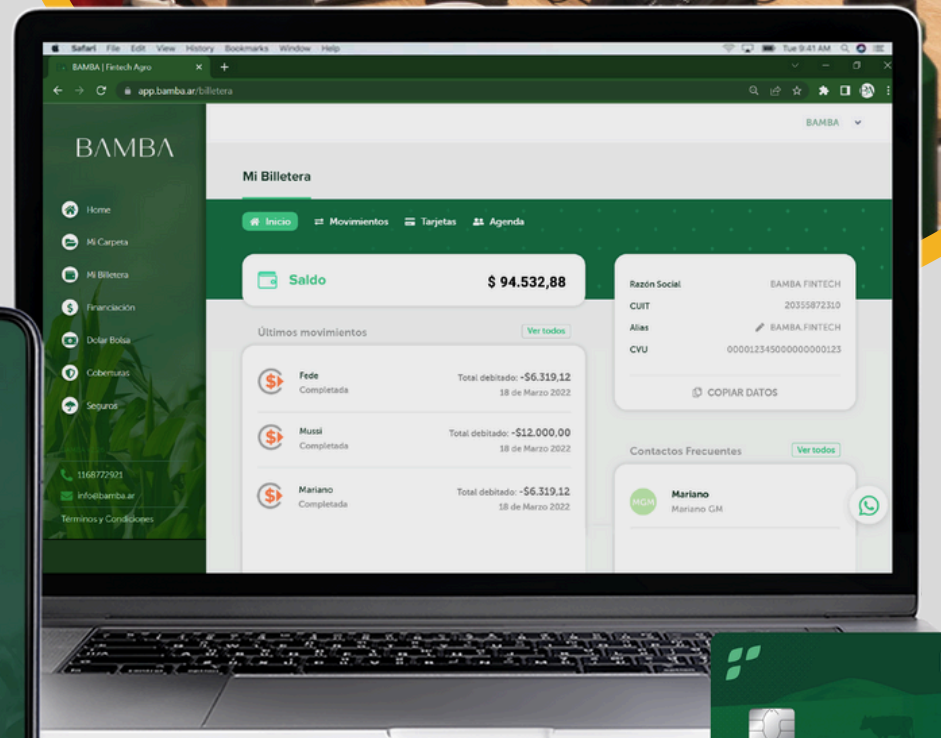

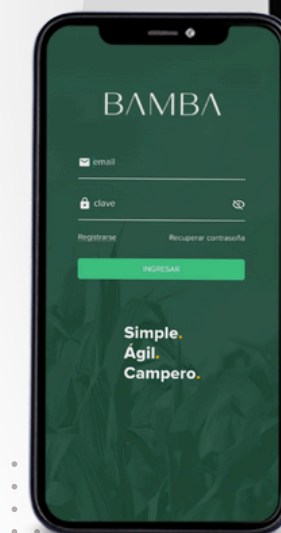

From seed development to consumption, we meticulously manage every stage of production to nurture seeds and cultivate iconic brands. Our diverse business platforms encompass **biotechnology, agriculture, industry, commerce, logistics, and finance**. This comprehensive approach allows us to offer a **wide array of products and services**, including grains, seeds, nuts, legumes, dried fruits, fruit pulps and purées, snacks, cookies, baked goods, juices, waters, dairy products, and superfoods.

As leaders in confectionery sunflower seeds, a specialty of ours, we serve a diverse clientele through manufacturing, direct sales, and retail distribution. **Our clients utilize our raw materials for various purposes**, from product manufacturing to retail under their own brands.

Partnering with Bamba, **our Fintech ally**, underscores our commitment to digital transformation. Globally, we assist clients in adapting to evolving consumer trends, ensuring that **we consistently deliver quality products and innovative services**.
