

CONNECT

After taking amazing pictures with your PEN, share them easily with everyone on social sites, no matter where you are with the wireless Image Share system.

With a FlashAir* card inside the PEN E-PL5 or PEN E-PM2, conveniently browse the contents of your camera through your smartphone or tablet using the free OI.Share app. Select the pictures you wish to send out to the Twitterverse or Facebook, hit send, and you're done!

The OI.Share app is so versatile that you can even apply Art Filters to jazz up your images on your phone before you send them. Use the Art Filters to transform any normal picture into something that will truly earn you creative kudos! Choose from retro Grainy Film, funky Pop Art, mysterious Pin Hole, romantic Soft Focus, impressive Dramatic Tone, amongst a large choice of cool filter effects.

*PEN E-P3 not supported

ART FILTER

Browse the pictures on your camera using your smartphone or tablet and apply your choice of Art Filter effects before you send.
