CEILING MOUNTED CLOTHES DRYER	
Clothes dryer with 6 lines	L= 1,8 M
with stainless steel rods	L= 1,6 M
	L= 1,8 M

<p>This appliance is designed for mounting on the balcony's ceiling or on the bathroom's ceiling. It includes 4, 5, 6, 7 individually adjustable drying rods made of steel. The rod is a metal pipe with diameter of 12 mm covered with plastic layer . The length of a set could be 1.20m, 1.40m, 1.60 m, 1.80m or 2,00m. The appliance for drying is mounted to the ceiling by a set of bearers with two or three rolls. Every bearer is fastened to the ceiling with two pieces of dowels and screws. Lamps cables or other elements disposed on the ceiling could be easily avoided. The paramount advantage of this kind of clothes-driers is that the rods can easily be lowered to the height of the user and after loading with clothes to be raised near the ceiling. The "down position" of each clothesline can be fixed to that height as so to be easily for hanging. The "up position" orders the washing near the ceiling saving the space of the balcony underneath. The client adjust the two positions with two stoppers on the cord for each stick. All the elements of this appliance for hanging out washings are made of weatherproof materials. NEW! Clothes dryers with 5 and 6 lines with stainless steel rods. Transport package – 5 sets from a kind in a polyethylene package.</p>	Clothes dryer with 5 lines with stainless steel rods	L= 1,6 m
