KSPA

A new way to spell **P**ackaging

Since 1993

The SPA Group of Companies

Nurtured by a visionary spirit and steered by commitment and competence, SPA group of companies is a vastly diversified organization with an evolving presence in a number of dynamic business sectors.

The group has employed over thousands of people making it one of the major employers in the country.

The associate companies of the group have greatly diversified business undertakings both in the domestic and international market, from corrugated and flexible packaging, garment accessory manufacturing, energy and power generation, manufacturing industrial solid tyres, plantation and farming, waste management and recycling to trading of heavy vehicles and industrial machinery. Beyond business, the SPA Group has invested extensively in projects of social significance and we are very proud of our achievements in all these domains.

We will continue to grow and be a responsible global citizen serving the community, supporting national interests, being environment friendly and health and safety oriented.

Chairman's Message

Companies that foster scale for the benefit of their stakeholders more often succeed over time..

From our humble beginnings in 1984, the SPA Group has grown and expanded to become one of the leading business conglomerates in Sri Lanka. Our vision right through has been to respond to the call of the nation, expanding the group's wings to encompass the vast segments of the socio-economic mechanism, earn direct foreign exchange through exports and to become technological & infrastructural advancement across the country, as well as the pressing need to ease the unemployment situation.

While we are proud of our business achievements, we would also like to remark on the enduring strengths that we have been able to contribute to the social interests, business and economic development of Sri Lanka. Featuring our success to date, the repute and the prestige that we now relish are the deep rooted founding philosophies that have served to steer the Group over the last two decades.

We know that success cannot be determined by the amount of wealth the business generates, but by the level of evolution it brings to the economy & the society at large. The real spirit of evolution is, creating advantage to all our stake holders and that has been our greatest effort in every aspect of our existence.

We have, over a period of time, created a noble corporate culture in the business that revolves around values, quality and social responsibility. Looking ahead, we shall build and nurture a business that will foster scale for the benefit of our stakeholders - that will survive and thrive for many coming generations.

Anurath Abeyrathne
Chairman/Managing Director
SPA Group

"It is not easy to have great ideas. It is challenging to set yourself out there, it's easier said than done to be at risk, but those people who take on that are the dreamers, the planners and the great inventors. They are the wondrous people of the world."

We have within us the strength, the patience,
and the passion to be the BEST.

Korean SPA Packaging (Pvt) Ltd

About Us

Korean SPA packaging (Pvt) Ltd was established in 1993 as a BOI approved entity and has steadily built a solid reputation as one of the largest independent, inventive and dependable, multibillion rupee turnover company in the country engaged in manufacturing, supplying, and exporting a comprehensive range of Corrugated & Flexible Packaging solutions.

Operating from a 200,000sq ft production facility with ISO 9001 & ISO 14001 accreditation, we own state of the art machinery for production of corrugated cartons, poly bags and for printing and other value adding operations. We can confidently supply all major industry sectors & our service levels extend for larger blue chip customers nationwide.

Our Vision

To become the Premier Packaging Solution Provider in Sri Lanka

Our Mission

To deliver excellent value to our clients, employees, shareholders and society at large in a sustainable manner through optimal utilization of resources thereby generating employment, foreign exchange and wealth for the society.

Our Values

We are growing in a unique culture of freedom. We are driven by passion for perfection, Commitment to quality, loyalty to our customers, sensitivity to the environment, responsibility to the society and they are our main and core values.

Korean SPA Packaging - Infrastructure

Our infrastructure is equipped with latest and innovative machines, which are properly maintained on regular intervals of time. The entire infrastructure is managed by a team of professionals, who are well versed in their respective divisions.

We strongly believe in keeping pace with the changing market trends and technologies. We have continuously invested and upgraded our plants and machineries as well as greatly expanded our production efficiencies & capabilities.

Our state of the art machineries in the corrugated unit can produce & convert corrugated boards into printed, slotted, glued, stitched and bundled corrugated boxes within seconds.

Our Poly bag manufacturing unit starting from poly extrusion to production of fully finished bags, including tube making, treatment, flexographic printing and fully automated bag making and counting, can produce customized packaging solutions for the packaging of industrial and consumer products with minimum lead-times.

Packaging Innovations

Packaging Quality

Quality is considered as the prime objective of our organization. We conduct stringent quality tests in accordance with existing international standards at our in-house testing labs. We possess one of the industry's most advanced laboratories, equipped with sophisticated testing devices that are required for quality testing of papers, boards, cartons, poly materials & print quality.

Our team of quality controllers rigorously inspects each and every product and the process to ensure best quality.

Designing capabilities

We have invested resources in the creation of structural and graphic design capabilities. These are uniquely positioned to offer sophisticated development functions to our customers – especially for those who do not have their own internal development departments for packaging.

Packaging Innovations

We are consistently working on innovative new developments for Environmentally-friendly, lightweight & cost effective packaging solutions. We seek to develop our market position in product quality and lightweight capability by continuously improving the quality and design of our products while increasing the efficiency of production. We work on "Power of Less" principle, achieving optimized packaging solutions with less raw material, less carbon, more recycling & less waste.

