# Our services

Sea Freight

Inland freight

## Sea Freight

When you put our experts to work, you can count on a calm sailing despite the complexities of international regulations.

We coordinate every aspect of your seagoing shipment, beginning at your doorstep and though to final destination all over the world.

Sea freight operation includes FCL,LCL and consolidation project operation and heavy lift.

We tailor the logistics solutions for you, have specialized departments for import, export and transhipments, as well as customer bonded.

In respect of hazardous materials special arrangements have been taken, enabling us to serve you in this aspect or full supply chain as well.

As one of the Egyptian leading non-vessel operating common carriers (NVOCC), WE HAVE THE CARRIER RELATIONSHIPS, SYSTEM AND EXPERIENCE to meet our global ocean freight needs

It goes without saying that we guard your shipment from door to door.

By maximizing routing and transit time options across multiple carriers, you gain an extensive selection of sailing schedules to and from all major parts around the globe.
