

The international matchmaking event [Slovak Matchmaking Fair 2020](#) will take place this year ONLINE on October 21, 2020.

Given the current regulations and restrictions associated with the organization of mass events, as well as forecasts for the coming months, we decided on a safe alternative for this international event - its **ONLINE** version via the Zoom platform.

The Slovak Matchmaking Fair 2020 in this format offers the possibility of **ONLINE bilateral talks with Slovak and foreign participants and partners** of the event according to your requirements and selection. The moderated **ONLINE panel discussions on current topics** with experts and top representatives of Slovak and foreign companies, institutions and the state will be opening the event.

Take advantage of this safe form of this international event and meet your new Slovak and foreign business partners from the comfort of your office or home!
