

Founded over 15 years ago, the Tilman® laboratory has become a leading medicinal herbal specialist in Belgium, whose business is also developing rapidly in many other countries. Tilman® has one of the most modern and well equipped laboratories for the manufacturing of herbal based pharmaceutical products in Europe. Thanks to its dynamic R&D team, its latest equipment and in accordance with the most demanding standards, Tilman® is constantly innovating and developing new herbal based preparations sold not only under its own brand names, but also as private labels, with a wide variety of modern dosage forms: syrups, sprays, tablets, capsules, infusion and tea bags, creams, balms, etc...

Strong points

Products

Tilman® is honoured as the leading **GMP** pharmaceutical manufacturer of **OTC** herbal medicine products by the Belgian Health Government.

Its wide range of products includes and is not limited to :

1. Eight proprietary and efficient herbal medicines registered by the Belgian Pharmaceutical Administration :

Eucalytux Syrup : based on eucalyptus and codeine, against dry cough.

Sedanxio® / Sedistress® capsules : based on Passiflora, against stress and anxiety.

ThymoSeptine Syrup : based on thyme, relieving throat pain and bronchitis.

Veinofytol® capsules : based on horse chestnut, against chronic veins deficiencies, with painful inflammation

Urocystil® capsules : based on bearberry (uva-ursi), treatment of acute cystitis.

Cynactil® capsules : based on artichoke and rosemary, against dyspepsia.

Laxafytol® capsules : based on Rhamnus Purshianus, against acute constipation.

2. Health Food Supplements with a wide range of formulations and applications e.g. :

Flexofytol® capsules : based on a concentrate of bio-assimilated Curcuma, against sensitive joints.

Antimetil® tablets : based on concentrate of ginger, against various sources of nausea.

Nasafytol®, based on bio-assimilated Quercetine and concentrated Curcuma, plus Vitamin D3, against allergic rhinitis.

Cholesfytol®, based on red yeast rice and olive extract, reducing the level of cholesterol.

3. Biological infusions, teas and other herbal remedies with a wide range of applications :

Brand names : Elimin® and Biolys.

Manufacturing / GMP (OEM SERVICES)

Tilman®'s expertise in manufacturing and quality control meets the most stringent international GMP standards of the pharmaceutical industry.

With many years of experience in manufacturing **health food supplements**, **herbal medicinal products** and **teas**, Tilman® enjoys a firmly established international presence not only in Europe but also overseas (e.g. Middle and Far East, Africa, Asia...). In particular, Tilman® has been manufacturing for many years private labels for major renowned laboratories in the world. Tilman®'s reputation is based on best service, great flexibility and a 100% customer satisfaction.

R&D / Quality

Over the years, with over 102 specialists totally devoted to the production and sales of herbal medicines, Tilman® has created, developed, and commercialised a very wide range of healthcare products such as **cough** and **cold remedies**, **natural anxiolytics**, **digestive**, **slimming**, **joint care remedies**, etc... in different dosage forms.

Tilman® products are rigorously tested for purity, potency and quality.

Tilman® develops and manufactures phytotherapy products under its trademarks but also as private labels in a large variety of dosage forms : **syrups • sprays • pastilles • capsules • infusions • creams • balms**, etc.
