**Company Description :**

"Orka Holding, has created its own brands with 100% Turkish capital since the day it stepped into the men's ready-to-wear industry with the Damat brand in 1986, and has become the center of men's fashion by turning fashion into a lifestyle. It is an organization that has achieved a global holding structure with the foreign partnership agreement it has implemented in 2012." Damat, which has been directing the men's ready-to-wear industry since its establishment in 1986, has gained a respectable place in its segment by making fashion a lifestyle and creating the concept of "Accessible Luxury", which is the combination of correct pricing and quality product strategies. Damat, which defies time with its modern style and innovative stance, in which quality Italian fabrics are transformed into world-class collections by master tailors, continues to lead the men's fashion sector today. In this context, Tween, which was created by being inspired by the cultural heritage of Turkey and the unique geographical feature of Istanbul, conquered the hearts of urban men as an innovative, young and dynamic brand by blending East and West, tradition and modernism in 1991. It should not be forgotten that Tween, created as the perfect synthesis of functionality, technology and design, continues to be the brand of those who stand out with their unique style in the fast pace and chaos of the city. Damat and Tween brands continue to be offered at every point where you look for Accessible Luxury and the modern rythm of the city, with a worldwide network in more than 80 countries."
