GARDEN spot

Garden Spot is the polish designer and manufacturer of the unique vertical gardens system Pixel Garden dedicated for living plants. Our company is located in Rogalinek, near Poznan in Poland. We have been on the market for almost 20 years.

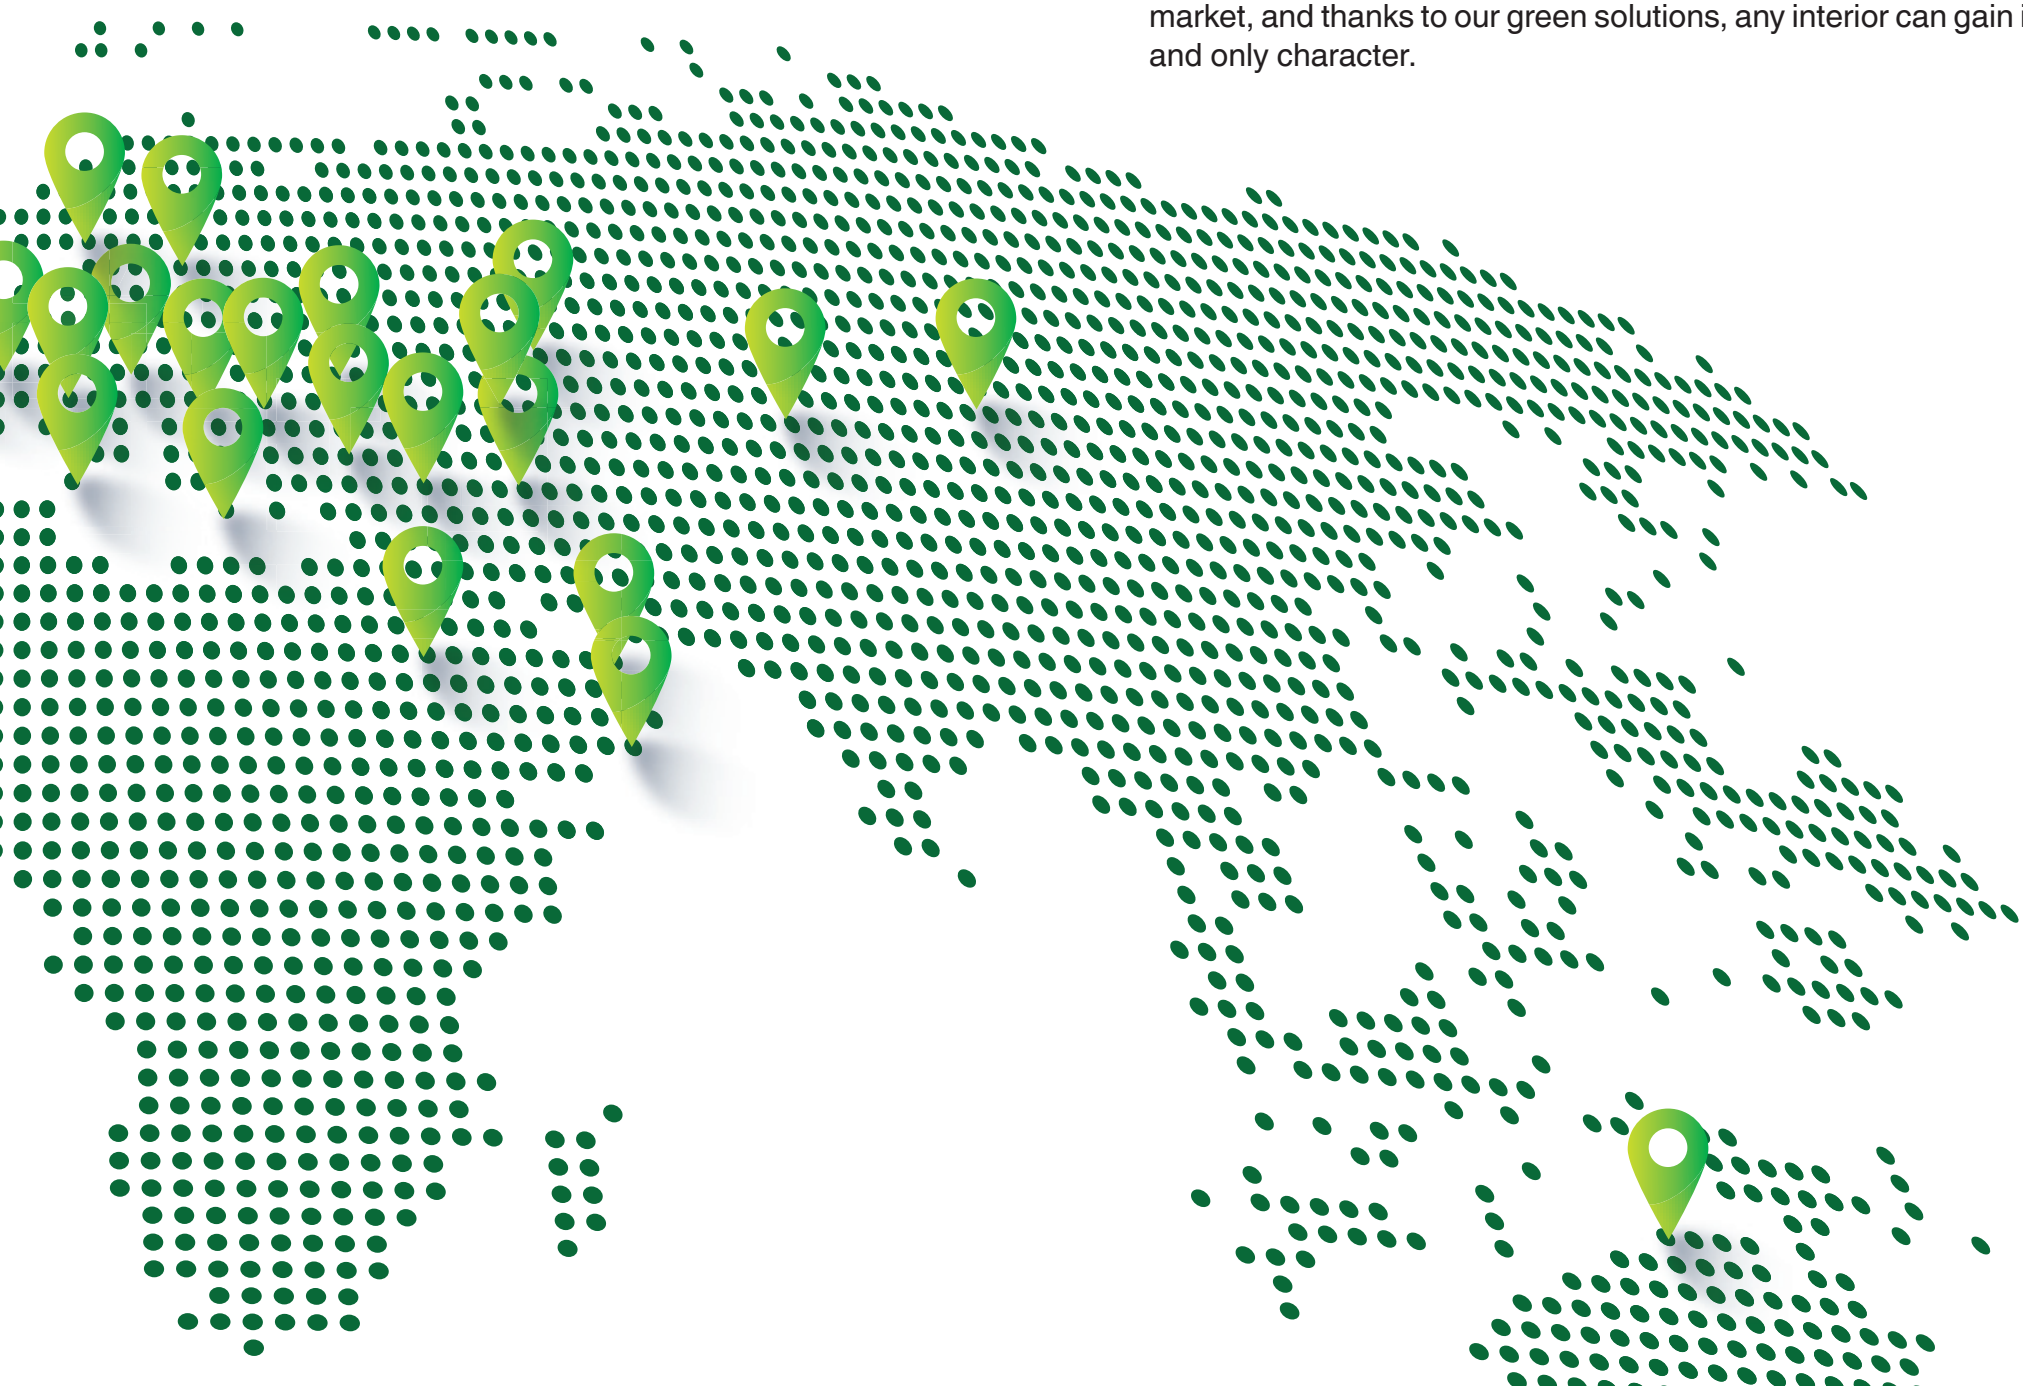

Our key product is Pixel Garden module – the box with 2 pots. The product is available in two sizes – PG14 with pots of diameter of 14 cm and PG09 with pots of diameter of 9 cm – and two colors – black and light grey. The modules are adjusted to irrigation.
Pixel Garden allows you to create the vertical garden of every dimension you would like to have. There are no limitations of width and height.

In order to meet the expectations of our customers in our offer you can find also product called Alu Line – the aluminum frame with Pixel Garden modules permanently installed in it. The frame can be hanging as the picture on the wall, standing with legs or mobile – equipped with legs and wheels. We have also the steel version of the frames called Simple Line.

For Garden Spot very important is best quality of products, modern design that responds to current trends, sustainable development and the ability to adapt to individual customer needs. Vertical gardens are a great way to introduce greenery even in the smallest spaces.

We value the beauty of the world around us and consider ecology as very important issue, this is why Garden Spot products are 100% recycled. In order to increase environmental awareness among the society, we also conduct educational activities in the form of workshops dedicated to both children and adults, during which we explain the impact of the green environment on the world around us.

Our passion and commitment make us appreciated by clients from all over the world. We are pleased that we have our contribution in creating new standards in the design of space on the international market, and thanks to our green solutions, any interior can gain its one and only character.
