

Samson International PLC

Sri Lanka's Total Rubber Solution
Provider

WHO WE ARE

As one of the largest Rubber Products manufacturers and exporters in Sri Lanka, Samson International PLC, strives to provide products of the highest quality.

With over three decades of experience in the rubber industry, we have established an experienced and remarkably efficient management team backed by over 450 employees. As a sister company of the renowned DSI Samson Group, we pride ourselves on high standards and a professional service.

Our Product range include many different products, ranging from rubber bands to high end bespoke rubber components.

We have received numerous recognitions & awards over the years . Our products are in accordance with international Standards, controlled by **ISO 9001:2000** Quality Management System ensuring that customers receive beyond their expectations.

WHY SRI LANKA

One of the leading Natural Rubber producers in the world, Sri Lanka was the cradle for the rubber industry, that revolutionized many industries across the globe.

Sri Lankan rubber and rubber-based product sector enjoys key competitive advantages including;

- **AVAILABILITY OF PREMIUM QUALITY NATURAL RUBBER**
- **CENTURIES OF EXPERIENCE IN MANUFACTURING RUBBER PRODUCTS**
- **SPECIALIZATION OF NICHE PRODUCTS FOR GLOBAL MARKETS**
- **SUSTAINABLE PRODUCTION PRACTICES**

BECOMING THE LEADER IN SRI LANKAN RUBBER INDUSTRY

1962

The Founder Chairman along with his children launched D. Samson Group Ltd, the holding company of Samson International PLC.

1988

Samson International was founded by DSI Samson Group to cater to the increasing demand for rubber products in the international markets

1992

Samson International was listed in the Colombo Stock Exchange as a public listed company.

1994

Became the first Sri Lankan Rubber manufacturer to get ISO9001 certification by standardizing the manufacturing process

2017

Started the process of becoming a sustainable and ethical manufacturer by getting ISO14001, ISO50001, FSC & BSCI certifications

2021

Recognized as the best value added rubber product manufacturer in Sri Lanka for the 6th consecutive year by the National Chamber of Exporters

CUSTOMER TESTIMONIALS

At Samson, our company manufactures a growing range of hygiene, household and garden products from fairly traded natural rubber from FSC certified plantations. What can't be done elsewhere, can always be done at Samson, who bring our desired product to the world with a lot of creativity and R&D understanding. We are very grateful to work with Samson International and encourage everyone to work with this wonderful company. ”

Mr. Oliver Gothe
CEO, Fair Squared Group

I've been working with Samson International since 2011 and I can humbly say that without the support of their team, my company would not be the brand and business it is today. They have helped me at every avenue, from the initial concept of my revolutionary idea to invent the worlds first long hot water bottle design, guiding me with every decision I make to the best of their knowledge and ability.

They are a company of great passion and drive, who go out of their way and have often worked around the clock to meet seemingly impossible deadlines. I I'm hugely fortunate to have their daily expertise and friendship by my side. ”

Mr. Richard Yu
Founder & CEO, YuYu Design Ltd.

Our company was first introduced to Samson International PLC in October 2010. On the first product we developed with Samson International we had a very short lead time from the time of first visit to finishing trials and getting first order took only 3 months other companies had said would take a minimum of six months. This product has now been sold in New Zealand and Australia for 10 years.

Even during Covid 19 they have worked very hard in challenging circumstance to meet our production requirements. I would have no hesitation in recommending Samson International PLC. ”

Mr. Mark Eagger
Director, Introl Products Ltd
