GRAFFITI REMOVERS

STRIPPERS AND CLEANERS

## Protecting materials

Guard Industry is a French company with more than twenty years experience of research, production and development of a wide range of products for the protection, decoration, cleaning and maintenance of building materials.

Our company develops eco-friendly solutions for the protection and prevention of all kinds of stains, pollution or graffiti for all types of materials such as natural and artificial stone, concrete, brick, wood, and more.

## Clean and protect

Guard Industry has developed a range of matching products combined in a simple two step procedure to clean and protect all types of surfaces.

Just as you would clean your skin before applying a cream or treatment, it is essential to prepare and refurbish your surfaces before applying any protection agent.

Our range of cleaning and stripping agents will return stained or weathered surfaces to their original state. Thoroughly cleaning the surface ensures the good penetration of our protection products within the material and provides an aesthetically pleasant result. Although thoroughly efficient, most Guard Industry cleaners and strippers are ecologically friendly.

Once the material has been refurbished, applying our protection/ decoration products will prevent major damage from water leaks, dirt, grease stains, graffiti, pollution, fungus, frost or other sources and preserve their appearance and appeal.

## Combining chemistry and ecology

Guard Industry's main concern is to respect both building materials and the environment. Most of our products are water based and solvent-free and respect strict environmental protection specifications.

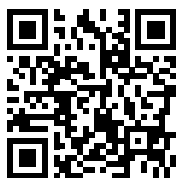

## Eco-design & energy saving

Guard Industry products are exceptionally long lasting. Our expertise guarantees ten years of good performance for our ProtectGuard® product range. Buildings protected with our products retain that new look and remain clean much longer. Our products reduce the amount of water and chemicals used for cleaning and maintenance.

## A strong community commitment

Eager to develop awareness amongst building professionals, Guard Industry attaches great importance to the development, promotion & distribution of green technologies and actively supports organisations working to protect the environment.

about our products !**

# PROTECTION PRODUCTS

The ProtectGuard® range is the absolute reference for water-repellent, oil-repellent and anti-graffiti protection of facades, walls, floors and roofing surfaces, that have varying degree's of porosity.

## A suitable protection for each building material

There is a diversity of construction materials, and for each one a ProtectGuard® product has been developed to suit specific types of substrate.

# PROTECTGUARD®

## Water & oil repellent, anti-staining and anti-graffiti for porous materials

Product code: 2100

- **PROTECTS AGAINST WATER, OIL AND FROST**
- **STAIN REPELLENT**
- **PROTECTS AGAINST GRAFFITI**
- DELAYS THE BUILD OF DIRT AND DUST
- DOES NOT FORM A FILM
- INVISIBLE, ODOURLESS
- HIGH UV RESISTANCE
- **WALLS, FLOORS, ROOFS**
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

### ECOLOGICAL PRODUCT

- water based
- no petroleum solvents
- silicone free
- VOC < 20 g/l
- biodegradable > 90%
- non toxic
- non hazardous
- non flammable

1 litre = 4 - 8 m<sup>2</sup>

### PROPERTIES

ProtectGuard® prevents the penetration of water, greasy stains (oil, fats, etc..) and soiling (pollution, etc..) and repels graffiti.

A surface treated with ProtectGuard® keeps its new appearance longer and provides easy maintenance.

Colourless after application, ProtectGuard® does not alter the appearance or the nature of the treated support. It is resistant to UV and does not yellow over time.

ProtectGuard® does not create a surface film: the material remains permeable to air and water vapour.

### USE

Ideal for treating all porous materials:

- Natural and artificial stone, terracotta (tiles, bricks, etc..), concrete, interlocking paving, cement, plaster, etc.

Can be used to protect:

- New, old or refurbished buildings, facades, roofs, terraces, stairs, barbecues, balconies, pool decks, floors, fireplaces, tile joints, etc.

