## THE COMPANY

More Information: [www.nolte.de](http://www.nolte.de)

Nolte is a family enterprise that is currently led by the third and fourth generation of our founder. Today, Georg Nolte, alongside his children Maren and Georg Konrad runs the organization. With over 85 years in the furniture industry, Nolte has revolutionized quality standards, "Made in Germany" means more to us than the place where our products are produced; it is a guarantee of our quality.

In 1955, Nolte started the production of bedroom furniture in Germersheim. Today Nolte Furniture has over 600 employees and produces roughly 300 tons of furniture everyday. In 1958 Nolte introduced its innovative kitchens; we produce 700 kitchens per day in our state-of-the-art factory.

In the 1990s, Nolte grew with the acquisition of CS Schmal, European leader in the flat-pack furniture business, and DRUM Systems, a producer of tailor-made partitions and glass walls.

In 2000, Express Furniture was founded, focused on standardized ready to assemble and stand-alone wardrobes that are manufactured using our lean production process. Due to its success, in 2010, Express Kitchen was founded.

Nolte consistently strives to raise the bar in high standard manufacturing and services, renowned for our consistent stream of stunning design ideas that are as exceptionally functional as they are aesthetic. We strive for our designs to reflect current trends and lifestyle needs.

Linked up production units, thousands of highly skilled employees, and state-of-the-art machinery make Nolte one of Europe's foremost furniture companies. Nolte produces in Germany exclusively exporting on an international scale to well over 40 countries worldwide.

## WHERE TRADITION AND INNOVATION MERGE

The company's founder Georg Nolte first produced polishing discs in the Westphalian town of Rheda back in 1923. In the 1930s, the company switched to constructing furniture after taking over a small furniture factory in Delbrück, a second factory was then founded in Brilon, 1937. Georg Nolte's son Konrad then took over the company's management in 1945 with the intent to develop Nolte even further.

In 1947 Nolte considered the time ripe to expand, Konrad Nolte implemented a revolutionary concept into his factories, becoming the first furniture manufacturer to utilize assembly lines in their production process. His pioneering efforts revolutionized the entire furniture industry. In 1996 Nolte was the first to introduce industrial chipboard recycling facilities to Germany, making a point of preserving vital resources.

1923

Began production of polishing discs in Rheda, North Germany, laying the foundation for Nolte enterprise.

1945

Took over the company's management in Rheda

1958

Founded Nolte Kitchen in Löhne, with around 60 members of staff.

2006

Nolte Home Studio established.

2013

The Nolte Group consists of eight companies who manufacture solely in Germany with a total of approximately 3,000 employees.

1932

Started manufacturing living room and bedroom furniture at a small furniture factory in Delbrück.

1947

Chipboard production plant set up. Implemented the production-line technique, becoming the first furniture manufacturer to use assembly lines in his factories, revolutionizing the furniture industry worldwide.

1955

Bedroom production started in Gemersheim.

1978

Wardrobes with sliding doors are launched.

1996

Opened the first industrial chipboard recycling plant in Germany.

# OUR PORTFOLIO

● Kitchens ● Bedrooms ● Living rooms  
Made in Germany

- Headquarters in Germersheim, Rhineland-Palatinate.
- Eight production facilities in Germany.
- Approximately 3,000 employees worldwide.
- 570 million EUR turnover in 2012.
- >30% export business share.

Besides Nolte Kitchen and Nolte Furniture, our well-established premium kitchen and furniture brands, the Nolte Group, represented by Express Kitchen and Express Furniture, also manufactures standardised commercial kitchens and cabinets.

In addition, there is our CS Schmal cash-and-carry furniture brand. Last but not least, we manufacture our own particle boards at Nolte Holzwerkstoffe, as well as glass and partition walls at DRUM Systeme.

