Our Beginnings

Over 145 years of quality & innovation

1857-1932

Introduction

Haji Nizam Din identified the potential during the mutiny of 1857 and started manufacturing tents for the army in the year 1869. The Government of India placed the firm on the approved list of contractors for government, railway and ruling chief of India.

1932-1947

World War II

In the year 1939, the military authorities expressed their appreciation by relying on the company for the manufacture of numerous tents. Heavy military demand compelled NIZAM to manufacture different kind of tents for the military authorities which were sent to various parts of the subcontinent and a new factory was started in 1942.

1947 - 1965

New Manufacturing Unit

After the formation of Pakistan, Nizam started a tent manufacturing unit in Karachi. The first export order of tents was received from the Iranian Embassy, making NIZAM the first tent manufacturer in Pakistan to export tents to a foreign country. In the early sixties, a Saudi Army delegation visited Pakistan and placed an order through the defense purchase department for export of military tents to Saudi Arabia which was followed by another order through the Saudi Embassy for Hajj Tents.

1965 - 1985

Market Exploration

Shelter and relief items were supplied to the Pakistan Army during Indo-Pakistan war, 1965. The increase in demand led to the mechanization of production; weaving looms, automatic power driven jiggers, waterproofing plant and industrial sewing machines were installed. Strenuous efforts were made to increase exports; which were followed by repeated visits to Middle Eastern & North African countries. The efforts were converted to export merits recognized by the International Export Association with recipient Gold Medallion Award for our services rendered in the exports arena.

1985 - 2000

Business Expansion

New markets in U.S & Europe were explored in order to expand along with continuous improvement and modernization which resulted in setting up Pakistan Tentage Industries as the weaving unit for NIZAM. The early 80's saw consolidation of the Middle Eastern markets and development & supply of the outdoor camping products in Europe; Germany, England, Netherland & USA. NIZAM got an opportunity to supply tents to the leading Aid Organization who were facilitating the Afghanistan Refugees which was regarded as one of the largest contract signed between an Aid Organization and a private company.

