

## HEALTHY PRACTICES FOR SKIN, FEET AND NAILS

There are a number of health practices that can contribute to maintaining healthy skin and nails especially on the feet.

Dry carefully after bathing especially between the toes. If the towel is too thick to allow you to dry between the toes adequately, use a tissue. Change your socks each day. Use the foot powder in your shoes especially during hot weather to help in the absorption of moisture, and to help eliminate odours caused by fungi.

As fungi are prevalent in the soil, use gloves and wear closed footwear, when gardening.

## DEVELOPED & PRODUCED BY

Biovite Australia Pty Ltd  
1/45 Township Drive  
WEST BURLEIGH, QLD 4219 AUSTRALIA  
Phone: +61 7 5520 7544

## NATURAL INGREDIENT

The biosource of this product has its origin in one of the earliest forms of plant life on our planet earth. It is a microscopic water borne single cell plant that has been used for centuries as a highly nutritious source of food containing very high levels of essential vitamins and anti-oxidants.

Tests have shown the cream and lotion stimulate the growth of the skin derived cells such as keratinocytes thus, enhancing skin, nail and hair growth. Calmagen products are non toxic, and non sensitising.

As AMYCOT® is a plant based product there may be changes in the colour and smell from batch to batch. This is caused by changes in the climatic conditions during the growing period. Also, should you notice that a clear liquid appears at the top of the tube or bottle, do not be concerned. The plant material absorbs water during processing and sometimes releases some of this later. If this does occur give the tube or bottle a vigorous shake.

**biovite**<sup>®</sup>  
A Biotechnology Company

# Calmagen<sup>®</sup>

For the relief or treatment of fungal infections by topical application.

# Calmagen®

For the relief or treatment of fungal infections by topical application.

## Calmagen NailKalm® Dermaceutical Lotion

AUST L 148668

Principally for the treatment of fungal nails but also may be used for fungal skin conditions. May also help to reduce nail blemishes and restore fungal nails to a healthy state.

## Calmagen FootKalm® Dermaceutical Powder

AUST L 148908

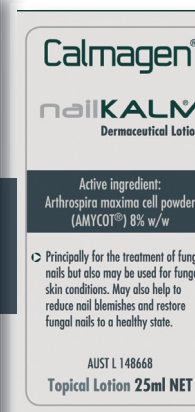

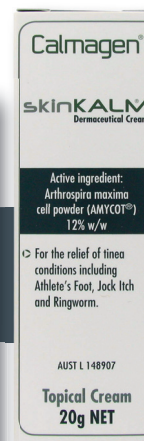

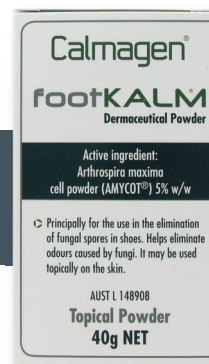

Principally for the use in the elimination of fungal spores in shoes. Helps eliminate odours caused by fungi. It may be used topically on the skin.

## Calmagen SkinKalm® Dermaceutical Cream

AUST L 148907

For the relief of tinea conditions including athlete's foot, jock itch and ringworm.