*Noite FZE*

## ■ VISION

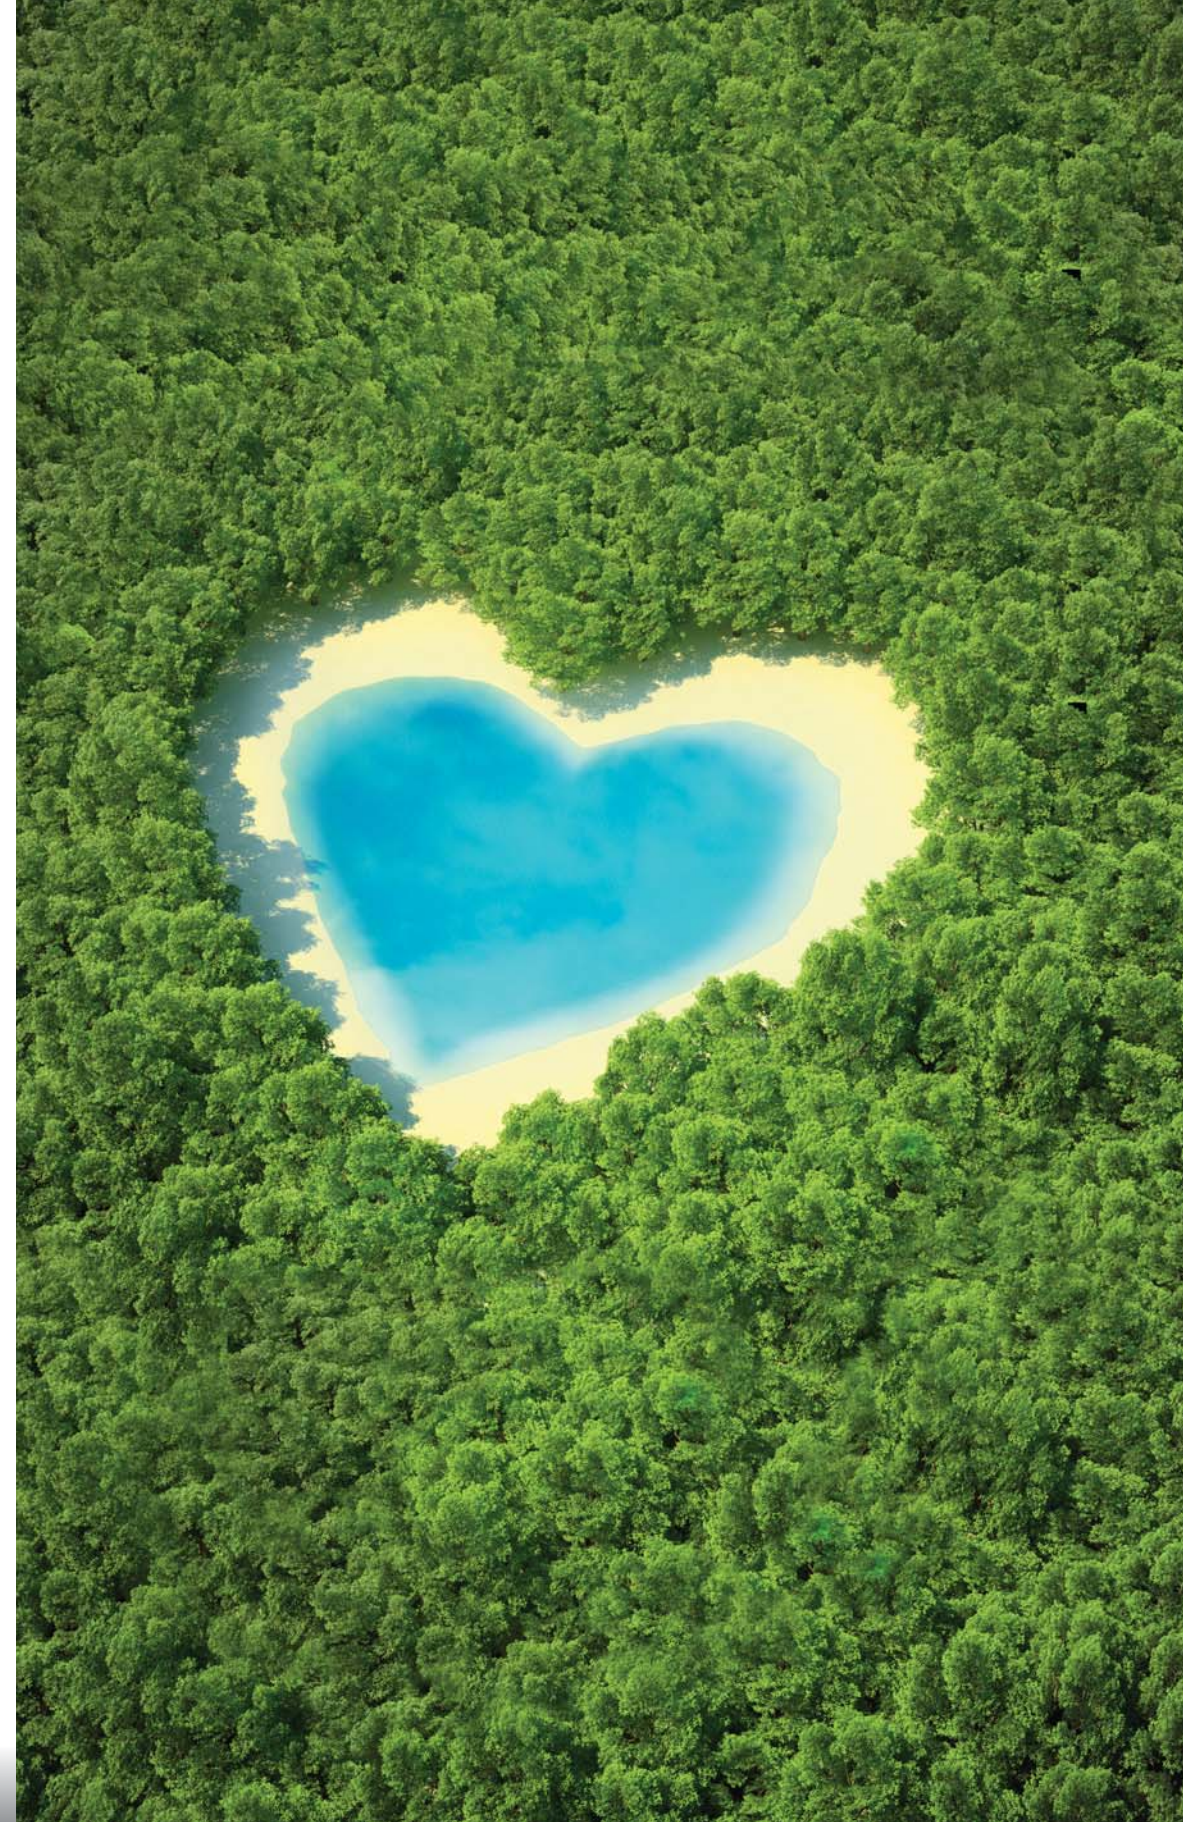

To become the leading interior solutions provider in the Middle East, Africa and South-East Asia, satisfying any aesthetic and budget requirements through our holistic approach, empowered by the strength and support of our partners in the region.

## ■ MISSION

To provide a wide portfolio of German made kitchen, bedroom and living room furniture positioned from premium to commercial range of eco-friendly products that are manufactured with the highest quality standards, ensuring that the design & functionality are always met.

