Scutched Long Flax Fiber:

Code: F201

Pressed in bales of 200 or 250 kg.

1st Grade: producing between 200 and 250 Tons / Month.

2nd Grade: producing between 150 and 300 Tons / Month.

Scutched long Flax Fiber:

Code: F201

Pressed in bales of 200 or 250 kg.

Wrapped in or without jutes.

1st Grade: producing between 200 and 250 Tons / Month.

2nd Grade: producing between 150 and 300 Tons / Month.

Flax Dolls:

Code: FD301

- Consists of two parts 25 kg each in one bale of 50 kg with jute.
- Which is used in many chemical industries also is used by the plumbers in the sanitary uses.
- It is handmade product from Hackled Flax, in different weight and shape:

Flax dolls with (2 heads)

Well hackled flax fibers.

Handmade dolls with 2 heads.

Packing: 50kg. Bags or each doll in plastic sac.
100% Natural fibers without any chemical usages.
Container Capacity 20 feet up to 13 Ton.
40HQ Up to 28 Ton.

Hackled degree: 65%:70%

Available Weights: from 50gr. To 1000 gr.

Flax dolls with heads (4)

Well hackled flax fibers.

Handmade dolls with 4 heads.

Packing: 50kg. Bags or each doll in plastic sac.
100% Natural fibers without any chemical usages.
Container Capacity 20 feet up to 13 Ton.
40HQ Up to 28 Ton.

Hackled degree: 65%:70%.

Temperature Resistance: +140° C.

Available Weights: from 50gr. To 1000 gr.

Flax dolls with (6 heads)

Well hackled flax fibers.

Handmade dolls with 6 heads.

Packing: 50kg. Bags or each doll in plastic bag.

100% Natural fibers without any chemical usages.

Container Capacity 20 feet up to 13 Ton.

40HQ Up to 28 Ton.

Hackled degree: 65%:70%

Temperature Resistance: +140° C

Available Weights: from 50gr. To 1000 gr.

Hackled long Flax fiber:

Code: FH401

Pressed in bales of 200 kg.

Considered the early and the most important stage in Manufacturing spinning process.

We produce between 100 and 150 Tons/ Month.

Hackled flax tow sliver:

Code: FH402

Available in 20-25 gr/m sliver, pressed in can shape.

Hackled long flax sliver:

Code: FH403

Available in Hackled long Flax sliver 30 gr/m

Used for wet spun and semi wet spun in spinning mills.

Hackling percentage: 60%.

Sliver Density: 30:35gr./m.

Usage : Spinning

Spinning range : up to NM.15.

Packing: bales of 50kg.

Container capacity: 12 tons per 20 ft. - 24 tons per 40 ft.

Usage: Thread, composite.

Short flax In Sliver. (Bleached)

Code: FH404

Produced from flax short fibers (hackled tow).
Non-Optical bleaching.
Sliver Density: 20:25gr. /m.
Usage: Spinning
Spinning range: up to NM.4.
Packing: bales of 20kg.
Container capacity: 9 tons per 20 ft. - 18 tons per 40 ft.

Short flax In Sliver. (Natural Color)

Code: FH405

Sliver Density: 20:25gr. /m.
Usage: Spinning
Spinning range : up to NM.4.
Packing: bales of 20kg.
Container capacity: 9 tons per 20 ft. - 18 tons per 40 ft.

Hackled long flax sliver:

Code: FSP501

- Which is used in various chemical industries, also it is used by the plumbers in the sanitary uses.

It is produced in different weights for both the sliver and the Bobbins or Cones:

The weight of Bobbins or Cones is from 80 gr. till 500 gr.

The weight of the Sliver is from 1.5 g/m till 3 g/m.

Hackled degree: 65%:70%.

Flax spools (without tube)

Code: FSP502

Sliver weight: 1.5gr. /m.

Sliver split length: 15 cm.

Packed in cartons of 250 pcs.

100% Natural fibers without any chemical usages.

Hackled degree: 65%:70%.

Temperature Resistance: +140° C.

Available Weights 20gr. 40gr. 80 gr. 100gr. 200gr.

500gr.

Flax spools with carton tube

Code: FSP503

Sliver weight is 1.5gr./m.
Sliver split length :15 cm.
Packed in cartons of 250 pcs.

Hackled degree: 65%:70%
Temperature Resistance: +140° C.
Available Weights: 20 20gr. 40gr. 80 gr. 100gr.
200gr. 500gr.
100% Natural fibers without any chemical usages.

Rescutched flax tow (Arrous):

Code: FA601

Pressed in bales of 200 or 250 kg.

Wrapped in or without jutes.

It is used in the manufacture of paper, cottonization, Automotive and spinning
Factories.

We produce between 300 and 500 Ton /Month.

Carding Flax Wastes:

Code: FA602

Pressed in bales of 200 or 250 kg.

Wrapped in or without jutes.

Which is used in the manufacture of paper and cottonization factories and producing insulation and composite

We produce between 250 and 350 Ton/ month.

Flax Yarn and Twine:

Code: FY701

Yarn from Hackled Flax is available from NM 0.20/1 till NM 8/1 (on demand)

Yarn from hackled Tow is available from NM 0.20/1 till NM 3/1 (on demand)

Twine from Rescutched Tow is available from NM 0.2 /1 till NM 1.25/1 (on demand)

Yarn from Mixed between Hackled Tow and Rescutched Tow is available from NM 0.2/1 till NM 2/1 (on demand)

Spool:

Code: FY702

Available length in 25 cm

Its weight is available from 2 kg till 10 kg

Flax yarns on spools

Code: FY703

100% flax yarns.

Spinning range: 0.20nm:5.00nm.

Quality: Long fiber - short fiber.

Winding: Spools from 4 inch. To 10 inch.

Packing: on pallets.

Container capacity: 12 tons /20 – 24 tons /40hc.

Usage: Agricultural – Ropes.

Flax twines in balls shape

Code: FY704

100% flax yarns.
Spinning range: 0.20nm:5.00nm.
Quality: Long fiber - short fiber.
Single ply or twisted (Z or S direction).
Polished or unpolished.
Winding: ball shape from 15gr. To 2500 gr.
Packing : in cartons (every ball with or without PE shrink).
Container capacity: 5 tons /20 – 12 tons /40hc.
Usage: Agricultural – packing.

Flax Ropes

Code: FR801

Flax ropes from long fiber or short fiber.
Diameter: 4mm: 35mm
Usage: Agricultural – Decoration – Tying.