2000 - 2016

Strategic Partnership

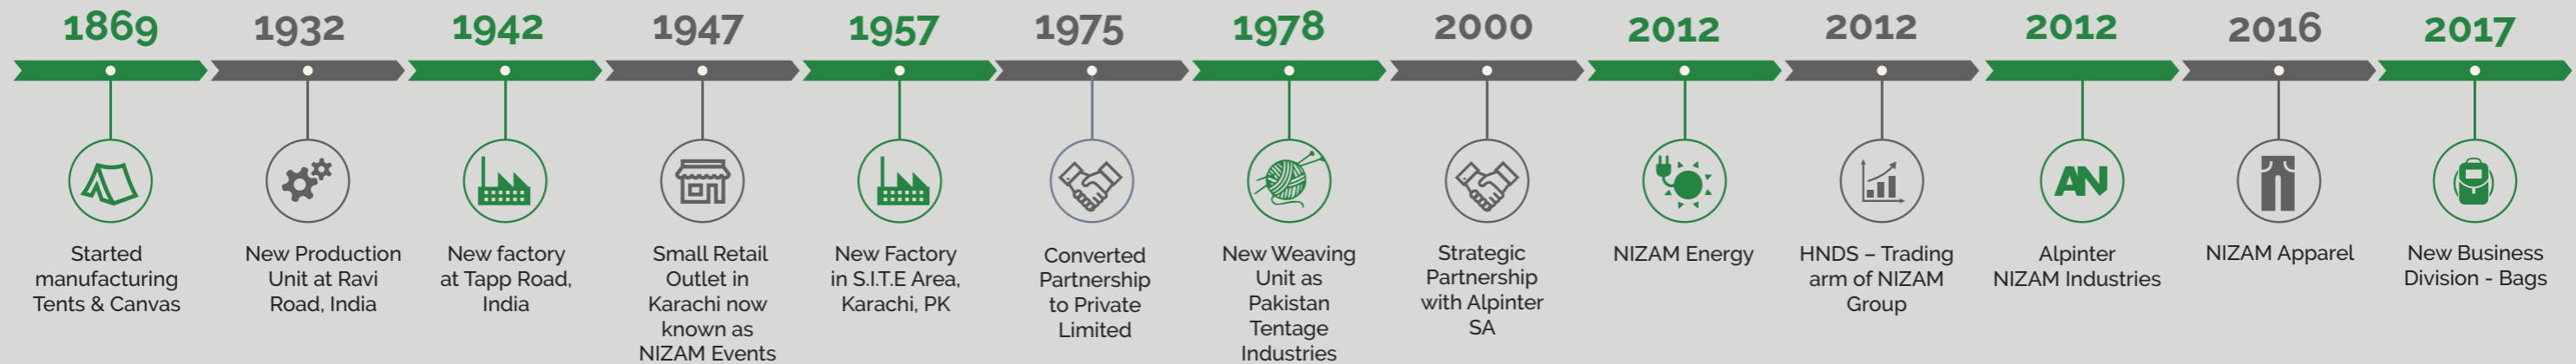

The new Humanitarian Relief Business Division was further strengthened with partnership between NIZAM and Alpinter SA.

NIZAM Group of Companies

A symbol of trust since 1869

Established in 1869, H. Nizam Din & Sons Private Limited is one of the oldest and largest business groups in Pakistan operating a diversified portfolio of businesses. It is a family-run business that manufactures innovative, high quality & cost-effective products and multi-purpose shelters. NIZAM adheres to sustainable and ethical business standards through vertically integrated business model, thus, controlling and managing the entire product development and production processes.

In a predominately old industry, NIZAM has established itself as a world leader today, with its vision of investment in modern equipment and technology that contributes toward making products timely, efficiently, and cost effectively. Innovation, functionality, quality and design are the cornerstones that support our product development. With our robust research and development team, our technical insight into materials & production methods, and over 150 years of experience in the business, we bring innovative and benchmark quality products to the market.

NIZAM Relief

Restoring the faith in Humanity; Ready for the Unexpected!

We assist, anticipate and enable leading humanitarian aid organizations in natural and man-made disasters around the world. Over the course of last century, NIZAM has sustained and evolved as a leading supplier of humanitarian relief supplies. We have further consolidated our value proposition to our customers by forming a first of its kind joint venture with Alpinter S.A, Belgium; offering world class marketing insight, customer service, logistics, quality control, Research & Development center in the heart of Europe. Together, we have led innovation in design of Shelters (Family & Multi-Purpose Tents), Blankets and customized Non-Food Item kits with our zeal of working towards a better future.

Our production facilities across Pakistan, UAE, China and Bulgaria are equipped with state of the art machinery, stringent quality procedures, ethically responsible manufacturing processes, lean management and innovative techniques. We are one of the leading global suppliers in the humanitarian industry to operate global footprint of production facilities and warehouses that maintain "Never out of stock" from Asia, Middle East and Europe. Hence, ultimately fulfilling our promise to the global humanitarian community of being "Ready for the unexpected!"

NIZAM Apparel

Stitching success from a common thread!

Established in 2016, NIZAM Apparel was set with the vision of making a mark in the global fashion industry. Started as a Cut to Pack (CTP) unit with an integrated laundry for woven garments, our state of the art setup, together with the top Garment professionals of the industry who understand the pulse & passion for fashion make us proficient to offer fast fashion offerings. NIZAM strives to become a niche producer of woven garments with core focus on sustainable, compliant and ethical manufacturing of highly technical super-stretched elastin garments made from denim, dyed Garment and piece dyed fabrics in various technical blends.

We embed sustainability into our organization and our product development by minimizing the environmental carbon impact of our products through innovative and sustainable industrial practices, always without compromising on comfort, quality and design. Our designs are driven by understanding latest trends in consumer preferences, changes in our customers' product requirements and newly accessible technologies, materials and embellishments to keep us ahead of our competition. Our ability to perceive proactively with our customers & partner fashion designers across the globe and keeping up with the latest trend of "Fast Fashion Windows" are our greatest strengths. Our aspirations of growth are built on the philosophy The Truth is in the details!

NIZAM Energy

We believe Solar is the Solution!

Incorporated in 2012, Nizam Energy has quickly become Pakistan's leading Solar Energy Company offering solutions for residential and corporate clients. Nizam Energy provides solar energy solutions for home and business. We offer comprehensive and complete solutions including design, construction, operation, management and financing services. We are the only company in Pakistan with experience in managing utility scale projects and insight into working within the confines of regulatory policies and varying geographies, both in urban and rural settings.

NIZAM Events

Behind every event, there is a great work of Art!

