Number of employees	3000
Capital (in USD)	83 million USD

Introduction

“Gold Dried Fruits Export” LLC was founded in 2012 to process the fresh agricultural products and increase marketability of Uzbek dried fruit and vegetable products in the world market. In 2013, a Fruit and Vegetables Processing Factory was built on 7-hectare lot. When designing factory, special attention was given to the acquisition of modern equipment produced by the leading manufacturers of China, Turkey, Germany and Belgium as well, as the application of the latest technologies developed in this industry. In parallel, the work on selection and training of qualified was carried out. Today, more than 95% of total factory production is exported to the CIS countries, with a gradual development of the European and Asian markets. More than 1450 ha land areas were acquired in the Surkhandarya and Namangan Provinces to produce fresh fruits and vegetables. In 2015, a Multipurpose Refrigeration Complex was built to store, freeze and package the finished products. Our company has passed the international certification and has received two international certificates such as Global GAP Certificate and Certificate of Food Safety Management Systems ISO 22000.

EAST AGRO INTERNATIONAL LLC

One of the foremost activities of our agricultural holding is the production of canned products based on the production company EAST AGRO INTERNATIONAL LLC (Shahrisabz).

The production capacity of our company is more than 20-30 million cans per year.

We produce tinned tin and glass jars, fruit in syrup, gherkins, tomatoes, mixes of gherkins and tomatoes (cherry) as well as jam mixes, compotes, purees from apples, peaches and apricots, tomato paste.

INTERNATIONAL CERTIFICATION

FOOD SAFETY SYSTEM CERTIFICATION - FSSC22000

The Food Safety Management System is integrated in our production.

In 2019 our company successfully passed the audit and was certified according to the global certification scheme for food safety management systems.

FURTHER DEVELOPMENT

In 2020-2021 for effective use of not irrigated lands it is planned to reclaim 650 hectares with the intensive gardens of cherry and wild cherry equipped completely with the system of drop irrigation.

In 2019 the optical sorting and calibrating line for sweet cherry manufactured by UNITEC (Italy) was installed and started up on our enterprise. It is a modern innovative sorting line operating completely in the automatic mode.