## ■ VALUES

- Quality
- Innovation
- Engagement
- Integrity

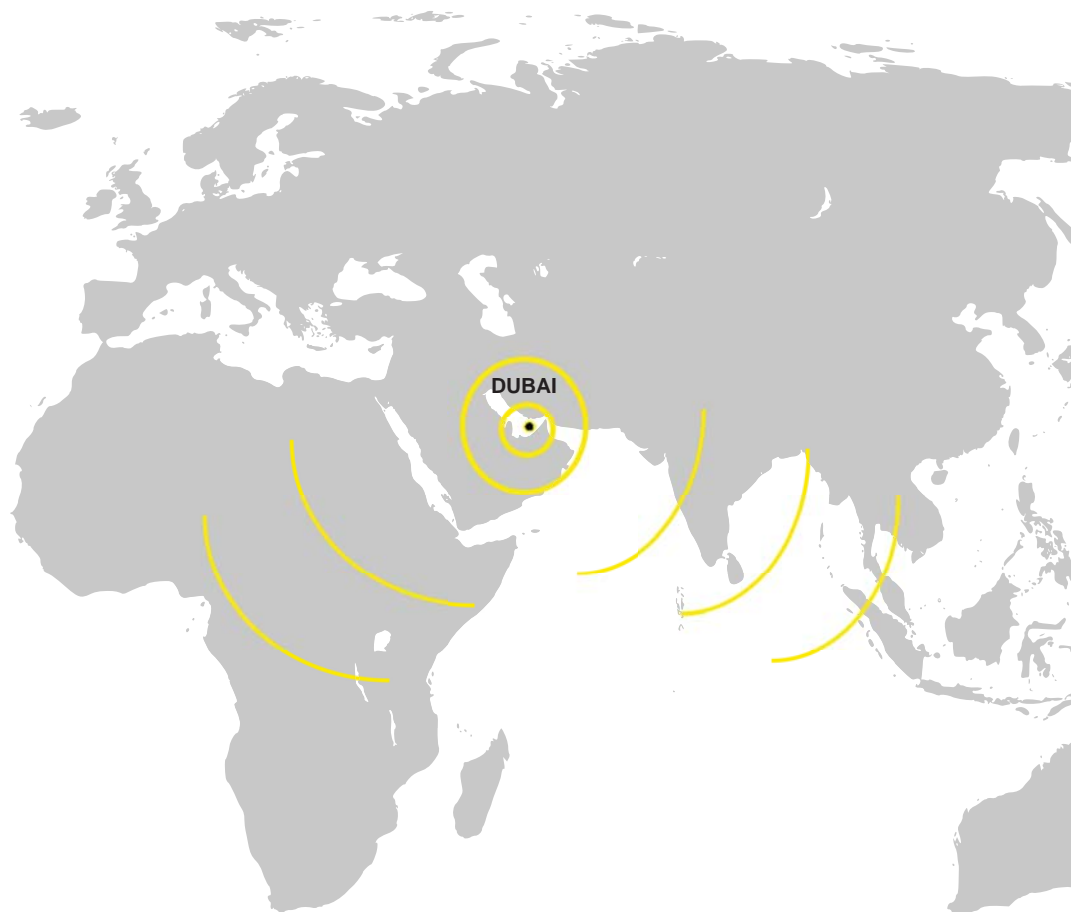

# MESSAGE FROM THE MANAGING DIRECTOR

● Kitchens ● Bedrooms ● Living rooms

Made in Germany

Nolte Group, established in 1923, is one of the largest fully integrated kitchen and furniture manufacturers in Germany. Nolte Group achieves a sales turnover of around 600 million euros per year with 8 manufacturing facilities in Germany, employing more than 3,000 highly skilled and qualified staff.

As part of Nolte's international business development strategy Nolte FZE was launched in Dubai, as the central hub responsible for distributing Nolte Group products in the wider MENA and SEA region.

When it comes to kitchen and furniture manufacturing, we are the trendsetters to beat, ensuring that the quality of our German made products stay consistently top-grade. Alongside quality, we also give paramount importance to the functionality of our products, which is the meaning behind our slogan "Where Design meets Function". As Nolte Group, we are able to provide a vast portfolio of products: including kitchens, wardrobes, bedrooms and living room furniture, enabling us to provide uniform quality and finishes to our customers. In turn, offering a range of holistic interior solutions. Be it for villas, apartments or hotel rooms we are able to provide complete interior solutions that suit our customers' requirements.

The importance of protecting the environment is second to none for Nolte Group. Nolte Kitchen and Nolte Furniture are certified with both PEFC and FSC certification. This certification guarantees that all of our wood and wood based materials are sourced from sustainable forest management. Additionally, most of our energy requirements are obtained from renewable sources. Nolte, with a legacy of 85 years, is a dominant player in the international market for supplying kitchens and furniture. At Nolte Group, our products have a huge range of designs, finishes, profiles and colors that we can accommodate for our customers, to meet any of their requirements.

Our qualified and trained staff provide consultancy services and design advice to homeowners and project customers, to ensure they find the perfect kitchen & furniture solutions. Nolte Group products are represented in the MENA and SEA region through various partners and their respective showrooms. We invite you to visit these showrooms, which are located throughout the region.

# NOLTE KITCHEN

## Introduction

Nolte Küchen -

Competence in Quality.

