# OCuSOFT® Lid Scrub™ **PLUS** Extra Strength Eyelid Cleanser

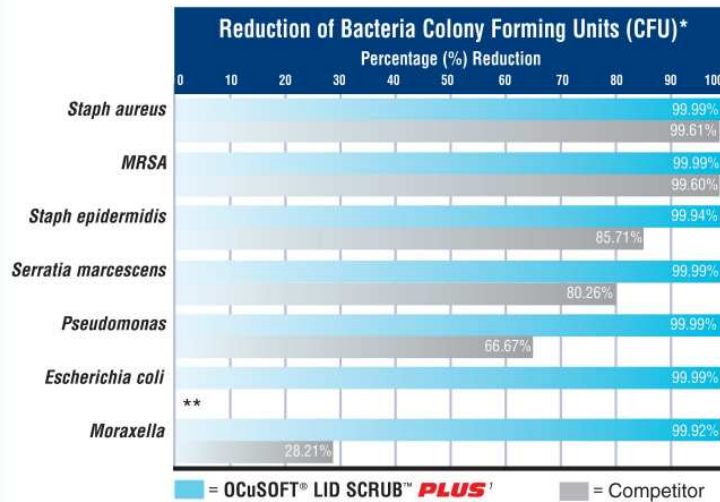

## The Only “Leave-On” Formula

When treating moderate-severe eyelid irritation, convenience and efficacy are the keys to continued lid health. That is why OCuSOFT® introduces our new Extra Strength formula—OCuSOFT® Lid Scrub™ **PLUS**.

Our latest innovation in lid hygiene is purposely designed as a “Leave-On” formula. Why? Reports show that even health care providers wash their hands on average less than 10 seconds†. To ensure maximum patient compliance, ease of use is critical. To expect a patient to scrub their eyelids for 30 seconds or more is impractical, both from a health care provider and patient standpoint. With our new **PLUS** formula, patients can scrub it and forget it.

### With Superior Efficacy

\* Based on manufacturer's recommendation for use.  
<sup>1</sup> Time kill data collected at 120 minutes based on manufacturer's recommendation as leave-on formula. OCuSOFT® Lid Scrub™ PLUS is indicated both as a rinse or leave-on formula.  
<sup>2</sup> Time kill data collected based on manufacturer's recommendation to leave in place for 60 seconds for maximum effectiveness.  
 Investigator: Antimicrobial Test Laboratories LLC      Data on File: CYNACON/OCuSOFT, Inc.  
 \*\* 0.0 (ineffective)
