PREMIUM CINNAMON LEAF OIL

1. ATTRACTIVE VIETNAMESE CINNAMON

Vietnamese Cinnamon is considered by many to be the finest cinnamon in the world. This cinnamon is sweeter, more aromatic and more powerful than the Indonesian cinnamon commonly sold in the supermarket. This is a Cassia Cinnamon.

Vietnamese cinnamon comes from the leaf of the *Cinnamomum loureirii* cassia tree that is native to the higher, mountainous regions of Central and Northern Vietnam, especially Yen Bai province. Regarded by many as the world's most aromatic cinnamon, this Vietnamese variety has the highest concentration of essential oils of any cinnamon currently found in the world today. Because of the powerful amount of aromatic oils, Vietnamese cinnamon is extremely intense and concentrated with sweet cinnamon flavor. The oil concentration is so high that if you ignite the branch, it will spark!

On 07 January 2010, the Director General of National Office of Intellectual Property of Vietnam issued the Decision No. 01/QD-SHTT establishing Geographical Indications (GI) for "Van Yen" for its famous cinnamon (Yen Bai province).

2. PREMIUM CINNAMON LEAF OIL

2.1. Product information
