SPECIAL CROPS

High quality standard
in Food and Feed grade soybeans

⇒ About Kumagro

Kumagro is an Argentine Company that develops, produces, categorizes and exports, NON-GMO grains as raw material necessary to manufacture high quality food and feed.

In Kumagro, the driving force of Donmario's R&D Seed Department along with Grobocopatel Hnos.'s expertise in logistics and commercialization, translate into a unique platform for the supply of special NON-GMO grains to the most demanding markets.

Grobocopatel Hnos. S.A.

Our mission

To capture the genetic value in extensive special crops from the moment they are originated until they are sold, through the production, processing and marketing of grains and by-products, in a sustainable framework

Our vision

To be recognized as a benchmark in the raw materials and special ingredients market for food and feed industry

Our values

- **Integrity**, the consistency to act according to what was agreed on
- **Responsibility**, in the use of freedom, promoting dialogue and an open mind for teamwork
- **Quality**, as a characteristic of commitment and continuous improvement within a framework of responsible environmental management
- **Respect and humility**, as the basis for learning
- **Gratitude and a sense of humor**, dealing with adversity creatively and contributing to a comfortable working environment

Integrated chain:

Seed development, production,
sorting and containerized exports

Feed grade soybean specifications

NON GMO IP FEED GRADE SOYBEAN

Sorting process machinery: Pre-cleaner
Alternative packages: 1 MT big bags or bulk with liner
Delivery: 20 or 40 FT containers

GMO ≤ 0,3%	HILUM COLOR Yellow, light brown, or black	SEED SIZE 6-7 mm	PROTEIN (on a dry matter basis) ± 40%	FAT (on a dry matter basis) 19/22%	MOISTURE ≤ 13%
PURITY ≥ 99,5%	FOREING MATERIAL ≤ 0,5%	SPLITS ≤ 10%	GRAIN of other colors ≤ 0,2%	DAMAGED KERNELS ≤ 0,3%	

Certifications
 NON GMO Product • IP – Traceability, by Schutter • ISO 9001:2008 (Quality Management)
 GMP (Good Manufacturing Practices) • RTRS (Round Table for Responsible Soy) RTRS Custody Chain

Food grade soybean specifications

NON GMO IP FOOD GRADE SOYBEAN

Sorting process machinery: Pre-cleaner, magnets, gravity table, polisher, color sorter
Alternative packages: Palletized paper bags, paper bags, 1 MT big bags or bulk with liner
Delivery: 20 or 40 FT containers

GMO ≤ 0,1%	HILUM COLOR White	SEED SIZE 7-8 mm	PROTEIN (on a dry matter basis) 40/41%	FAT (on a dry matter basis) 19/22%	MOISTURE ≤ 13%
PURITY ≥ 99,9%	FOREING MATERIAL ≤ 0,1%	SPLITS ≤ 0,5%	GRAIN of other colors 0%	DAMAGED KERNELS ≤ 0,1%	

Certifications
 NON GMO Product • IP – Traceability, by Schutter • ISO 9001:2008 (Quality Management)
 GMP (Good Manufacturing Practices) • RTRS (Round Table for Responsible Soy) RTRS Custody Chain

HILUM COLOR

Black Hilum

Light brown Hilum

White Hilum

This section displays three distinct hilum colors on soybean seeds. Each color is represented by a small circular icon above a larger photograph of the seeds. The 'Black Hilum' panel shows seeds with a dark, almost black mark. The 'Light brown Hilum' panel shows seeds with a light tan or brown mark. The 'White Hilum' panel shows seeds with a pale, yellowish-white mark. The background of the entire image is a blurred field of soybean plants.

SPECIAL CROPS

DONMARIO
SEMILLAS

Grobocopatel Hnos. S.A.

This collage features several agricultural elements. At the top left, there are two large metal grain silos. Below them is a red mesh bag filled with soybeans. The Kumagro logo, featuring a green globe and a person silhouette, is prominently displayed. In the center, the Donmario Semillas logo is shown against a brown background. To the right, two workers in hard hats are seen handling a large sack of grain. At the bottom right, a green combine harvester is shown in a field. The collage is framed by green and yellow borders.