10 YEARS

A ten year quality guarantee

# PROTECTGUARD® HD

## HEAVY DUTY

**Water & oil repellent, anti-staining  
for floors submitted to heavy duty**

Product code: 2110

- **PROTECTS AGAINST WATER, OIL AND FROST**
- **STAIN REPELLENT**
- DELAYS THE BUILD OF DIRT AND DUST
- ABRASION RESISTANCE
- DOES NOT FORM A FILM
- INVISIBLE, ODOURLESS
- HIGH UV RESISTANCE
- **FLOORS**
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

### ECOLOGICAL PRODUCT

- water based
- no petroleum solvents
- silicone free
- VOC < 23 g/l
- biodegradable > 90%
- non toxic
- non hazardous
- non flammable

1 litre = 5 - 10 m<sup>2</sup>

### PROPERTIES

ProtectGuard® HD protects all porous materials subject to heavy duty against penetration of water, oil, stains and dirt.

A surface treated with ProtectGuard® HD keeps its new appearance longer and provides easy maintenance.

Colourless after application, ProtectGuard® HD does not alter the appearance or the nature of the support. It is resistant to UV and does not yellow over time. ProtectGuard® HD does not create a surface film: the material remains permeable to air and water vapour.

### USE

Ideal for porous material treatment:

- Concrete, natural and artificial stone, limestone, terra cotta, cement, etc.

Highly recommended to protect surfaces subject to heavy duty:

- Public squares, sidewalks, pedestrian areas, patios, around a barbecue, pool decks, lobbies, stairs, countertops, etc.

ProtectGuard® HD can also be applied to unpolished or non-crystallized walls and facades built with low porous materials to acquire protection against graffiti.

10  
YEARS

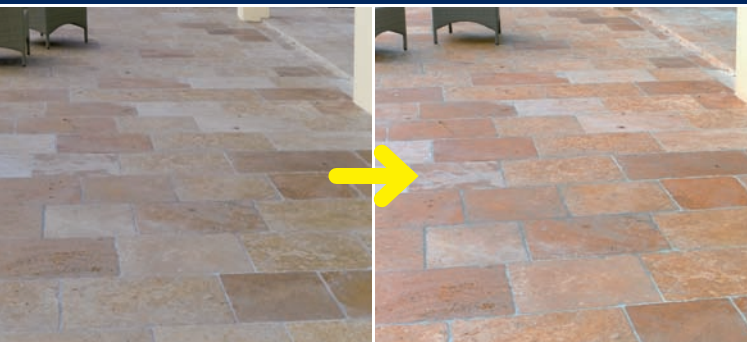

A ten year  
quality guarantee

# PROTECTGUARD® WF

## WET FINISH

Water & oil repellent, anti-staining and wet look finish for porous materials

Product code: 2130

- PROTECTS AGAINST WATER, OIL AND FROST
- STAIN REPELLENT
- ENHANCES ORIGINAL COLOUR WITH A WET LOOK FINISH
- DELAYS THE BUILD OF DIRT AND DUST
- DOES NOT FORM A FILM
- HIGH UV RESISTANCE
- FLOORS, WALLS
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

### ECOLOGICAL PRODUCT

- water based
- no petroleum solvents
- silicone free
- VOC < 1 g/l
- biodegradable > 90%
- non toxic
- non hazardous
- non flammable

1 litre = 8 - 15 m<sup>2</sup>

### PROPERTIES

ProtectGuard® WF protects all porous building materials and gives them a wet look. ProtectGuard® WF prevents water, oil and dirt of all kinds from penetrating the material.

A surface treated with ProtectGuard® WF keeps its new appearance much longer and provides easy maintenance.

The treatment provides a "wet" effect which enhances the original colour.

ProtectGuard® WF is UV resistant and does not yellow over time. It does not create a surface film: the material remains permeable to air and water vapour.

### USE

ProtectGuard® WF can be used with no restrictions indoors and outdoors on all porous materials:

- Natural and artificial stone, limestone, terracotta, paving stones, etc.

# PROTECTGUARD® MG

MARBLE & GRANITE

**Water & oil repellent, anti-staining  
for low and very low porous materials**

Product code: 2140

- **PROTECTS AGAINST WATER, OIL AND FROST**
- **STAIN REPELLENT**
- ABRASION RESISTANCE
- 90% ACTIVE FORMULA
- DELAYS THE BUILD OF DIRT AND DUST
- DOES NOT FORM A FILM
- INVISIBLE, ODOURLESS
- HIGH UV RESISTANCE
- **FLOORS, WALLS**
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

## ECOLOGICAL PRODUCT

- VOC < 60 g/l
- biodegradable > 90%
- non toxic
- non hazardous
- non flammable

1 litre = 8 - 20 m<sup>2</sup>

## PROPERTIES

ProtectGuard® MG is a new generation high performance protection product for marble, granite and low porosity surfaces.

