CLOSE TO HEAVEN 1000 to 2900 M.A.S.L.

Argentina's Northwest region is geographically vast encompassing several provinces, South of Jujuy, part of Salta, Catamarca, La Rioja and Northwest of Tucuman.

Vine-growing finds its best features at the naturally irrigated valleys surrounding the Andean mountains, where the altitude ranges between 1,000 and 2,900 meters above sea level; including locations such as Cafayate in Salta, Santa Maria and Tinogasta in Catamarca, and Chilecito in La Rioja.

In spite of the region's vast latitudinal spread, cultivation is reserved mostly for the valleys, therefore the surface presenting the required altitude and irrigation conditions is not very ample. This region represents 5.70% of the country's vineyard surface.

There's the common conception that the grape makes the wine, but elevation above sea level, as well as terroir are decisive for the final product. This is not a new concept: in Ancient Rome, it was believed that Bacchus, God of Wine, both loved and admired the mountains. And it's a proven fact that high altitude grapes are special and unique.

This wholesome, ecological environment ensures grape's development at its best.

Higher altitudes translate into higher and better solar radiation, and wider temperature variations, i.e. warmer days and cooler nights. At these elevations, the wind cleans the air, the soil is arid and stony with high mineral content, and ice water trickles down pure and natural, nourishing our grapevines.

High altitude wines have fuller body, incredibly intense red and violet hues, remarkable persistence on the palate, and scents that linger in our memories.

These are some of the reasons why high altitude wines are currently trending amongst the best wine experts.

临近天空 海拔1000至2900米

阿根廷西北部地区，幅员广阔。它包括胡胡伊省南部、萨尔塔省、卡塔马卡省、拉里奥哈省的一部分和图库曼西北部。

在Cordilleran 山谷的灌溉区中，最适宜葡萄树栽培，此处海拔在1000至2900米之间，还包括如卡塔马卡省的萨尔塔、圣玛利亚和蒂诺加斯塔的卡法亚特和拉里奥哈的奇莱西托在内的灌溉区。

尽管该地区的纬度跨度大，但作物集中在山谷中，因此满足所需灌溉和海拔条件的面积并不是很大。

这个地区的葡萄园占阿根廷的5.7%。

优质的葡萄是佳酿的开端，海拔与风土决定了葡萄酒的最终风韵。对高海拔葡萄酒的执念由来已久，据说，古罗马时期，巴克斯（葡萄酒之神）十分热爱和崇敬山岭。事实证明，生长在高海拔的葡萄，在世界上独一无二。

高山酒，以高海拔种植酿制而得名。

海拔越高，太阳辐射越多越强，热辐射也就越高，白天愈热，夜晚愈冷。在高处风净化空气，由于没有杀虫剂，植被享有良好的健康，土壤更贫瘠，石质，从解冻中流出的水提炼纯度，是降雨稀少。

高海拔的葡萄酒，酒体更加饱满，色泽呈璀璨的红与浓郁的紫罗兰，口感持久，回味悠长。

MALBEC

Malbec is Argentina's emblematic variety, being the country with most Malbec dedicated surface in the world. The most outstanding characteristic of Malbec wine is its dark, intense color. Malbec aromas include cherry, strawberry or plum, raisins and black pepper, and, in some cases, cooked fruit. Malbec is deep, soft and sweet to the palate, with non-aggressive tannins. When aged in wood, as it is in our winery, it acquires notes of coffee, vanilla, or coffee and chocolate.

EYES: Intense ruby red with violet hues.

NOSE: Fruity aroma with notes of fresh plum and a subtle touch of spices and clove.

ALCOHOL: 13.6 v / v

CABERNET SUAVIGNON

Cabernet Sauvignon may be considered as the red counterpart to Chardonnay. This grape has intense color, small berries and thick peel, which produces rich, elegant, alluring wines.

Puesto del Marques Cabernet Sauvignon is characterized for its dense and aristocratic tannins, intense color, and its fruity aroma and elegant structure.

EYES: Claret red color with charming purple hues.

NOSE: Denotes a distinct, pleasant personality, specially hinting mature red fruit aroma.