NIZAM entered the hospitality business in 1869 and has been offering turnkey event management solutions for the most prestigious events in Pakistan. We take great pride in providing our event planning experience to help create an unforgettable event, whether you are planning a chic outdoor wedding or any corporate event gala. Nizam Events delivers exceptional consultation, service and support from initial planning and coordination, through on-site installation and troubleshooting and post-event evaluation.

HNDS International LLC.

Always ready for the unexpected!

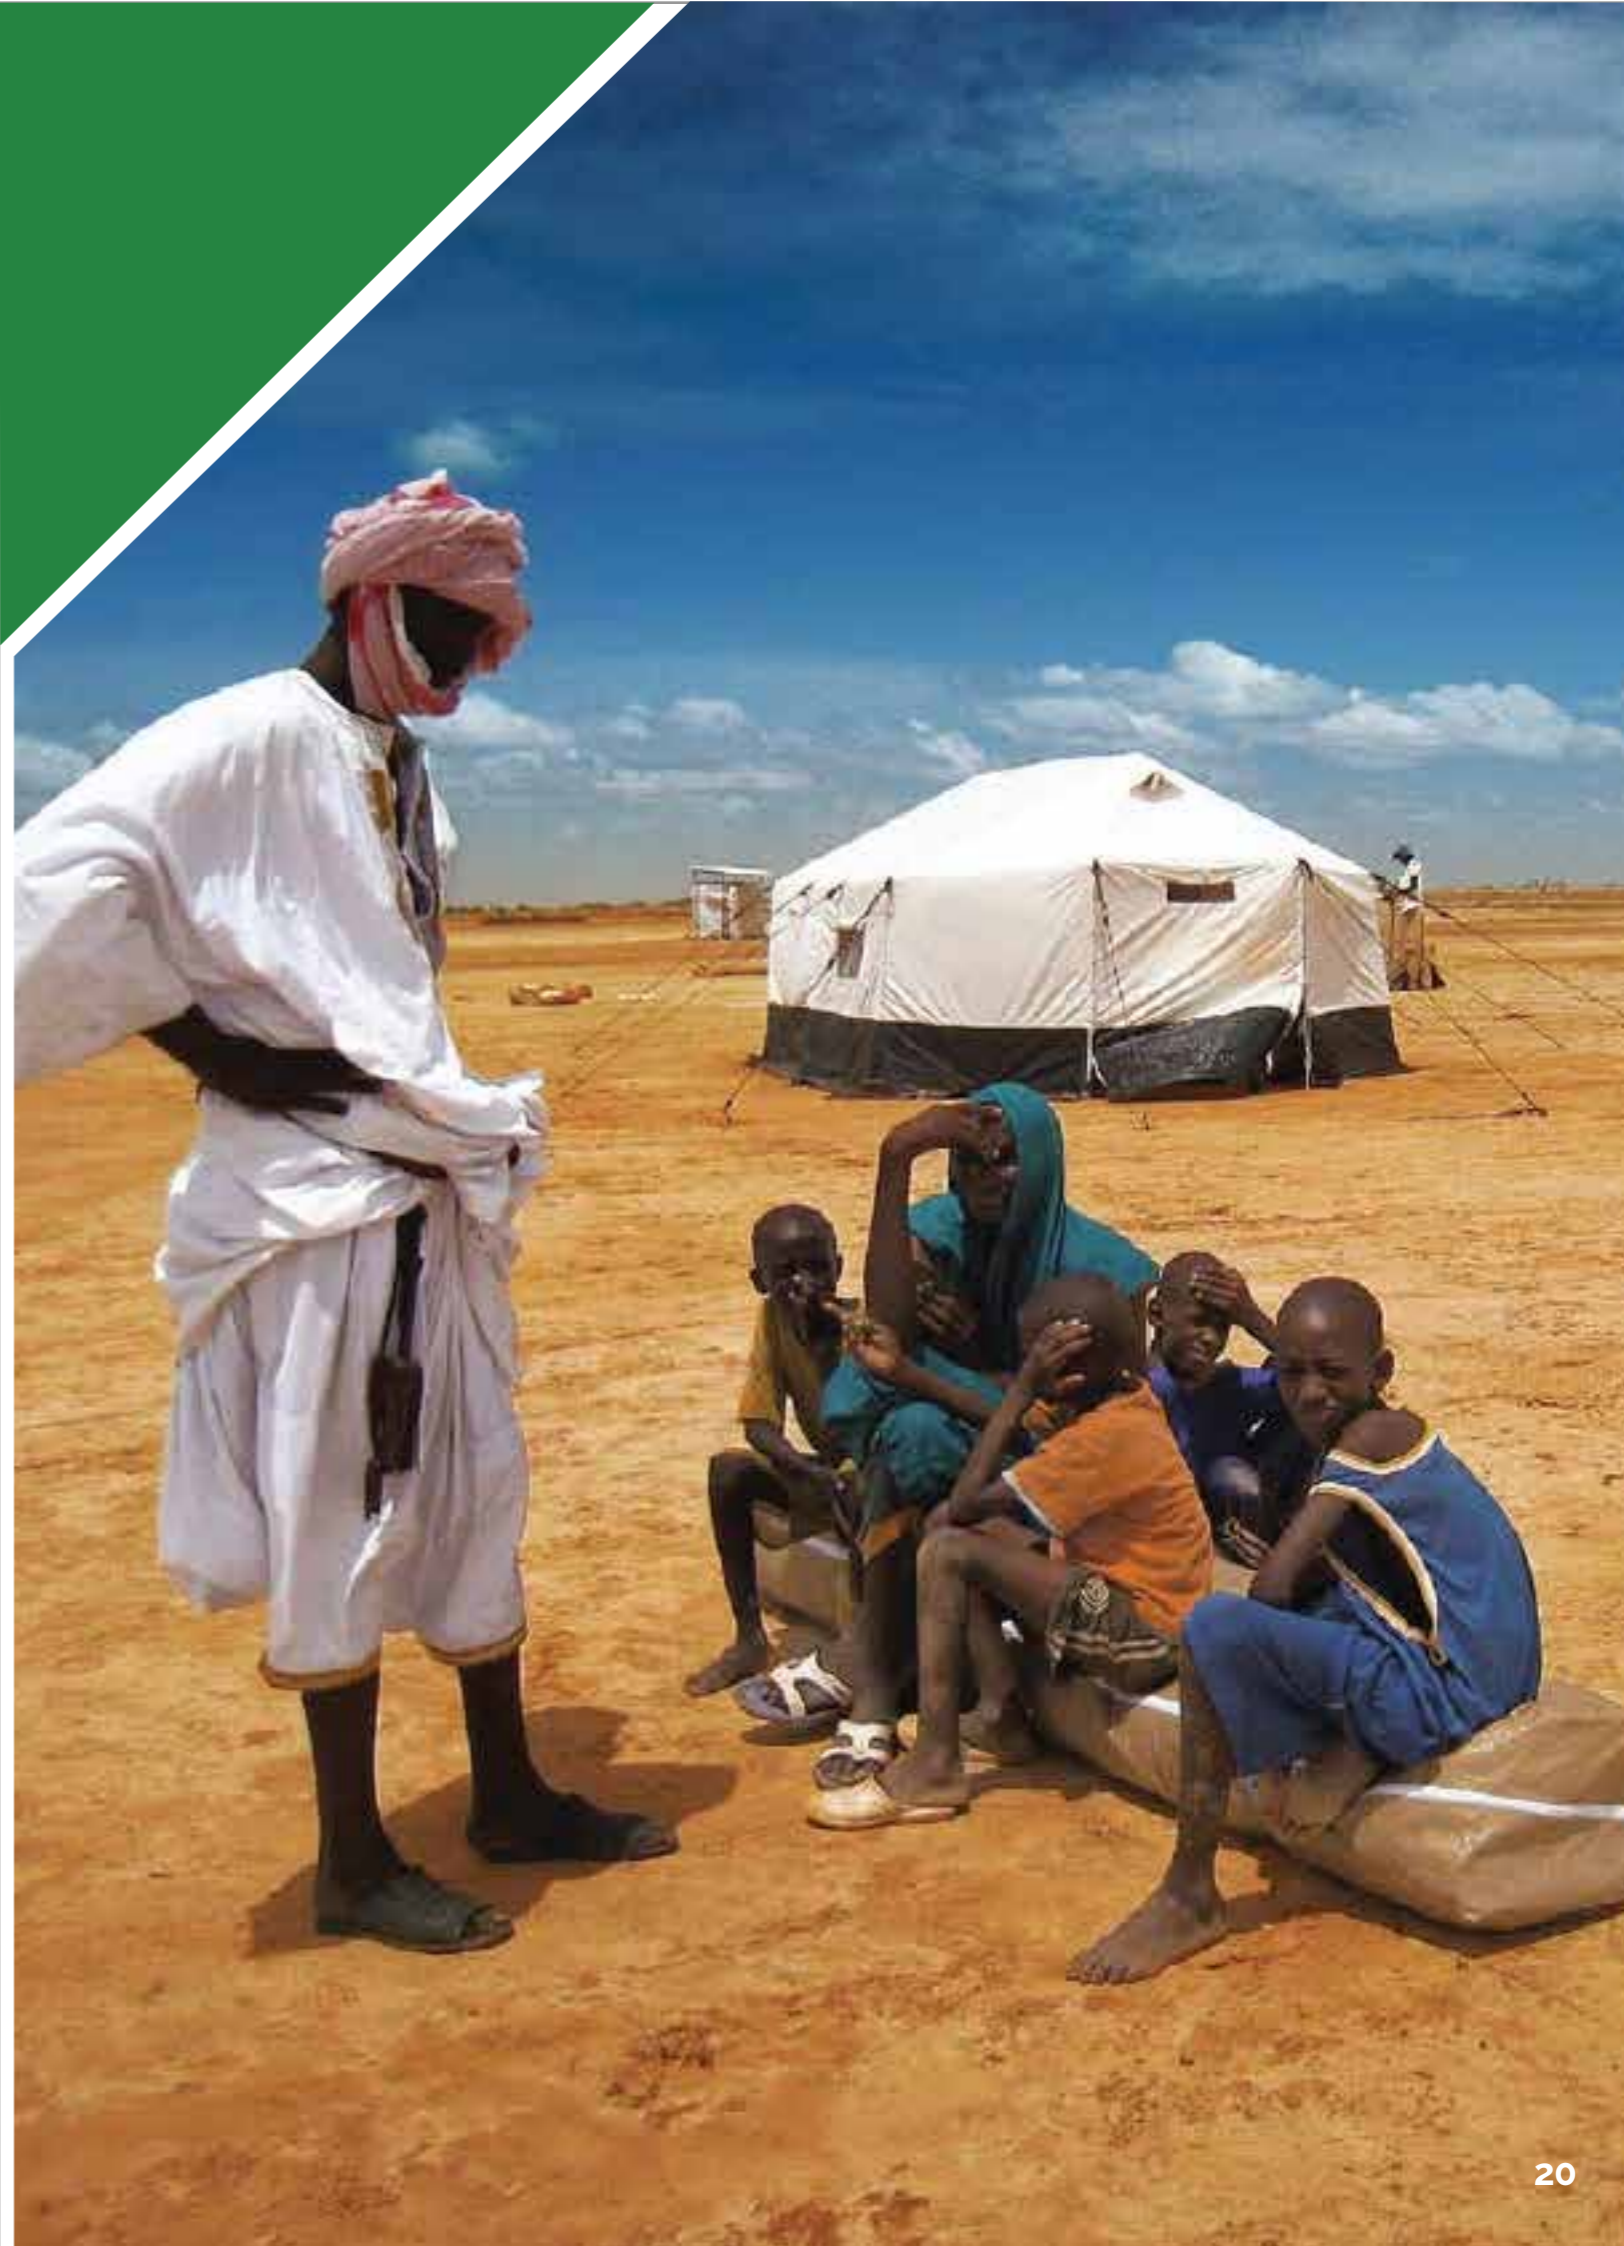

Set up in 2012 with a vision of holding and trading arm of Nizam Group, HNDS engages in cross border business trade of Humanitarian Relief, Textiles, Commodities and support its subsidiary companies in sourcing and indenting products.

Strategic Partnership

NIZAM has partnered with a Belgium-based company, Alpinter SA, for the manufacturing of core relief supplies. This successful relationship has led to innovating new Shelter Tent designs, pioneering the production of synthetic fleece blankets in Pakistan and a state of the art facility to produce stainless steel cookware in Ras al Khaimah, UAE. The strategic partnership has been providing timely solutions to leading Aid Organizations for all their emergency humanitarian needs during desert and mountain warfare, emergency response, disaster events, natural calamity and catastrophe, thus, evolving the company in to a symbol of trust worldwide for Canvas Tents, Fabric & Allied products.