ProtectGuard® MG protects against water, oil and grease. An impregnating, non film-forming product, ProtectGuard® MG leaves the treated material permeable to air and water vapour.

ProtectGuard® MG is colourless and does not alter the appearance or the nature of the support. It is UV resistant and does not yellow over time.

## USE

ProtectGuard® MG can be used indoors or outdoors, on vertical and horizontal surfaces. Ideal for treating low and very low porous materials:

- Marble, granite, ceramic, porcelain, stoneware, polished and crystallised surfaces and all smooth mineral surfaces, especially slightly porous siliceous granite materials.

10  
YEARS

A ten year  
quality guarantee

**GUARD HARDENER®****WET SURFACE****Mineraliser and hardener  
for flaky mineral substrates**

Product code: 7200

- SOLVES DAMP PROBLEMS
- HARDENS AND CONSOLIDATES MATERIALS
- CAN BE COATED
- "ANTI-DUSTING" ACTION
- NON FILM FORMING
- COLOURLESS
- FLOOR AND WALLS
- OUTDOOR / INDOOR USE

**ECOLOGICAL PRODUCT**

- water based
- no solvents
- VOC < 1 g/l
- biodegradable > 90%
- non toxic
- non hazardous
- non flammable

**PROPERTIES**

Guard Hardener® Wet Surface is a mixture of sodium silicate in an aqueous phase designed to treat efflorescence and surface salts. It consolidates friable substrates damaged by intrusion of water and damp and mitigates problems of rising damp.

Guard Hardener® Wet Surface also solves problems of efflorescences, salpeter, humidity...

Very dense, Guard Hardener® Wet Surface utilises water as a vehicle and makes use of it to crystallise, harden and mineralise.

Guard Hardener® Wet Surface is colourless and does not alter the appearance or the nature of the support. It lets the material breathe.

**USE**

Guard Hardener® Wet Surface is used wherever once-for-all drying is required (waterproofing, crumbling...).

- Ideal to treat facades, walls, tankings, basements, etc.

1 litre = 0.5 - 2 m<sup>2</sup>

# GUARD ANTIMOSS®

## Complete destruction of moss, lichen, seaweed and fungus

Product code: 7100

- REMOVES MOSS, LICHEN SEAWEED AND FUNGUS
- PREVENTIVE - CURATIVE
- RESIDUAL EFFECTS
- DOES NOT DAMAGE MATERIALS
- NONYLPHENOL-FREE
- CHLORINE-FREE AND SOLVENT-FREE
- WALLS, FLOORS, ROOFS
- EXTERIOR
- EASY TO USE
- READY TO USE

### PROPERTIES

Guard Antimoss® is a preventive and curative treatment with long-lasting action.

**Curative:** Guard Antimoss® destroys all parasitic vegetation, which is then washed away by the rain or simply brushed off.

**Preventive:** The active ingredients of Guard Antimoss® are fixed into the substrate. They limit the proliferation of mould and make it more difficult for parasitic plants to germinate.

Guard Antimoss® is harmless to treated surfaces: it does not alter the colour of the substrate, does not create a film and does not yellow. Guard Antimoss® has residual effects that last for 1 to 3 years after application.

### USE

Guard Antimoss® is applied outdoors to all types of materials:

- Terracotta, slate, concrete, natural stone, asphalt, surfacing, wood, composite or synthetic materials, glass, fabrics, etc.

Recommended to treat:

- Roofs, walls, balconies, fountains, fences, flagstones, railings, decking, boat hulls, awnings, tennis courts, etc.

