

# Saaraketha Organics

Transforming Rural Lives

---

Certified Organic

# For our Farmers Health & our Planet

Saaraketha is a 100% Sri lankan, internationally certified, socially responsible business; bringing you the best in organic produce by empowering local, small holder farms

---

Our mission involves elevating agriculture from subsistence to business

Over 200 varieties  
of organic produce to  
choose from!

Saaraketha is Sri Lanka's largest certified organic exporter and ethically sourced products to multiple destinations around the Globe. Because of our long agricultural history Ayurveda, we also know the specific properties and medicinal uses of each product.

We are the largest exporter of organic produce in the region, certified by the Control Union.

& Allied Products**

Certified Organic

# A literal breath of fresh air!

Over the years we have continuously monitored our waste footprint as a responsible producer. Organic food spoils fast so we needed creative technologies to help us keep the freshness in our produce without compromising our values.

## Modified Atmospheric Packaging —

MAP is a special packaging material that maintains an optimal respiration rate to preserve the fresh color taste & nutrient content of fresh produce.

MAP enhances

# Shelf life, Reduces Waste & contributes to Resource optimisation

Through a rigorous process led by trained quality inspectors, we sort, grade and quality check that our produce is fresh and chemical free.

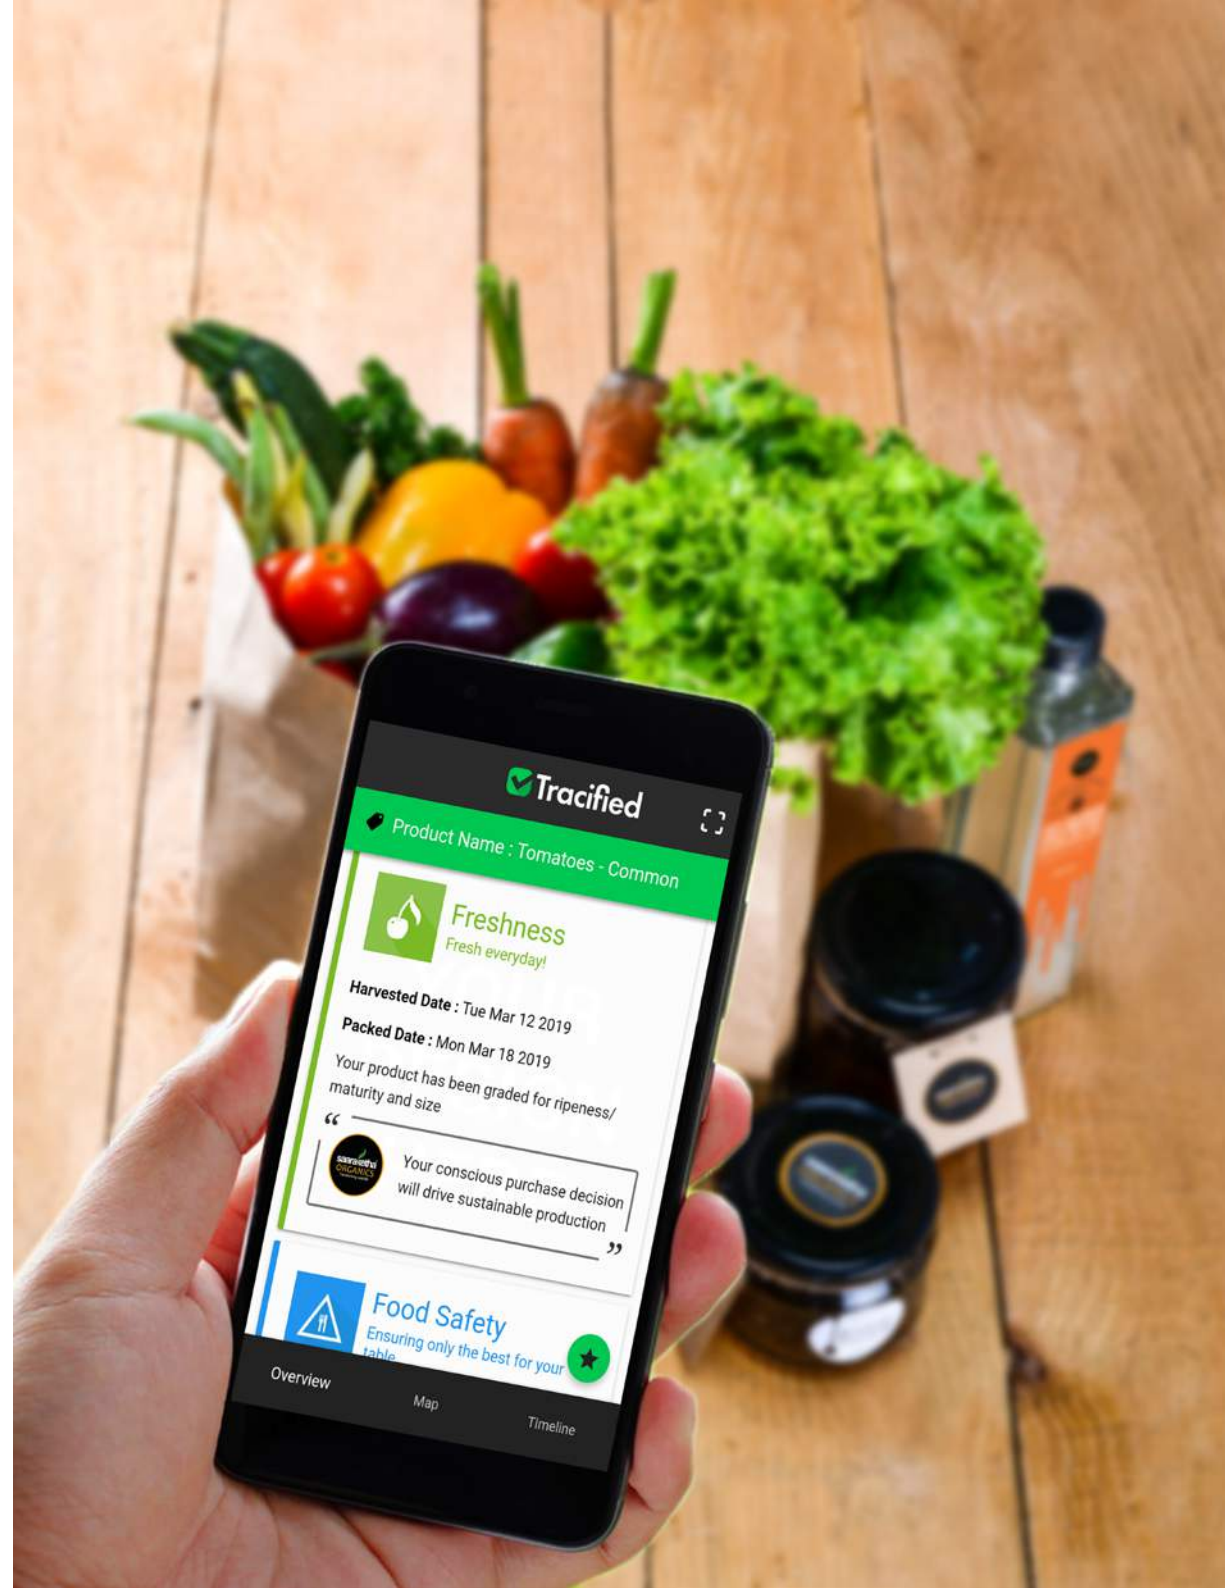

Certified Organic

# Traceable to the source

All products are traceable with farm to table transparency, allowing you to know the origin & the complete triple bottom line footprint of the product that you consume.

Our produce comes directly from local farmers who follow sustainable methods of cultivation and are certified under USDA and EU Organic standards.

Your purchase helps us give back  
to our local farming communities.