Together, we develop and manufacture products for the humanitarian aid and development sector with an aim to improve everyday lives of people in need, by introducing new products as well as production methods. We aspire to innovate, to inspire, and to effectuate efficient, practical and economical solutions that benchmark us in international & local markets. We take pride in maintaining long-lasting relations with our clients, offering them world-class service, quick response-time and timely deliveries at competitive prices.

ANI is the first manufacturer of Core Relief Items with in UAE.

Approach towards work

Customer-centric

Our primary focus is to meet customer requirements and to exceed customer expectations. We strongly believe that sustained success is achieved when an organization attracts and retains the confidence of customers and other interested parties on whom it depends by trying to meet their current and future needs.

Process-driven

We firmly believe that consistent and predictable results are achieved more effectively and efficiently when activities are understood and managed as interrelated processes that function as a coherent system. Our quality management system consists of interrelated processes that enables us to optimize our systems, operations and their performance.

Research & Development

Our Research and Development division focuses on innovation and continuously make every effort to improve process methods that enhance our existing products and new product development. All the facilities at Nizam are ISO certified, with focus also on being a socially responsible manufacturer which makes us an ideal business partner in terms of credibility and services quality.

Modern Technology

Innovative approach and application of modern equipment and technologies at NIZAM are a prerequisite for advancement, competitiveness and quality. Everything we conduct is guided by the set of principles which define our approach towards conducting business and have been at the core of NIZAM since its inception. Premium Quality and Innovation are the shared convictions that we bring to our professional and personal conduct – they are a fundamental strength of our business.

Sustainability

We are always looking for ways to improve and enhance our production processes and standards. We have incorporated a comprehensive lean management programme to ensure continuous improvement by maximizing consumer value while minimizing waste in all forms.

Our People our greatest strength

We believe the success of our company depends on our people as they are our most valued asset. They are not just partners in our progress but also the most critical factor in transforming our vision to reality. Our focus is to develop a culture where quality is top priority, innovations are encouraged, & systems are followed consistently.

Today the Nizam group employs over 1,500 people of over 6 nationalities in 5 countries across the globe. Over the years, we have been fortunate to attract some of the most talented professionals in our industry. They stay to build rewarding careers because of our entrepreneurial spirit, a commitment to our people and the high expectation for excellence. Our people are our most valuable asset – they are skilled problem solvers that believe challenges can be opportunities. We have created a team of experts and experienced professionals who have the passion, determination and experience from across the industry, to take this company forward.

NIZAM attributes its success and competitive edge to the team it has built as we nurture a culture of creating the best possible work environment by providing benefits, regular training and skill building capacity of human resource to ensure what is created is the best.

CREATIVITY

INTEGRITY

INNOVATION

COMMITMENT

Quality & Innovation

Quality Management

We take pride in delivering top quality products to world class standards as we constantly seek to be unique. We are customer focused, and have a process-driven approach which guarantees continual improvement and a mutually beneficial relationship with our clients. We manufacture innovative products that complies with the quality & regulatory standards, also, maintain transparent reporting followed by all of our business divisions. Our focus is to develop a culture where quality is the top most priority, innovations are encouraged, and systems are followed consistently.

Quality Control

We seek to ensure that product quality is maintained or improved and manufacturing errors are reduced or eliminated by conducting stringent quality checks throughout the production process to ensure compliance with specifications.

Quality Assurance

We follow the real-time Quality Assurance regimen which ensures that errors are caught quickly and causes are immediately rectified. NIZAM has a vertically integrated business model which allows us to manage and control the entire product development stages, production processes and quality management practices. We have a separate Quality Management department that performs random process and system audits to ensure maximum customer satisfaction. To achieve that purpose, quality objectives and key performance indicators have been set for each individual department.

Quality Standards

We comply with external standards and regulations to ensure business excellence. We take pride in our achievements and the certifications below reflect our dedication to consistently providing sustainable, reliable, and outstanding products that meet the needs of our customers and other stakeholders. Our company complies with the following quality certifications:

- ISO 9001:2015 Quality Management Systems
- BSCI Business Social Compliance Initiative

Innovative approach and application of modern equipment and technologies at NIZAM are a prerequisite for advancement, competitiveness, and gaining of global leadership.

Innovation is doing new things

We recognize that great design and innovation are a competitive edge; the only way to connect with consumers through aesthetic, design, and functional appeal.