We guarantee top quality kitchen standards, designed and made in Germany. Kitchens that look absolutely perfect and can be combined in many different ways to ideally match your style, room size and budget.

Our kitchens are known for their functional design which ensures ultimate convenience: The countless storage solutions facilitate ideal viewing of the contents and user friendly handling.

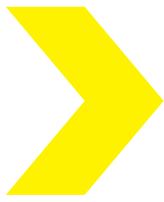

We have simply revolutionized kitchen design with the introduction of Matrix 150: the modular grid, based on the key dimensions 150 mm in height, width and depth, results in the greatest possible planning flexibility.

Our understanding of quality goes beyond the surface: our kitchen carcasses even feature the same interior and exterior décor. We have recently created Matrix Art for the design oriented customer; our completely handle-less kitchen opens up a new spectrum in style and is available in the most attractive finishes.

NOVA LACK - HIGH GLOSS WHITE

# NOLTE KITCHEN

Highlights

For over 50 years, Nolte Kitchen has been synonymous with high quality and meticulous craftsmanship made in Germany. With a kitchen that will give you lasting pleasure.

In the past, we have demonstrated our innovative capacity on many occasions: whether in the form of the ingeniously simple MATRIX 150 measurement system, MATRIX Line 150, offering kitchens in a handle-less look without losing storage space or the latest MATRIX ART, the new handle-less kitchen with 25mm thick worktops underscores the lightness of the lines.

# EXPRESS KITCHEN

## Introduction

Express Küchen -

*everything. simply. excellent.*

Thanks to our clearly aligned range and efficient production, we are able to offer you excellent value for money. A new kitchen is for life, which is why our kitchens have everything that matters.

Express Kitchen's fronts and carcasses can be selected from various ranges in contemporary colours and designs. Drawers and pull-outs are available with a multitude of features to provide plenty of space for kitchen utensils. Electrical appliances fit precisely. Working heights can be adapted ergonomically and individually.

This ensures your kitchen is always perfect in form and function, with lines clearly structured in height and width. Kitchens by Express can be fitted out completely with ease, and to suit your requirements.

SOFT - WHITE

## EXPRESS KITCHEN

Highlights

### KITCHEN PLANNING SIMPLY DONE

Put an end to complicated kitchen planning and design. Our System 15 makes it easier than ever for you to acquire a new kitchen. Well-planned, safe and with perfect design freedom. Always perfect in form and function, for any room. And always with lines clearly structured in height and width.

You can combine however you please – and you will find you even have 5% more storage space than with other kitchens. There is plenty of room for your kitchen utensils in the drawers and pull-outs. Electrical appliances are fitted to measure. Working heights can be chosen ergonomically and individually.

All you need is a sheet of graph paper and a pencil. The heights of drawers, pull outs and units develop in increments of 15 cm. And for the widths, with additional in – between dimensions. So just use a square to represent 15 x 15 cm. And lets get designing.

## RELIABILITY

As a family company, Nolte has always placed a priority on dependability towards our business partners and customers. Visible proof of this are our many certificates and approval marks. Independent test facilities continuously monitor our products with regard to their safety and demonstrate that the materials which we use are clearly below the limits that are required by law.

With this, we also fulfill the demand for a healthy living environment. As well as this, we understand dependability to be more than just uncompromising product quality.

It is also the willingness to be available to our customers at all times. We react to our customers' wishes with attention and respect and regard customer benefit as the yardstick of our performance.

This has made Nolte into what we now are: one of the most successful and innovative companies in our sector.

## SUSTAINABILITY

### GREEN CERTIFICATION & RESPONSIBLE FOREST MANAGEMENT

Nolte Kitchen and Nolte Furniture hold the FSC® label, awarded to products derived from environmentally appropriate, socially beneficial, and economically viable management of the world's forests. Furthermore, both companies are certified by PEFC, another internationally recognised certification system for the promotion of sustainable forest management.

- We do not use wood logged under conditions violating human rights
- We do not purchase wood from forest areas deserving special protection
- We do not use wood from natural forests that have been converted into plantations
- We do not process wood from gene manipulated cultivation
- We do not use wood from illegal logging
