Products
Fresh Fruits and Vegetables and Organic Frozen Pomegranate Juice

About

Başak Tarım A.Ş. was founded in 1986 in Söke, Aydın. Since its establishment, it has achieved many firsts in various sectors of agriculture, and in 2003, it took another pioneering step by entering the production and export of organic pomegranates. Since 2003, our products have been sold both domestically and exported to many countries, especially in Europe. In recent years, with increasing consumer awareness, the consumption of organic products and foods has become increasingly important in Turkey and worldwide. Agricultural production without pesticides and respecting nature has become particularly important to us. As the Başak Tarım A.Ş. family, we offer our consumers organically certified products, prioritizing human health, natural life, and environmental awareness. Each new season, we produce our products, grown without the use of any harmful chemicals, fertilizers, or pesticides, from our own lands and from farmers under our project, in accordance with ORGANIC AND GLOBAL G.A.P. standards. Furthermore, our existing land and business certifications are: TR-EU- / GLOBAL G.A.P – GRASP.

Products
Canned cucumbers, pickled peppers and mixed vegetables, canned roasted peppers and eggplant, pepper based sauces

About

Lidya Konservecilik was established in 1989 in Turgutlu district of Manisa province, which has the most fertile lands of Aegean region. Our plant, having acquired 35.000 m² indoor area within 80.000 m² area thanks to investments that were made in following years, is the largest plant in Turkey and one of the leading plants in Europe in its field. Inspired by tradition and crafted without compromising on naturalness, our range of pickles, roasted vegetables, sauces, and garnishes adds flavor to every table. Our products are safely consumed thanks to their additive-free ingredients and the freshness preserved in glass jars. The annual production is 60 million glass jars, we produce also tins of 3, 5 and 10 kilograms, at about 1 to 1.5 million pieces. Having reached 200 tons of vegetables on daily basis and a capacity of approximately 750.000 jars, Lidya Konservecilik is engaged in contractual agriculture and offers healthy foodstuffs produced in a controlled manner from high quality raw materials to the end consumer. The quality of our products is supported by the HACCP food control system and certified by our own IFS and BRCGS certificates.

Fresh Fruits and Vegetables

About

Our company, which was a sapling in 1970, has been a big tree that has been bearing its fruits all over the world since that year, like a tree that has been grown with the necessary attention and care. Now the branches of this tree reach all over the world and deliver its health-produced products wherever it goes. Uçak Kardeşler, which has determined the principle of "customer satisfaction" as its basis since its foundation, is moving forward on the right path with the goals it has set in this direction. Uçak Kardeşler, which provides total quality by collecting healthy, reliable and economical products to all its customers and controlling the chain network up to consumption, has taken its place among the leading companies of Turkey in a short time.