1 litre = 8 - 10 m<sup>2</sup>

GRAFFIGUARD® 2030

ECOLOGICAL

## Graffiti cleaner specially for non painted and porous surfaces

Product code: 1230

- REMOVES ALL TYPES OF GRAFFITI
- USABLE ON A WIDE VARIETY OF SURFACES
- HARMLESS TO TREATED MATERIALS
- QUICK EFFICIENCY
- NMP-FREE
- WALLS
- INTERIOR / EXTERIOR
- EASY TO USE
- REASY TO USE

### ECOLOGICAL PRODUCT

- no NMP
- VOC < 175 g/l
- biodegradable > 80%

### PROPERTIES

GraffiGuard® 2030 Ecological is the result of the latest research into graffiti removal. It contains no products hazardous to humans, the environment or the ozone layer (no chlorinated, fluorinated or petroleum-based solvents, NMP, NEP, etc.).

GraffiGuard® 2030 Ecological is intended as first-line treatment for all types of ink and paint graffiti. Being viscous, GraffiGuard® 2030 Ecological is particularly suitable where a long period of action is required, as is the case with porous surfaces.

### USE

GraffiGuard® 2030 Ecological is designed to be used both indoors and outdoors for removal of all graffiti.

- Ideal for all porous materials (brick, clinker brick, plaster, natural stone, concrete, rendering, wood, etc.), low porous materials and substrates protected by ProtectGuard®.

1 litre = 1 - 3 m<sup>2</sup>

**GUARD CLEANER® ECO****SOILED FLOORS****Stripper - cleaner  
soiling and greasy stains**

Product code: 1350

- **NO NEUTRALISATION NECESSARY**
- **NON CORROSIVE**
- **NON IRRITANT**
- VERY VERSATILE
- STRONG CLEANING POWER
- FAST ACTING
- DOES NOT ALTER THE MATERIAL APPEARANCE
- **FLOORS**
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

**ECOLOGICAL PRODUCT**

- water based
- soda free
- potash free
- no organic solvent
- VOC < 1 g/l
- biodegradable > 90%
- non toxic
- non hazardous

**PROPERTIES**

Guard Cleaner® Eco Soiled Floors is a deep action floor cleaning agent which removes dirt and grease stains caused by air pollution.

Guard Cleaner® Eco Soiled Floors can also be used for the maintenance of surfaces protected by the ProtectGuard® product range.

Guard Cleaner® Eco Soiled Floors is non hazardous and does not damage or alter the materials appearance.

**USE**

Guard Cleaner® Eco Soiled Floors is particularly suitable for horizontal surfaces and can be used on all types of materials both indoors and outdoors.

- It can be used to clean concrete, cement, natural or artificial stone, terracotta, tile, marble, etc.
- Ideal for treating patios, pool decks, BBQ areas, kitchens and all porous floors

1 litre = 5 - 8 m<sup>2</sup>

**GUARD REMOVER<sup>®</sup> ECO****EFFLORESCENCE & CEMENT****Stripper - cleaner  
cement residues, scale deposits  
and efflorescence**

Product code: 1340

- **NO NEUTRALISATION NECESSARY**
- **NON CORROSIVE**
- **NON IRRITANT**
- VERY EFFICIENT
- FAST ACTING
- DOES NOT ALTER THE MATERIALS APPEARANCE
- **FLOORS AND WALLS**
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

**ECOLOGICAL PRODUCT**

- water based
- no sulfuric acid
- no phosphoric acid
- no hydrochloric acid
- no petroleum solvents
- VOC < 1 g/l
- biodegradable > 90%
- non flammable
- non hazardous

**PROPERTIES**

Guard Remover<sup>®</sup> Eco Efflorescence & Cement is a new generation deep action cleaner which removes cement or concrete residues, scale, and traces of efflorescence.

It is composed of particularly effective molecules with excellent cleaning properties that destructure the material.

Guard Remover<sup>®</sup> Eco Efflorescence & Cement is safer than other products on the market which are based on citric, hydrochloric or phosphoric acid.

Guard Remover<sup>®</sup> Eco Efflorescence & Cement does not alter the treated material and does not modify its porosity.

**USE**

- Guard Remover<sup>®</sup> Eco Efflorescence & Cement can be used on all surfaces, including delicate ones, such as glass, rubber, paint without altering their appearance.
- Ideal for treating : terracotta tile, concrete, cement, natural stone, tile, etc.

