

CLARENA®

01.08.2012 – 28.02.2013

www.clarena.eu

Offer for beauty salons

Clarena is the organiser of the event for Professional Beauty Awards for the three consecutive years. The jury was represented by representatives from the professional beauty industry, business partners, showbiz celebrities and media. Beauty therapists are presented with awards for their contribution to the industry. This is one of the most prestigious and popular event for the beauty and cosmetic industry in Poland.

Clarena headquarters in Poland.

Clarena Spa Training Sanctuary.

Clarena Beauty Training Centre.

Clarena has its own Professional Beauty training centre, Sales and Marketing showrooms. A wide range of beauty products, cosmetic treatments and beauty devices and trainings is available to all customers.

Ladies and Gentlemen,

Welcome to our latest professional catalogue. We have some exciting news to present – the achievements of our research and development team. Especially for the environmental friendly we have created a line of organic products. Ecology, the latest Clarena edition focuses on the holistic approach to skincare. The research and development team has sourced ingredients worldwide to create this magnificent range.

Eco Line combines not only products made from 100% natural ingredients, but also an innovative packaging with TAG system. With this patented packaging system the product is always sealed and protected, as well as very easy to recycle.

We invite you to discover Clarena

Patrycja Popielec

The President of Clarena

Clarena is a brand recognized by clients and professionals. The company's activity has been awarded with numerous awards that emphasize the dynamic growth, innovation, quality, professionalism, commitment to education and creating a cosmetic luxury brand.

Clarena fall premieres

MAŁGORZATA PINDUR
Head of implementation
department

Dermatology is a new, specialist line of products intended for professional cosmetologic treatment of dermatological effectiveness. They will be available upon completion of theoretical and practical product training after which the trainee will obtain a numbered certificate. The fall premiere consists of **Frost Peel I and II**. Thanks to unique combination of gel base with trichloroacetic acid an easy to implement, safe and highly effective peeling is produced with a broad spectrum of activity and insignificant

inconvenience to customers. Because of the increased sensitivity of the skin and the possibility of a deeper penetration of cosmetics, after the chemabrasion we recommend products based on 100% natural components - Eco Line. They ensure optimum professional and home post-treatment care, which soothes irritation and increases the rate of skin regeneration. I am convinced that thanks to the proposed by Clarena products and treatments you will get a large group of new and satisfied customers.

Dermatology Line* News with TCA

News with TCA consist of innovative cosmetics intended for professional care, using interdisciplinary knowledge and experience. Guarantee visible actions effectiveness combined with safety using on the basis of specialist trainings.

① PEELING SET I FROST PEEL I

Professional kit designed to perform specialized chemical exfoliating treatments of I- st degree. Recommended for mature skin requiring strong stimulation and revitalization Also recommended for seboreic skin with blackheads, small amount of scars and hyperpigmentation.

1730 prof.

Kit includes:

- 30% TCA	10 x 3 ml
- FROST PEEL BASE	30 ml
- Dosing syringe	1 szt.

①

② PEELING SET II FROST PEEL II

Professional kit designed to perform specialized chemical exfoliating treatments of II degree. Recommended for skin with wrinkles, signs of photoaging, loss of firmness and elasticity. Unblocks the sebaceous glands, lightens discolorations and reduces the depth of stretch marks and scars.

1731 prof.

Kit includes:

- 40% TCA	10 x 3 ml
- FROST PEEL BASE	30 ml
- Dosing syringe	1 szt.

②

FROST PEEL BASE

Base designed for connecting with 30 and 40% TCA in order to prepare a professional Frost Peel I, II.

1732 prof. 30 ml

LOTION PREPARING BEFORE TREATMENTS WITH ACIDS PRE PEEL CLEANSER

Indispensable before treatments using AHA, BHA, PHA, TCA, and pyruvic acid. Cleanses the skin from the superficial keratinized layers of the epidermis and unblocks the sebaceous glands. This allows an even penetration and increases the effectiveness of any type of acids.

