honest lemonades crafted with love in Slovakia

ABOUT MANA ROOTS

Mana Roots create unique beverages from natural ingredients without use of preservatives, dyes or unnecessary flavors. All our products contain only quality ingredients such as high quality teas, herbs, spices and premium fruits. Mana Roots lemonades are sweeten only with small amount of cane sugar or apple juice. Our lemonades gained a lot of supporters and thanks to that we became a number one producer of natural beverages in Slovakia. We have a wide portfolio of products, from which everyone will definitely find their favorite:)

OUR VISION

We are young people with a desire to live and create something beneficial for the whole society and therefore we bring new, healthy and alternative drinks for the market. As a new Slovak producer, we create drinks proudly, with love and passion from natural ingredients a little differently.

ECO THINKING

In addition to produce quality products, Mana Roots also focuses on ecology and sustainability. The products are filled exclusively into glass bottles, which are 100% recyclable. Glass can be recycled well and indefinitely - it does not lose its properties by melting. In Slovakia, we have a local producer and calf glass, which has the capacity to process and recycle all waste glass from separate collection and make new clean and ecological packaging. That's why the company Mana Roots decided to use only glass bottles.

Shop for eco products on a regular basis and help to protect our planet!

Think with us locally, ecologically and with care for your body.

CRAFTED NATURAL FLAVOUR LEMONADES

The natural lemonade edition is made from quality extracts of teas, spices and herbs, without the use of flavorings, dyes or preservatives. They do not contain gluten. Suitable also for vegans.

MYSTERY COLA

Natural drink made by own recipe, diverting from other cola drinks, and with its atypical colour and unique taste. Blend of different ratios of herbs, spices, fruit juices, natural, traditionally produced caramel and genuine kola nuts creates an unusual taste experience.

WE SUGGEST

YERBA MATE

Natural lemonade is produced by the leachate of the quality Yearba Mate, which is characterized by its beneficial effects on the human organism in the form of a caffeine bomb. It is an excellent refreshment and gives you energy for all day.

MATE GINGER

NATURAL TONIC

Our tonic lemonade is produced by quinine, which is released by cooking this bark. Because our tonic is enriched with lemon grass leachate, the taste is rather lemonade, with a delicate bitterness and a touch of lemon.

CRAFTED NATURAL FLAVOUR LEMONADES

The natural lemonade edition is made from quality extracts of teas, spices and herbs, without the use of flavorings, dyes or preservatives. They do not contain gluten. Suitable also for vegans.

HERBY

This anti-stress lemonade is made from beneficial herbs leachate, such as the wild thyme, lemon balm or mint, which will delight your taste buds and bring pleasant satisfaction. The combination of these herbs with apple and lemon juice will take you back to your childhood.

 WE SUGGEST

SPICY TEA

Natural drink made from premium white tea. In addition, the exotic ingredients of citrus fruits with a strong ginger juice. Premium white tea enriches this drink with a pleasant honey taste while ginger adds a spicy taste.

HIBISCUS

The combination of nature and Sudan's touch in the form of hibiscus flowers. This unusual sweet-tasting touch with other spices and fruit juices is the aromatic flavour of nature. Beautiful untraditional colour

KOMBUCHA

KOMBUCHA has been known in Asia for centuries as a medicinal sponge, an elixir of youth, or protection against yeast infections. It is a naturally living symbiotic community of diverse yeasts, algae and various bacteria. Many chemical reactions take place during the oxidation and fermentation process that lasts for several weeks in sweetened tea and produce many health benefits. Kombucha consumes sugar and releases various valuable substances, such as glucuronic acid, gluconic acid, L-lactic acid, oxalic acid, acetic acid, various vitamins and minerals as a sugar replacement.

KOMBUCHA LEMONADES

Made from quality fermented green tea from Sri Lanka. These kombucha lemonades are made by demanding long fermentation in fermentation tanks, where the pH and temperature are closely monitored. After maturing of this living organism, the kombucha base is combined with quality fruit juices and pieces of fruit. These lemonades represent a new look and taste for traditional lemonades. Those lemonades are pasteurized.

GINGERMANIA - GINGER BEER

Unlike standard beer from hops and malt, our Ginger Mania is made from real ginger tea, hand-pressed ginger, exotic citrus, cane sugar and special yeast, while it does not contain any artificial flavors, sweeteners or flavorings.

Secondary fermentation in the bottle produces natural CO2. Gingermania is great for mixed drinks, but of course super refreshing as a single drink. It's sweet and at the same time spicy taste will get you!

NON-ALCOHOLIC ORIGINAL

Refreshing and healthy ginger combination and lemon suitable for every day.

Suitable also for mixed drinks

NON-ALCOHOLIC SPECIAL

Unique clove star anise finely sweet taste.

WE SUGGEST

FRUITY LEMONADES

Mana Roots fruity lemonades are made of premium fruit juices, without the use of dyes, aromas or preservatives, so they are suitable also for children. It is an ideal summer refreshment and a combination of delicious and delicate taste with fruit. Taste our refreshing flavors of apple, orange, grapefruit and lemon. You'll love them!

GRAPEFRUIT

Tasty mix of grapefruit, orange and lemon juice.

APPLE

Sweet apple juice, pear and lime juice.

ORANGE

Combination of orange and lemon juice.

LEMON

Refreshing mix of lemon, and lime juice.