1 litre = 5 - 8 m<sup>2</sup>

**GUARD CLEANER®****POLLUTED FACADES****Stripper - cleaner  
stains and pollution**

Product code: 1330

- **NO NEUTRALIZING NECESSARY**
- **NON CORROSIVE**
- **NON IRRITANT**
- HIGH POWER CLEANER
- DOES NOT ALTER THE MATERIALS APPEARANCE
- **ALL VERTICAL SURFACES**
- EXTERIOR
- EASY TO USE
- READY TO USE

**ECOLOGICAL PRODUCT**

- water based
- soda free
- potash free
- VOC < 1 g/l
- biodegradable > 85%
- non toxic
- non hazardous

**PROPERTIES**

Guard Cleaner® Eco Polluted Facades is an innovative, deep acting agent to remove deep set dirt, grime and pollution from walls and facades.

Guard Cleaner® Eco Polluted Facades removes greasy stains and pollution related stains.

Guard Cleaner® Eco Polluted Facades is particularly well suited for vertical surfaces (walls, facades and roofing).

This non drip product is very easy to apply with a brush or roller depending on the surface.

Guard Cleaner® Eco Polluted Facades is non hazardous and does not damage or alter the material.

**USE**

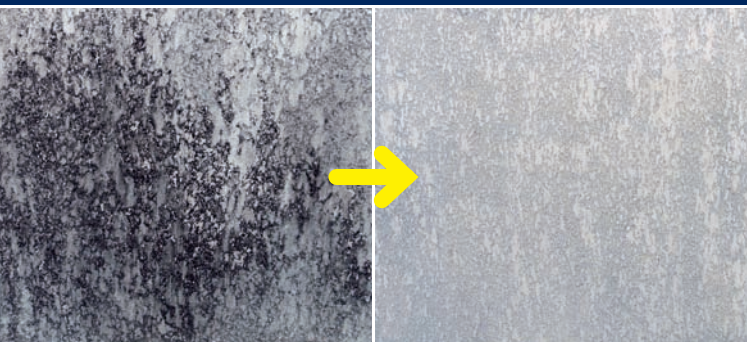

- Guard Cleaner® Eco Polluted Facades can be used on all sorts of materials such as cement, concrete, natural and artificial stones, painted surfaces and more.

1 litre = 5 - 7 m<sup>2</sup>

**GUARD WASH®**

**Fast superactivated cleaner  
Eliminates moss, fungi and  
all organic stains**

Product code: 1410

- **NO HYDROCHLORIC OR PHOSPHORIC ACIDS**
- **VERY STRONG CLEANING ACTION**
- **FAST ACTING**
- **WALLS, FLOORS, ROOFS**
- **EXTERIOR**
- **EASY TO USE**
- **READY TO USE**
- **WATER BASED**

**PROPERTIES**

Guard Wash® is a powerful, deep acting cleaner which removes organic and microbiological stains (greasy stains, pollution, mosses, etc..) from all porous building materials.

Guard Wash®'s powerful action also helps limiting the return of fungi. However, for complete protection, a ProtectGuard® product is recommended.

Guard Wash® contains no hydrochloric or phosphoric acids and replaces harsh detergents, acids or alkalis which damage the surfaces and can be hazardous to use.

**USE**

- Guard Wash® is the ideal universal product to treat walls, roofs, balconies, fountains, ponds, buildings, fences, decks, slabs, garden, boat hulls, tennis courts, etc.
- Especially recommended for renderings and coatings.

1 litre = 3 - 7 m<sup>2</sup>

**GUARD REMOVER<sup>®</sup> ECO VG****PAINTED SURFACES**

## Biodegradable remover for paint, varnishes and organic coatings.

### Gel version

Product code: 1100

- NO NEED TO RINSE
- ODOURLESS
- NON CORROSIVE
- NON IRRITANT
- GEL VERSION
- HIGH POWER CLEANER
- DOES NOT ALTER MATERIALS
- PARAFFIN-FREE
- METHYLENE CHLORIDE-FREE
- MULTI-SURFACE
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

**ECOLOGICAL PRODUCT**

- water based
- chlorinated solvent-free
- VOC < 85 g/l
- biodegradable > 90%
- non toxic
- non hazardous

1 litre = 1 - 4 m<sup>2</sup>**PROPERTIES**

Guard Remover<sup>®</sup> Eco VG Painted Surfaces is a powerful new generation stripper designed for stripping paints, varnishes and organic coatings.

