## From a Sapling to a Large Tree

**Dr. R. D. P. Jayaratne**  
A renowned  
Ayurvedic Physician

The innovation of this marvel brand, dates back to 1948. In Veyangoda, a city in the Gampaha District, was an Ayurvedic shop that was owned by a renowned Ayurvedic Physician, by the name of Dr. R. D. P. Jayaratne, he inherited this Ayurvedic shop from his forefathers. Little did the community know that he was also blessed with many traditional and secretive Ayurvedic recipe books, that were about to change the lives of many. He was innate with a rich touch of heritage and wisdom of over hundreds of years. He then gave life to one unique formula with nine, time tested Ayurvedic herbs and 100% natural oils into a wondrous face cream.

Back then this unique face cream, was sold in small tubs without a name, with no fancy label and package, it became the talk of the town, the perfect remedy for many of the common skin disorders faced by the girls in Veyangoda a popular town in Sri Lanka. Promptly, it became the most popular, life transforming, miracle cream of that town. As it is a 100% Ayurvedic face cream produced with the use of Natural herbs and oils, it worked wonders, and won the admiration and trust of many.

It was highly effective in curing dark patches, pimples, blackheads, wrinkles, ageing spots and discoloration of the skin.

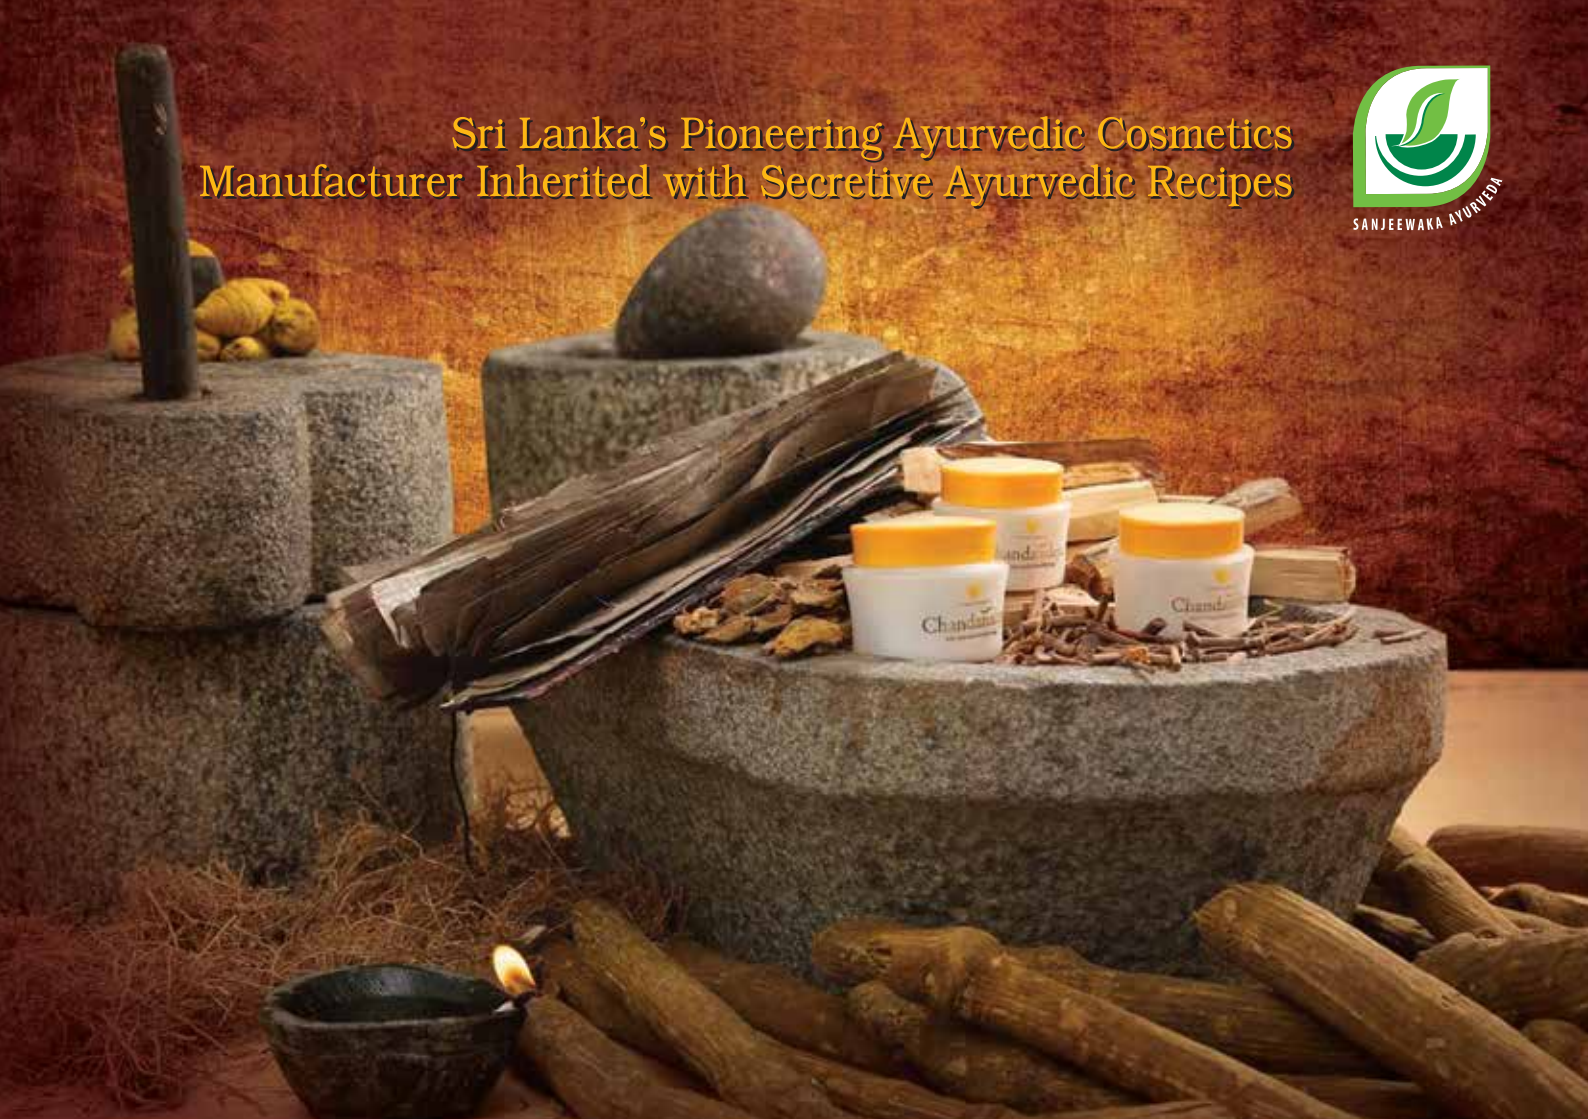

Word of Mouth became the initial advertising tool of this cream.

The outstanding popularity and the countless number of success stories of this little tub of Miracle cream influenced Dr. Jayaratne to handover this great success to his young and enthusiastic son, who named this distinctive cream as "Chandanalepa" and gave heart to this cherished legacy.