1271 prof. 200 ml

* The condition of purchasing the products is a numbered Clarena certificate

* Products available from September

Golden Vit C Line* New

modified line with a double dose of vitamin C and a new, free from parabens, petroleum derivatives, silicones and other potential allergenic formula. Comprehensive treatment recommended for dull complexion with insufficient oxygen and a tendency to wrinkles, discolorations and telangiectasia.

Eco Line* New

Soothing and regenerating treatment with plant stem cells

Step I: Remove the make-up from your eyes with Perfect Eye Cleanser, and from your neck and décolletage with Sensitive Milk, tone it with Sensitive Tonic.

Step II: Apply Stem Cells Serum.

Step III: Apply the Stem Cells Mask on the face, leave it for 20 minutes, remove it and tone the skin with Sensitive Tonic.

Step IV: Apply the Stem Cells Eye Cream on eye area and Stem Cells Cream on the face, neck and décolletage.

ECO CLARENA

Eco Line – new on the market – combining beauty products made from 100% natural ingredients and innovative packaging with TAG system. It is the world's first glass airless, the winner of an international certificate of EcoCert, hailed as “the packaging of responsible recycling”. Thanks to the patented system called Eco-Lock, the consumer, by simply unscrewing the pump,

GOLDEN C CREAM

The unique formula based on two forms of vitamin C moisturises, firms, strengthens the capillaries and lightens discolorations. The complex of gold and silk perfectly smoothes wrinkles and illuminates the skin with a golden glow. The cream has a light, providing fast absorption formula.

1823 prof. 200 ml
1824 ret. 50 ml

ALGAPLAST GOLD MASK

Rich in vitamins and amino acids, which increase the density and improve skin tension. Polyphenols neutralizing free radicals prevent from aging, and the gold particles illuminate the skin giving it a healthy look. Recommended in treatments with Golden Vit C Line.

1065 prof. 500 ml

ACTIVE C 10% SERUM

High concentration of both traditional and liposomal form of vitamin C, provides hydration, stimulation of collagen synthesis and neutralizes free radicals. It increases flexibility of the skin, tightens the capillaries and evens out skin color.

1825 prof. 10 x 3ml

NATURAL SILK MASK*

Mask – piece of natural silk proteins, forming a moisturizing film protecting against transdermal loss of water. Collagen, hyaluronic acid and algae extract provide smoother, more flexible and instant comfort for irritated skin.

1129 prof. 1 pc

REVIVAL C 5% SERUM

Serum for rejuvenation of skin requiring rapid renewal, regeneration and lightening. Vitamin C in combination with a closed in capsules Vitamin E, slows the aging process initiated by excessive sun exposure, smoking and stress.

1826 ret. 30 ml

cosmeceuticals made from 100% natural ingredients, based on the active complex of plant stem cells G-Cell and certified Eco Antileukine 6. Recommended for professional and home care of sensitive skin prone to irritations, allergy and atopy. This ensures fast, effective and safe regeneration after intensive dermocosmetic treatment and after a long illness.

STEM CELLS EYE CREAM*

Based on innovative Aldavine™ 5x and caffeine, which stimulating microcirculation reduce dark circles and puffiness under the eyes. Recommended for very sensitive and not tolerating traditional cosmetics, prone to allergies skin around the eyes. Thanks to Antileukine 6 the cream eases existing and prevents from further irritations.

1282 prof. 30 ml
1283 ret. 15 ml

ALGAPLAST ALOE MASK*

Recommended after dermocosmetic treatments and for sensitive, dry with a tendency to allergies skin. Aloe extract softens irritations, stimulates collagen synthesis, provides hydration and calmes the skin.

1066 prof. 500 ml

STEM CELLS SERUM*

Concentrate of emulsive, easy to apply consistency. Stem cells accelerate the regeneration of the epidermis and the synthesis of supporting fibers. Antileukine 6 inhibits the release of inflammation mediators and protects against irritations.

1285 prof. 10 x 3 ml

STEM CELLS CREAM*

Thanks to stem cells the cream stimulates the renewal of the skin and the synthesis of collagen and elastin. Antileukine 6 inhibits the formation of inflammatory state and reduces the risk of skin irritation. Natural betaine, squalene, and vitamin E moisturize, nourish and protect against destructive effects of free radicals.