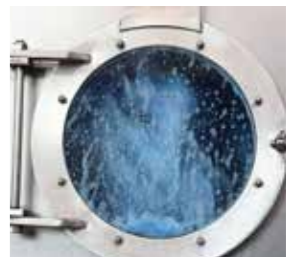

Fire Retardancy

We are one of the few suppliers to offer innovative, affordable and durable Fire Retardant finishes, tent and tarpaulin fabric to the humanitarian aid community and camping industry.

Sustainable washes

We are trying to lessen our impact on the environment by devising new products, ways and processes which can help in reducing the environmental footprint and toxic processes of textiles. We are able to save energy, chemical cost, water usage, cost of labor and sewer charge through water less sustainable washes which is a natural eco-friendly and non-polluting treatment.

Decentralized Solar Through Easy Installments

We are providing innovative Decentralized Solar Systems that bring electricity to home, allowing families to supplement their income and access the products of a modern society at a low cost.

Corporate Social Responsibility

Corporate social responsibility is an essential part of our business operations and functions. We understand that sustainable business practice is an ongoing commitment to the wellbeing of our employees, the environment where we work and the communities we serve.

Our People

We foster a culture of empowerment, engagement, an innovation that values inclusion and diversity in a highly connected workplace. We strive to empower communities economically by creating sustainable job opportunities & and to contribute towards economic growth of the country.

Our Products & Production

We recognize the impact we make, and we are constantly changing and improving the way we manufacture and design our products to build a better future. We set high standards for our production processes and maintain translucent reporting throughout the supply chain. We adhere to rigorous international and external auditing process on quality, social and environmental parameters as quality and regulatory compliance are of the utmost importance, also, we are committed to lean manufacturing.

Equal Opportunity Employment

NIZAM fosters a culture of teamwork where the people are driven to operate and perform with the highest integrity and values. As an equal opportunity employer, NIZAM hires people purely on the basis of merit and is committed to providing equal employment access to all people, regardless of race, religion, gender, nationality, or disability.

Green Office

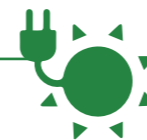

We have a vision of becoming a green company that is environmentally friendly and socially responsible. In its efforts towards sustaining the environment for the generations to come, NIZAM is committed towards adopting the best practices necessary to ensure a greener society. For achieving this purpose, we have collaborated with WWF-Pakistan and introduced Green Office Initiative at our workplace and business practices; a program aiming for Environmental Sustainability. Some of the key projects undertaken as part of the scheme are:

- Reducing the consumption of the natural resources by improving offices' environmental efficiency
- Reducing energy and paper consumption cost
- Promoting sustainable practices by increasing environmental awareness of employees through environmental advocacy seminars and trainings workshops
- Promoting climate change mitigation by requiring energy saving and use of renewable energy sources

Waste Water Treatment

We convert waste water that is no longer needed or is no longer suitable for use – into bilge water that can be discharged back into the environment. Waste water is full of contaminants including bacteria, chemicals and other toxins. The treatment aims at reducing the contaminants to acceptable level to make the water safe for discharge back into the environ-

Energy is future, make it bright!

Solar power has become a sustainable and cost-effective energy having a positive effect on society as it reduces water pollution, hazardous waste and air pollution. We continuously strive towards lessening our impact on the environment and making a positive difference in the communities we operate in. We have efficaciously reduced our impact by 20% since last year by installing clean energy systems at our facilities to help combat greenhouse gas emissions, reduce our collective dependence on fossil fuel and electric-power carbon footprint.

Community Service

As part of our CSR initiatives, NIZAM semiannually hold blood drives where employees donate blood for the treatment of chronic blood diseases and seek to save precious lives through blood donations, also, to address the shortage of blood. The drive is held at NIZIAM Offices in cooperation with the Indus Hospital. The initiative is a simple action that does not require many resources but that has high social impact.

Transforming Education

We are more than just a business; we are part of a global community. We strive to become an active and responsible member of the communities in which we operate and a responsible global citizen that contributes towards supporting our local communities by addressing basic needs like education. We believe that every child has a right to education and for that purpose we have collaborated with The Garage School which is a non-profit initiative by Safi Benevolent Trust in their mission to uplift the community through provision of quality education, healthcare and lifestyle. We believe it's vital to ignite young people's imagination who are striving hard to learn, hoping that one day we will become the change we wish to see in the world.
