**Sales conditions for the International Market:**

1. The place of mineral delivery to final destination is coordinated with the customs broker. Prices are per kilograms, in dollars.  
The incoterms is EXW, for which the expenses from the Andalgalá Catamarca - Argentina warehouse to the destination, will be in charge and under the exclusive responsibility of the buyer, not accepting subsequent claims about quantities and qualities.
2. If the client is interested in acquiring up to 1000 kg of rhodochrosite ore, only Overo 30/2000 grams of Veta Ortiz or Escalla Común B from Veta Ortiz will be offered; If you are interested in acquiring mineral in larger quantities, sales lots will be set up with different qualities and in proportion to production and considering the available stock.
3. The CAMYEN company collects mineral sales by transfer of funds in advance of the export of the good. You have a period of 5 bank business days to accept the proforma and make the payment in full.
4. Expired the previous term:  
In the event that the total of the proforma is not paid and the 5-day deadline has expired, the company will make available to the client the percentage of each quality indicated in the proforma, according to the percentage paid up to that date
5. Once the sale operation has been finalized and made available, with the pertinent documentation, the buyer has a period of 7 calendar days to withdraw the mineral, after said period the buyer will pay as deposit expenses the value corresponding to 0.25% of the amount, net of customs and bank expenses, per week of delay until its effective withdrawal.
