## Filipino Heritage in Design

*All of the companies showcases Filipino Heritage marked by Fine Filipino craftsmanship.*

*Featuring the Philippines' multi-cultural exposure to the West and the East- a play between European, Middle East, American and Asian taste.*

## Acento Colleccion

*Decorative Lighting Fixtures  
(Lamps and Lighting)*

The company uses recycled materials instead of chemicals to produce virgin glass products. 50% of its fuel formula to burn and melt the glass is concocted from used automotive oil disposed by gasoline stations or thrown improperly by automobile owners. Its metal materials are purchased as scrap from wholesalers.

Due to its green practices, Acento Colleccion became the recipient of UNESCO award (United Nations Educational, Scientific and Cultural Organization) for the Philippines.

## Contemporaneo Design Enterprise

*Table tops / Console / Bar Carts*

Contemporaneo has two (2) collections:

\*The Woodchip Collection is made of discarded mahogany wood processed into wood chips inlayed manually to achieve the design of furniture's & Decorative Accessories.

\*The Unisan Collection is made of recycled wood materials such as reclaimed woods & remnant of sunken ship that sunk in Unisan Bay, Quezon Province Philippines; the blemish were curved naturally by sea worms & sand, that forms a unique detail of woods.

The company promotes Green Furniture Campaign which involves the use of recycled woods and other raw materials while providing livelihood to the Community.