Our Products

Corrugated Products

Our wide experience with corrugated products means we can supply a comprehensive range of converted corrugated cartons & boxes such as, standard glued or stitched cartons, die-cut cases, laminated boxes, trays, dividers, partitions and telescopic type boxes for Retail Packaging, Shelf Ready Packaging and Transit Packaging. We can make them plain or printed with your brand on and keep it simple or with colorful branding as per your requirement.

Our corrugated boxes are manufactured in a hygienic and professional manner using high quality paper sheets that we source only from the FSC accredited paper mills. Our packaging boxes are widely appreciated for the features like tear resistance, durability, light weight, superior surface strength, print quality and high storage capacity.

Constantly Perfecting Our Products...

Delighting our Customers is our Best Business Strategy of all...

Our Customers

We have a secure customer base and once you have had the KSPA 'experience' you will perceive why we are one of the leading manufacturers of packaging in Sri Lanka. With our extensive offerings for both corrugating and polythene packaging solutions, we serve almost every industry including: Apparel, Tea, Food & other beverages, Spices & allied products, Coconut based products, Fruits & vegetables, Rubber based products, Cosmetics, Pharmaceutical, Confectionery, Horticulture, Automotive, ceramic & porcelain, fisheries & Manufacturing.

We have also been selected as one of the few nominated Marks & Spencer, H&M, Next, Tesco own brand suppliers.

The total customer focus drives all stages from enquiry, design, quotation, order and production right through to delivery.

Our focus each day is to foster relationships with our customers and ensure that we have the resources in place to deliver products and services they need, on time and as promised.

Our Employees - our treasured asset

Our Employees are our greatest asset – We attract and retain the best; provide them with encouragement, stimulus, and make them feel that they are an integral part of the company's mission.

Healthy work atmosphere

Our employees are molded in the best of atmospheres – we believe the ability of employees to be free and grow and learn is the best way to help them deliver the great quality end-product that keeps our customers happy. To this end, we have striven hard to provide them with the right kind of working environment.

We dream More – We plan More – We do More – We achieve More...

Our Achievements

We have achieved excellence and been honored by various trade and other organizations for our contribution to the exports sector and to the overall economy.

Korean SPA Packaging has been recognized as the "National Platinum Award Winner" in the extra-large business category at the Sri Lankan Entrepreneur of the year Awards conducted by the Federation of Chambers of Commerce and Industry of Sri Lanka. The company has also received the "Presidential Award" as the Best Packaging Solutions Provider to the Export Sector by the Export Development Board of Sri Lanka, which is the premier trade body for export promotion. We have been awarded the Gold & Silver Awards in Service Providers to Export & Regional Sectors – Extra Large category on several occasions.

Our Commitment to the Environment & the Community

All our products and processes are environmentally friendly, whilst meeting the shared needs of consumers and society. We comply fully with current legislative requirements, and we continuously monitor our processes to eliminate any unnecessary waste or by-products. We are an ISO 14001 certified company.

Off cuts, waste polythene, corrugated plant waste that are created during our manufacturing process are all saved, recycled and put to a second use. We are fully committed to support the global aim to "REDUCE, REUSE, RECYCLE."

Using water based eco-friendly inks, using bio-degradable/recyclable raw materials, diminishing waste water, meeting health, safety and environmental packaging requirements are some important steps our company has taken to protect the environment & the community we associate with.

Meanwhile, our ongoing research activities assure to develop even greater advances every day, helping maintain our packaging leadership in preserving the earth's natural resources for future generations.

Our recycling facility in UK will help you manage your surplus of polythene & plastic packaging waste easily and in a more eco-friendly way, contributing to a more sustainable environment. (Get in touch with us to find out more about our recycling facilities.)

Revealing the relation between KSPA and the Environment..

Corporate Social Responsibility

As a responsible corporate citizen, we believe in sharing our success with the less fortunate in the society. Yes, we strive to do our best to the society that we live in, going beyond the norms of social responsibility. We are an equal opportunity employer and we recruit differently abled persons as part of our responsibility towards the society.

Some of the many CSR Initiatives carried out by KSPA in the past are as follows,

We conduct all our business activities in a way that increases the overall level of our CSR activities based on our belief that CSR is at the heart of management itself. We have developed specific policies to identify and achieve our CSR vision and goals.

Our Clients

We create value for clients by delivering world-class products & an excellent customer service in response to their needs.

Our Shareholders and Investors

We create value for shareholders by ensuring the proper and timely disclosure of corporate information and generating returns by practicing sustainable business growth.

Our Employees

We create excellent working environments that improve the potential of our diverse workforce, and opportunities for personal development, while offering proper remuneration for their services.

Our Communities and Society

We understand social needs through an effective channel of communication that we have with the local communities where we operate. Moreover, we contribute to sustainable development through such activities that deal with social challenges and public-interests.

- Construction of 20 houses for displaced people from Tsunami Disaster.
- Construction of Dagabe at Galgoda Temple.
