SIBERIA

healthy precious

THE UNIQUENESS OF SIBERIA PRODUCTS

Health

A natural product packed with vitamins and antioxidants to boost a strong immune system.

Ecology

Purity and naturalness from eco-friendly apiaries. Each apiary is located in remote areas, far from cities.

Taste

A rich flavor infused with the essence of blooming meadows and mountain fields.

OUR APIARIES IN RUSSIA

We collect our honey across Russia, from the majestic Altai Mountains to the blooming fields of Krasnodar Krai, and from sunny Bashkiria, renowned for its ancient beekeeping traditions. In these unique locations, apiaries are surrounded by untouched nature, where bees gather nectar from wild meadows, mountain herbs, and forest flowers. This honey embodies the purity and richness of Russian soil, preserving its natural taste and benefits.

📍Altai Mountains

Our apiary in the Altai Mountains

The Altai Mountains in Siberia are famous for their ecological purity, unique flora, majestic peaks, and pristine lakes. Here, one of the world's healthiest honeys—maral root honey—is produced, a source of vitality and strength.

The untouched meadows of Bashkiria

Bashkiria is a region with an ancient beekeeping tradition. Its unique nature and traditions make Bashkir honey one of the most valuable and rare. It is one of the few regions where linden honey is produced in large quantities with special care for the environment and linden trees.

Krasnodar Apiary

Krasnodar Krai, in southern Russia, is famous for its mild climate, diverse nature, and eco-friendly honey. The government actively prioritizes ecology, supporting sustainable agriculture.

HISTORY OF OUR APIARIES

The history of our apiaries began in the 1980s. We uphold the traditions of natural beekeeping and produce honey of the highest quality.

1980s

The Beginning of Our Apiary History.

2,000 hives

total across all our apiaries.

200 tons per year

our production volume.

20 hectares

total apiary area.

5 years in a row

our honey has won first place in national competitions.

ECOLOGICALLY CLEAN ZONES

Our apiaries are located far from industrial sites and farmlands. This ensures the purity of our honey—free from pesticides, antibiotics, and other contaminants.

Bee Training

We use an innovative bee training method to collect nectar from specific nectar-bearing plants. This targeted pollination allows us to produce pure, monofloral honey with unique properties.

DESCRIPTION OF HONEY VARIETIES

Angelica Honey

Angelica honey from the Altai fields boasts a rich amber color and a floral-herbal aroma. Its soft taste carries caramel, woody and herbal notes, leaving a warm aftertaste. This eco-friendly product strengthens the immune system and imbues you with the natural power of Altai.

Dark Polyfloral Honey

Harvested from the meadows of Siberia, this honey offers a rich floral flavor palette, a herbal aroma with a hint of spiciness, and a thick, buttery consistency. The extensive bouquet of flowers collected by bees includes over ten nectar sources, from honeysuckle to cornflower.

DESCRIPTION OF HONEY VARIETIES

Cornflower Honey

Cornflower honey has a light golden hue with a slight emerald tint. Its almond-like aroma and rich floral flavor are complemented by a gentle bitterness. Thick and enveloping, this honey is among the leaders in health benefits.

Acacia Honey

Acacia honey is distinguished by its refined taste, delicate floral aroma, and exquisite pale color, ranging from lemon to dark amber. It has a more liquid texture and crystallizes slowly due to its unique composition. Hypoallergenic and monofloral, it stands out for its uniqueness. Its subtle taste makes it perfect for culinary use.

DESCRIPTION OF HONEY VARIETIES

Light Polyfloral Honey

Light polyfloral honey is in no way inferior to dark polyfloral honey in its beneficial properties. It contains nectar from plants such as sunflower, sainfoin, sweet clover, and other light-colored honey plants. Its taste and aroma are slightly more delicate.

Chestnut Honey

Chestnut honey is a rare and valuable variety with a dark hue and a delicate floral aroma of chestnut blossoms. Its taste is exquisitely tangy with a piquant bitterness. Packed with vitamins, amino acids, and trace elements, it has antiseptic, anti-inflammatory, and antioxidant properties.

DESCRIPTION OF HONEY VARIETIES

Sweet clover honey

Mild in flavor with vanilla and herbal notes, this light golden honey offers a delicate aroma and smooth texture. Rich in antioxidants, it enhances circulation, eases stress and headaches, supports immune function, and promotes recovery after physical or emotional fatigue.

Linden Honey

Linden honey has anti-inflammatory, antiseptic, and calming properties. Rich in vitamin C, it helps with colds and flu, promotes better sleep, stimulates metabolism, and has antioxidant effects.

OUR SPECIAL OFFER

Maral Root Honey

Maral root honey combines the beneficial properties of honey with the adaptogenic qualities of Rhaponticum carthamoides. It improves sleep, metabolism, heart function, and restores energy. Perfect for an active lifestyle and recovery after exertion.

ABOUT US

LLC "Levikor" has been successfully exporting high-quality honey from Russia under the **Siberia** brand since 2024. Our core specialization is eco-friendly products that meet the highest international standards. We place great emphasis on selecting apiaries, working exclusively with trusted and reliable suppliers. Each product undergoes comprehensive composition analysis, allowing us to guarantee the exceptional quality and natural purity of our honey.

Levikor is part of the **Levingroup,** established in 2013, which encompasses several key business areas:

Traditional Public Baths

Levingroup manages a network of public baths, providing health and recreational services that are highly sought after in the Russian market.

Food Production and Distribution

Levingroup offers high-quality products from its own production and those sourced from third-party manufacturers, distributed through major retail chains.

Development

The company actively develops infrastructure projects, expanding its presence in the commercial and residential real estate sectors.

We are confident that partnering with **Levikor** will contribute to the growth of your business and provide you with access to premium-quality, eco-friendly products.
