

RIGA CHAIR™

May 2018

Cooperation Proposal

Latvian Company RIGA CHAIR™ is established in 1999. It designs and produces seating furniture out of moulded plywood, solid wood, steel, aluminium and polyurethane. Products have received prestigious awards - red dot award, iF Design award, German Design Council award and number of local Latvian design awards. RIGA CHAIR™ has received European Business Award in 2016 (category National Public Champion).

Plywood moulding has long history in Latvia and is considered as one main the industries of furniture making. Plywood is made from birch trees, widely spread across Latvian forests and is ideal material to work with. RIGA CHAIR™ pays great attention to every detail of design and production processes aiming to deliver best possible quality, which makes products outstanding.

Main application areas for our furniture are:

- educational facilities - universities, schools, kindergartens
- cultural venues - theatres, concert halls, congress centres, auditoriums
- waiting areas
- hotels, restaurants and cafes
- private interiors

We develop and engineer automated seating systems for multifunctional halls including automated chair retraction systems, mechanical floor platforms for halls. Many of our products are with registered designs. Production facility consist of following departments: plywood moulding; metal processing, upholstery and assembling.

Furniture is exported to The United States, Australia, Japan, The Netherlands, Germany, Austria, Norway, Finland, Belgium, UK.

Apart of our own products, we are producing private label products for our partners from around the world. Factory occupies 10 000 sq.m of restored production facility since 2017.