Through the vast experience in the Ayurvedic cosmetic field and the positive customer response to our product range we have expanded our beauty care portfolio into products such as Face Wash, Herbal Scrub, Skin Toner, Deep Cleansing Milk, Shampoo & Conditioners, Ayurvedic Hair Oil, Ayurvedic Beauty Soap and Moisturizing Body Lotion range.

With our ancestral know, how in Ayurvedic treatment, combined with the modern technology, Sanjeevaka Ayurvedic Products (Pvt) Ltd, stands ready to redefine the future of universal beauty culture.

## Ayurveda Soap

Reverting to the age old ayurvedic products that gave our royal princesses a unique translucent beauty,

Chandanalepa Ayurveda Soap uses a combination of Sandalwood, Saussurea (Suwandakottan), Paperbark (Lothsumbulu), Wild Turmeric (Kasthurikaha), Calumba wood (Venivel), Liquorice (Velmee) and Vetiveria (Savandara), all of which have proven medicinal properties for beautiful youthful skin. Sandalwood clears dark spots and blemishes, while Suwandakottan absorbs easily into the skin to heighten blood circulation. Lothsumbulu is a proven herbal remedy for eliminating bacteria causing body odour, Kasthurikaha eliminates wrinkles and ageing and Venivel and Velmee prevent infection, keeping skin healthy. The roots of the Savandara tree contains antioxidants that prevent the harmful impact of UV rays.

Chandanalepa Ayurveda Soap is known to stimulate the generation of collagen and hyaluronic acid, which regenerates tissue growth to prevent aging, while adding youthfulness and radiance.

Chandanalepa Ayurveda Soap is produced with all-natural herbal extracts to add nutrition to the skin and boost immunity against infectious disease. It contains no harmful toxins or chemicals.

Use Chandanalepa Ayurveda Soap to keep skin healthy, glowing and youthful.
