

KAP

the fibre of our being...

Coconut culture

KAP is one of the most technologically advanced, organic coconut-based product manufacturers in Sri Lanka, exporting over 30,000 metric tonnes of produce annually, to markets across continents. Hailing from a proud legacy that spans 6 decades, KAP is committed to sustainable manufacturing systems and processes with a wide portfolio of products. This comprises of high-quality UHT coconut milk, coconut water, desiccated coconut, and charcoal from 3 factories, while **supplying coconut products to over 100** local and international clientele.

*Rooted
in greatness*

Vision

To be the foremost and preferred manufacturer of premium agricultural products exported from Sri Lanka.

Mission

To provide products of superior quality to our customers, superseding committed timelines on production and shipment whilst maintaining transparent business operations. In doing so, believing that we deliver value and trust to both internal and external stakeholders.

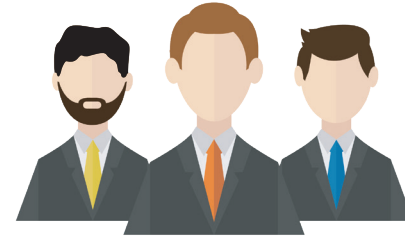

Purpose

To be a leader in sustainable agriculture products by enriching the lives of Sri Lankan farmers.

Our core values

- Customer obsession
- Passion for innovation
- Passion for operational excellence
- Sustainable growth/long-term thinking

*Growing

Aseptic Coconut Milk/Cream

- 5kg BIB
- 20L BIB
- 200L Metal Drum
- 1000L Paper IBC

A creamy white, sterilised and homogenised product extracted from the coconut kernel. It is Ultra-high-temperature (UHT) processed and packed aseptically.

Aseptic Coconut Water

- 210kg Metal Drum
- 1000L Paper IBC

RMP aseptic coconut water is a clear liquid found inside the coconut, that is extracted from fresh, curated, matured and paired coconuts. Our products are manufactured using the latest UHT technology under stringent quality assurance systems and aseptically packed to preserve freshness.

Desiccated Coconut Chips/Shredded/Fine/Medium

- 5kg-25kg in Bags
- 10kg BIB & Available in other SKU's as per customer requirements
- 5kg-50kg in Bags

Organic shredded coconut and chips are free from preservatives and are manufactured from fresh, matured coconuts. The dehydrated white coconut meat, contains no refined sugars or artificial flavours, additives or sweeteners. Desiccated coconut is made from the white coconut flesh. It is dehydrated, grated and dried while preserving its rich natural aroma and flavour without the use of preservatives.

Coconut Oil

- 4kg, 10kg, 20kg Pail
- 1000L Paper IBC
- 190kg Drum

The refined, bleached and deodorised (RBD) coconut oil has a very high smoking point (450°F) which is why it is a widely used ingredient in cooking. The physical refining process of our coconut oil ensures the removal of excess free fatty acids, high colour particles, aroma, impurities and moisture to guarantee a prolonged shelf-life.

Cream

- 2kg BIB
- 5kg BIB

The white meaty interior of freshly harvested coconuts is mechanically pressed to produce a thick white cream. Our organic coconut cream is a single-ingredient product that is free from additives and is UHT-processed to preserve its natural aroma.

Grated Coconut

This product is made from hygienically grated kernels of Sri Lankan coconut. Each matured, high-quality coconut is handpicked by experts. They are then deshelled, peeled, washed, bleached, and then grated mechanically into fine particles before being frozen to ensure maximum freshness on delivery.

Grated Coconut

- 600g Pack
- 1.2kg Pack

The white meaty interior of freshly harvested coconuts is shredded into a variety of grades and pasteurized. Yara Grated Coconut contains no additives and is made of hygienically grated kernels of Sri Lankan Coconut. Each matured high-quality coconut is handpicked by experts, deshelled, peeled, washed and blanched before being grated mechanically into fine particles to be frozen for maximum freshness.

Seeding inspiration

Lifestyle of quality

Quality is the most important aspect of our function as an organization. Which is why we adhere to stringent quality standards and procedures while utilising the latest in modern technology for all facets of our operation. Our processes have been designed to function with zero wastage while we are proud to have become the first factory in Sri Lanka to receive a BRC A grading on our first audit.

A growing family tree

We are an organization that believes in growing together with the people that sustain us. Today our workforce consists of 750 direct employees of whom many are families, 450 indirect employees and over 3 generations of employees from the same family.

We work towards elevating the living standards of our employees, while ensuring the fruits of our accomplishments and milestones are shared among the people that make it happen.

KAP is proud to be a SEDEX-certified organization – an awarding body that provides one of the world's leading online platforms for companies to manage and improve working conditions in global supply chains.

Nuts about quality

Quality is the primary objective across all KAP products and manufacturing processes. An ethos that is upheld through extensive investment in research and development as well as continuous training and development initiatives for staff and personnel. The group's relentless pursuit of quality has enabled them to acquire the BRC AA grade that complies with GFSI and ISO 22000.

The British Retail Consortium (BRC) is a global certification that requires companies to achieve and maintain a standard of excellence by adhering to the highest standards put forth by the food-manufacturing industry with regards to food & product safety, while the "AA" certification is the highest possible rating for a BRC planned audit.
