**OUR PRODUCT  
YOUR LABEL**

here is the place  
for your own label

Majami is a company established in 1989, starting its activity from manufacturing of chocolate and chocolaty products. In 1996 there was a merger of Majami and Milko, a confectionery factory – a company with tradition, with the beginnings in the fifties. Milko, a confectionery factory, had produced crème fudge based on old recipes and technologies. To meet the expectations of our customers, Majami made traditional crème fudge its leading product, offered both in the form of manually and machine manufactured candy.

Majami crème fudge has been recognised on the Polish market, other European markets and the market of Arabic countries.

Our profile is not only based on the own label, recognised both on the domestic and foreign market.

At the present moment, the company is focusing its activity on manufacturing of crème fudge candies and marshmallow candies, trying to combine traditional nature of the products with dynamic activity, required by the market. The offer also includes other types of products, as chocolate-coated jellies, duo-gels (marshmallow and jelly), dessert sauces and creams, toffee and sesame candies.
