

## FRESH PRODUCE - GARLIC

Our productive process led by a qualified management, jointly with our unbeatable geographical conditions, makes possible a supreme organic garlic production, which has been our flagship product since our start up. Today the Argentbio's garlic is recognized as one of the best in the market. Indeed the garlic grown in Mendoza, where our farms are located, is not only renowned for its incomparable fitosanitary characteristics but also for its unique and spicy taste that gives a special and distinctive flavor for the food industry, especially for Mediterranean and International Cuisines. Today we offer fresh red and white organic garlic in different sizes as well varieties such as Perla Inta, Union, Fuego Inta and Sureño Inta, which are widely acknowledged by our customers for their particular aspect, bulb size, wrapping tooth leaves, intense and superb flavor.