ALCOHOL: 13,8%

TORRONTES

This grape gives brilliant white wines which have excellent characteristics, not only for the palate and the nose, but also, for the color provided by the winemaking terroirs in the North of Argentina; due to its cool and dry climates, which have high temperatures in the summer, ideal for this white grape. These wines offer notes of orange blossom, lemon blossom, rose, jasmine, lilac or violet, fresh grape (Muscat) and tropical fruit such as guava, peach, pineapple, melon or apricot. There's also more mature notes like orange peel, dried fruits and nuts, honey, chamomile, and clove. The balance between sourness and fruity flavors make this an almost sweet wine while still dry.

EYES: Bright and clear, with pale yellow and greenish hues.

NOSE: Aromatic, with tropical fruit notes and floral finish.

ALCOHOL: 13,6 v/v

马尔贝克

马尔贝克是阿根廷的代表性葡萄品种，阿根廷是全球马尔贝克葡萄种植面积最大的国家。马尔贝克葡萄以其深浓的颜色为特征，马尔贝克的香气让人联想到樱桃，草莓或李子，葡萄干和黑胡椒，有时也会让人联想到煮熟的水果。在口中，马尔贝克清新，柔软，甜美，兼具单宁而不喧宾夺主。当它在木桶中陈年后，就像在我们的酒窖中一样，带着咖啡、香草、咖啡与巧克力的气息。

观其色

CABERNET SUAVIGNON

The word "Sauvignon" may stem from the French word "sauvage", which means wild, and it could refer to the fact that this was originally a wild grapevine from France, which took roots perfectly in the Northern lands of Argentina. Cabernet Sauvignon is a red wine with a certain fruity aftertaste, mainly blackcurrant and blackberries, full body, structure and strong tannins; with a clear sharpness and medium to high alcohol levels.

EYES: Intense red with ruby hues.

NOSE: Ripe fruit aromas.

ALCOHOL: 13,8 % v/v

飞箭峡谷赤霞珠

「苏维浓」（Sauvignon）来自于法语「Sauvage」，也就是「原生」的意思，亦即法国当地土生土长的葡萄种，但在阿根廷北部土壤却获得了非常良好的生长环境。卡本内苏维浓（赤霞珠）是一种带有一定果香的红酒，主要是黑醋栗和黑莓香味，酒体饱满，单宁与结构强烈，明显的酸度，酒精含量中间偏高。

PUNA
BODEGA

PUNA 2600 MALBEC RESERVA

An attractive dark red with soft purple hues, in the glass it presents a clear and bright black centre.

In the foreground, its complex aroma evokes red and black fruity notes, like ripe plum or blackcurrant. This alternates with candied cherries and, in the background, it offers liquorice flavours and soft, elegant toasted aromas thanks to its 12-month ageing in oak barrels.

In the mouth, it is an intense wine with marked tannins and a juicy sweet feeling. Its aromatic fruity start gives way to a long finish. With good balanced acidity and persistent flavour, it flows with great expression.

PUNA 2600 MALBEC

EYES: Shows an attractive, very intense ruby red color, with violet hues, and a bright, black, limpid center of wineglass.

NOSE: At the forefront, fruity aroma, reminiscing fresh red fruit like raspberry, cherry, and plum marmalade; and an undertone expressing spices and licorice notes, also lactic, due to its malolactic fermentation, with a subtle vanilla touch, no doubt provided by its contact with wood.

PALATE: Very pleasant at first contact, light, flows well, with balanced sharpness, necessary for its alcohol content, proving its profile as Young Malbec of the Year. Very pleasurable in the mouth, with present but soft, round tannins, and a long aftertaste.

PUNA 2600 MALBEC ROSE DULCE

EYES: Pink tones at the bottom of the wineglass, showing claret red hues.

NOSE: Good intensity, reminiscing red fruit, such as raspberry, strawberry and cherry.

PALATE: Coinciding with its aroma, it has hints of cherry and strawberry. Light and smooth due to its balanced sourness which proves perfectly harmonic with the whole ensemble. With a long and fresh aftertaste that invites to continue savoring it.

PUNA 2600 TORRONTES DULCE

EYES: Intense, vivacious, bright with greenish hues.

NOSE: Sharp, with good intensity expressing fruity aroma with tropical fruit hints, reminiscing mango, lychee, and floral aroma undertone with touches of rose.

PALATE: Present but balanced sourness, which makes it light, smooth and lively in the mouth. Easy to drink, with medium intensity aftertaste, and persistent fragrance.

PUNA 2600 TORRONTES

EYES: Bright with greenish hues.

NOSE: Subtle with touches of tropical fruit and citrus, and mineral undertone.

PALATE: Light, easy to drink, with balanced sugar content in tune with sourness.