1280 prof. 200 ml
1281 ret. 50 ml

STEM CELLS MASK*

Creamy mask, thanks to G-Cell stimulates the regeneration, elasticity and firmness of the skin. High concentration of Eco certified aloe and Antileukine 6 soothes inflammation, prevents from irritation, strengthens the lipid barrier and the immune system of the skin.

1284 prof. 200 ml

ENVIRONMENTAL FRIENDLY

separates all plastic components from the glass bottle. The resulting components are recycled separately. The Eco line was created for the most demanding customers. The packaging used by CLARENA has also a system of "tamper-proof" to prevent the opening of the bottle with the product inside, dosing is without air. The cream is always sealed and protected against bacteria, microbes, dust or dirt.

Together, we care about the environment!

* Products available from September

AHA Fruit Line

based on activity of AHA, PHA and Pyruvic acids. Wide range of products allows precise selection of cosmetics, which guarantees treatment effectiveness.

MULTI FRUIT AHA 35%

Serum intended for cosmetic renewal treatment of all skin types, particularly mixed. Supports elimination of stretch marks.

1262 prof. 3 x 10 ml

PYRUVIC ACID SERUM

Reduces seborrhea, removes blackheads, cleans and shrinks pores and smoothes scars. Recommended for acne, oily and mixed skin prone to impurities.

1264 prof. 10 x 3 ml

MANDELIC & PHA ACID SERUM

Serum containing 25% Mandelic acid enriched with lactobionic acid and gluconolactone. Recommended for renewal of mature, sensitive and also capillary skin. Rejuvenates the skin, evens its tone and prevents photoaging.

1266 prof. 10 x 3 ml

Stimulating treatment with Mandelic Acid

- Step I: Perform make-up removal using Perfect Eye Cleanser and Sensitive Milk.
- Step II: Tone the skin down with Pre Peel Cleanser.
- Step III: Apply Mandelic & PHA Acid Serum, leave for 10 minutes.
- Step IV: Precisely wash off with warm water, dry the skin up.
- Step V: Tone the skin down with cotton wool swabs moistened with Neutralizer Lotion.
- Step VI: Apply Acid & Calming Mask, leave for 20 minutes.
- Step VII: Remove the mask and tone the skin down using Sensitive Tonic.
- Step IX: Apply Repair Vit. U Cream or Stem cells Cream.

PRE PEEL CLEANSER*

Lotion preparing before acids treatments. Necessary before treatments with AHA, BHA, PHA and pyruvic acids. Removes calluses and degreases skin. Promotes even penetration and increases intensity of acids action.

1271 prof. 200 ml

MANDELIC & PHA ACID CREAM

Cream for all skin types, particularly sensitive, capillary with skin elasticity issues. Optimal concentration of mandelic, lactobionic acids and gluconolactone ensures soft peeling, rejuvenation, smoothing and moisturizing the skin.

1267 prof./ret. 50 ml

PYRUVIC & AZELAIC ACID CREAM

Dermocosmetic recommended for mixed, oily and acne skin. The synergy of 10% azelaic acid and 3% pyruvic acid reduces amount of blackheads, superficial scars, treats post-acne discoloration and prevents from future breakouts.

1268 prof./ret. 50 ml

NEUTRALIZER LOTION

Immediately restores natural PH of skin after treatments with AHA, BHA, PHA and pyruvic acids. Soothes irritations, reduces skin discomfort, guarantees skin protection and appropriate rate of regeneration of the epidermis.

1270 prof. 500 ml

ACID & CALMING MASK

Two-phase cream-gel mask based on AHA and PHA acids. In the first phase intensifies exfoliation, and then soothes irritations and accelerates skin regeneration.

1269 prof. 200 ml

White Line

recommended for complex whitening treatments. Thanks to penetration promoters and Chromabright™ restricting melanogenesis lightens discolorations, evens skin tone and reduces pigmentation.

ALGAPLAST WHITENING C

Flexible algae mask for complex care of mature, grey skin prone to discolorations. It combines the stimulating function of vitamin C with brightening effect and melanin regulating activities of arbutin.