Guard Remover<sup>®</sup> Eco VG Painted Surfaces is a non hazardous, pH-neutral stripper. It contains no chlorinated solvents and therefore does not have the drawbacks of traditional strippers (flammability, hazardous to both user and environment...).

In the form of a viscous liquid, Guard Remover<sup>®</sup> Eco VG Painted Surfaces can be applied with a brush. Once applied, it can stand several hours on vertical surfaces without problem (e.g for night work). The fact there is no paraffin, substrates can be cleaned without rinsing and then be covered with a new coat of paint or coating.

**USE**

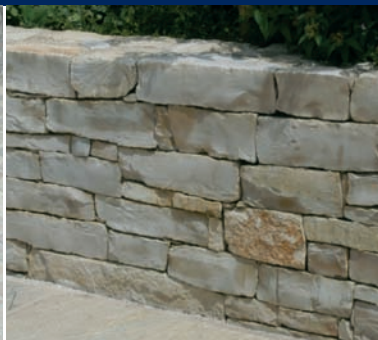

- Can be used indoors and outdoors on a large range of substrates (plaster, brick, metal, wood, stone...) and on many paints (acrylic, glycerol, polyurethane...).
- Gel version ideal for vertical surfaces. Can also be applied to horizontal surfaces.

**GUARD REMOVER<sup>®</sup> ECO VL****PAINTED SURFACES**

Guard Remover<sup>®</sup> Eco VG Painted Surfaces also exists in a liquid version, ideal to remove very quickly paints from horizontal surfaces !

**GUARD MAINTENANCE<sup>®</sup> ECO****Biodegradable cleaner  
for maintenance of surfaces already  
protected by a ProtectGuard<sup>®</sup> product**

Product code: 1300

- **NO NEUTRALISATION NECESSARY**
- **NON CORROSIVE**
- **NON IRRITANT**
- STRONG CLEANING POWER
- FAST ACTING
- **MULTI-SURFACE**
- INTERIOR / EXTERIOR
- EASY TO USE
- READY TO USE

**ECOLOGICAL PRODUCT**

- water based
- soda free
- potash free
- no petroleum solvent
- VOC < 1 g/l
- biodegradable > 90%
- non toxic
- non hazardous

**PROPERTIES**

Guard Maintenance Eco<sup>®</sup> was designed for the cleaning and daily maintenance of all mineral surfaces treated with a protection product from the ProtectGuard<sup>®</sup> range.

Guard Maintenance Eco<sup>®</sup> removes stains and dirt (air pollution, oil, grease, food, etc..) without altering the materials appearance or its protection. It preserves the clean and new-looking appearance of all surfaces.

**USE**

- Guard Maintenance Eco<sup>®</sup> can be used on all mineral surfaces previously protected with a product from the ProtectGuard<sup>®</sup> range.
- Guard Maintenance Eco<sup>®</sup> can also be used for cleaning synthetic surfaces used in the construction industry such as PVC, painted surfaces, aluminium, zinc, brass, galvanized and stainless steel, plastic tarpaulins.

1 litre = 5 - 8 m<sup>2</sup>

**Some of the many projects completed by Guard Industry-approved applicators:**

1: Bouygues Immobilier Headquarters, Issy-les-Moulineaux - Christian de Portzamparc • 2: Place de Catalogne, Paris\* • 3: RATP bus centre, Thiais - Cabinet ECDM • 4: Tour Horizons, Boulogne - Ateliers Jean Nouvel • 5: Fundação Iberê Camargo, Porto Alegre (Brazil) - Alvaro Siza • 6: Elvet Bridge, Durham (UK) • 7: Senate, Paris\* • 8: Erdos Grand Theatre, Inner Mongolia (China) - Liu Wenjie • 9: Siddheshwar Temple Dome, Solapur-Maharashtra (India) • 10: Haven project, Horning (UK) - Lambert, Scott and Innes.
