Kiev", "ROSHEN", "Veres", "Johnson & Johnson", "Talgrig", JSC "Tavria", PJSC "Arcelor Mittal Kryvyi Rih", "Amstor" Trade House Ltd., restaurant chain "Kozyrnaya Karta", chain of Japanese restaurants "Yakitoriya", Kiev, Chernigov and Simferopol macaroni factories and many others.

Since 1994, the company has been functioning under the trade mark „Cruise”. On January, 1, 2008, in connection with the expansion of activities, by the decision of founders, the company was restructured. The equipment producing plant was detached into a separate enterprise «UkrTechnoFoods» with the trade mark «UTF» and «Ukrtechnofoods». Technologies developed by our company are protected by patents of Ukraine, Russia, Armenia and European countries. The equipment has both domestic and European quality certifications (CE).

Only high quality materials and components of leading manufacturers of Europe and world are used in manufacturing of lines by our company:

- conveyor belts “Chiorino” (Italy), “Ammeraal” (Holland), “Habasit” (Austria);
- steel belts for tunnel ovens “Sandvik” (Sweden), “Berndorf” (Austria);
- frequency converters of “Telemecanique” of concern “Schneider Electric” (Germany);
- motor-reducers “Motovario” (Italy);
- pneumoapparatus “Camoszi” (Italy), “Festo” (Germany);
- electric equipment “Lovato Electric”, “Carlo Gavazzi” (Italy);
- sheet stainless steel made in Italy.

ISO 9001:2008

Our company is a member of the Kyiv Chamber of Commerce and Industry which directs its activity at promotion of national economy development and integration into the global system, strengthening of market mechanisms.

Since the end of 2010, our company is a member of the European Economic Chamber of Trade, Commerce and Industry (EEIG). In 2011 we have implemented a Quality Management System in accordance with ISO 9001.

The company has its own production facilities, located near Kyiv. The company employs highly qualified professionals with extensive experience. Design works are carried out in our own engineering and design department.

This allows, by using the multi-year experience and accumulated potential, reaching a qualitatively new level.

Our specialists carry out assembly, installation, commissioning, training and certification of customer's personnel.

The company provides warranty for all products for 12 months, and after-sales service - for 60 months.

We carry out the optimal layout of production premises taking into account the line or equipment dimensions and technological requirements. We also provide with a project for supplying communications - electricity, water, sanitation and ventilation.

You can find more information about our company, videos and description of every type of product at our website: www.utfkiev.com.ua.

ISO 9001:2008

Quality management system in accordance with ISO 9001:2008

A detailed analysis of a long-term activity of our company, carried out due to the intentions of our company to increase the share of exports showed that the company needs to improve a product quality. This was connected with increased customer demands and increasing competition in the market segment occupied by us. Reducing production costs became no less important question for the company.

That's why at the end of 2010 it was decided to develop and implement a quality management system in accordance with international standard ISO 9001.

The main tasks and objectives of implementing the quality management system are:

- improving product quality and reducing costs by the creation of clear business rules of interaction between structural departments;
- allocation of responsibilities between the executors and leaders of the enterprise;
- increasing of responsibility for quality work performance;
- improving of relationships between employees, which in turn will increase the effectiveness and efficiency of work performance and quality of goods and services produced / provided by the company;
- improving the image of enterprise both on domestic and foreign markets;

ISO 9001:2008

- gaining control over the processes implementation
- increasing the responsibility of staff at all levels;
- foreign outlet expansion.

While preparing for certification with the active assistance of the scientific and technical centre "ISO partner" we passed five stages:

- preparatory;
- development of quality management system documentation;
- training of internal auditors;
- implementation of quality management system;
- pre-audit assessment of functioning.

In November 2011 Ltd "TÜV SÜD Ukraine" has been audited the management system of our company for compliance to requirements of the international standard ISO 9001:2008. As a result, our company gained the Certificate of Conformity issued by international certification body TÜV SÜD.

As a result of the project implementation a new structure chart was formed in the company, relationships between departments were ordered and a quality management system documentation, according to which the company is operating now, was developed, product quality has significantly risen, the number of defective parts and components was reduced, duties and responsibilities of each employee are clearly defined. Implementing a quality management system render invaluable assistance in advancing to the main goal of our activity - meeting our customers 'needs in high quality products

The company is a member of the European Economic Chamber of Trade, Commerce and Industry (EEIG)

Since the end of 2010, our company has become one of the first members of the European Economic Chamber of Trade, Commerce and Industry (EEIG) for Ukraine. EEIG for Ukraine began its functioning on September 1, 2010.

European Economic Chamber of Trade, Commerce and Industry is an internationally operating non-governmental organization with administration, General Secretariat and the governing body in Brussels.

Representative offices of the "European Economic Chamber of Trade Commerce and Industry" are located in 42 countries, providing thereby an effective communication in all spheres of international cooperation.

EEIG, as a government consultant on issues of harmonization of inner markets of the countries and EU market, endeavors to be a mediator between partners in the Member States of the European Union and the rest of the world. Only companies with innovative type of activity doing business at a high level can become a member of EEIG.

Gukas Khachatryan, director of "Ukrtechnofoods", is the head of Committee "Technologies and Equipment for Grain Industry" of "EEIG-Ukraine".