1048 prof. 500 ml

GIGA WHITE SERUM

Formula based on penetration promoters and Chromabright molecule. It guarantees regulation of melanogenesis processes, lightening existing discolorations and prevents from future ones. Indicated also for acne and contaminated skin.

1854 prof. 10 x 3 ml

GIGA WHITE CREAM

Innovative cream with Chromabright complex and UV filters. It regulates melanin synthesis processes, lightens discolorations and visibly brightens the skin. Recommended after bleaching and normalizing-cleansing treatments.

1855 T prof. 200 ml

ACTIVE WHITENING TREATMENT

Step I: Wash the eye area with Perfect Eye Cleanser, and face, neck and décolletage using Derma Skin Gel.

Step II: Town the skin down with Pre Peel Cleanser.

Step III: Protect the skin, apply Giga white serum and leave for 10 minutes.

Step IV: Wash away the skin and tone down using Sensitive Tonic.

Step V: Apply Algaplast whitening C Mask or collagen slice/nano mask and leave for 20 minutes.

Step VI: After removal of the mask apply Stem cells Eye Cream on the eye area, and Giga White Cream on face, neck and décolletage.

GIGA WHITE DAY CREAM

Recommended for daily care of skin with discolorations, prone to impurities. Suggested supplement to professional bleaching treatments. Provides necessary sun protection.

1856 ret. 50 ml

GIGA WHITE NIGHT ELIXIR

High concentration of active ingredients guarantees effective bleaching treatments and normalising oily skin. Intensifies effects of controlling of oil sebum production and acts as a preventive mechanism.

1857 ret. 50 ml

Special prices – Profession

Stimulating and Lifting treatment for the mature skin

- Step I: Wash the eye area using Perfect Eye Cleanser, face, neck and décolletage with Diamond & Caviar Micellar Gel.
- Step II Variant A: Apply the peeling according to the skin type, then tone the skin down using Pre Peel Cleanser/Matt Skin Tonic.

Profile and scope of activity

Clarena is an innovative manufacturer of professional and retail cosmetics as well as specialist equipment for treatments conducted in beauty salons. The company specializes in the service of beauty salons. The distribution network covers the entire territory of Poland, our products are supplied to 18 000 beauty salons.

The company focuses on innovation, professionalism and high quality of products. Raw materials are searched around the world. Our brand is appreciated by customers and specialists, as evidenced by the awards Clarena holds.

The success achieved on the Polish market was a good experience for the development on the international arena. Clarena expands its partner relationships in the world gaining new markets. The development of export and international cooperation are our priority.

Clarena brand is available in Great Britain, Ireland, Malta, Romania, Spain, Russia, Ukraine, Germany, Austria, Norway, Belgium, Luxemburg, France, Italy, Bulgaria, Portugal, The Netherlands, Hungary and Greece.

Clarena – what makes us different?

Clarena cyclically launches and offers customers new cosmetics, which consist of professional products intended for treatments conducted in beauty salons and cosmetics for home care.

Every season innovative cosmetics are sold on retail market. Our experts, on the basis of discoveries of modern science and lushness of the nature, create new prescriptions for products, which meet the needs of even the most demanding skin. We adapt specialist formulas – so far used only in beauty salons – to the daily home care.

Thanks to us, our clients can independently take care about the skin using specialist care with fruit acids, Chromabright complex, PENTAVIN and VITASOURCE, SUBERLIFT or vitamin U.

Time for regeneration

**JUSTYNA
MASTERNAK-GODLEWSKA**
Product Manager

In the summer the skin is exposed to UV radiation, that is the reason why after the holidays we have to take care of its nutrition. Customers who visit beauty salons, expect a rapid effect and high comfort of the treatment. This ensures needle-free mesotherapy through a combination of action of ultrasonic wave and electrotherapeutic impulse and a cosmetic preparation, which is very precisely introduced into the skin. In addition, it permits to avoid side effects associated with injectables. The results of this treatment are visible from the first application. With a wide range of cocktails – including moisturizing, rejuvenating or slimming you can meet the expectations of the most demanding customers. Clarena's offer includes a wide range of specialized equipment, which have the added advantage of being easy to use, effectively facilitate and accelerate the work in the salon.
