- Longtime partners with fishing fleet and communities of West Coast North America
- Stability – Consistent Supply – Financial Strength
- Over 200 Delivery Trucks and Vehicles
- Offer Fresh, Commodity, Value Added, Smoked and Consumer Packaged Goods
- Exporter – Importer

Stewardship and Sustainability

Pacific Seafood Stewardship Mission: Make ecologically and ethically sound choices, which conserve ocean resources and provide a sustainable and healthy food source for present and future generations.

- Member and or supporter of The North Pacific Council, Pacific Fisheries Management Council and Pacific Halibut Commission
- Founding charter member of NFI and Better Seafood Board

Pacific Seafood Sustainability Mission: Promote and support socially and ecologically responsible resource management practices worldwide with the understanding that improving the state of our shared seafood resources is our legacy.

- 13 MSC certified facilities processing 11 MSC certified species
- Member of Ocean Trust

Quality Assurance and Traceability

Quality Assurance:

- Pathogen Prevention Program – Lab technicians with in-house labs
- Experienced highly trained QA staff at each facility headed by Dr. John Lin
- HACCP inspected, USDA and MSC certified facilities

Traceability:

- Automated Production Controls (ACP) - Industry leading systems to trace resource to assure food safety*
- Partner of Trace Register for integrated online traceability from farms to marketplace
- Pacific Seafood and third party inspected overseas operations for quality assurance*
