

Dear partners, we invite you to cooperate!

PDTools superabrasives - is one of the leading enterprises in Eastern Europe for the production of diamond and elbor (CBN) tools for machine-building, woodworking, glass and other industries.

Our company has been producing diamond tools since 1966. We were the first in Europe who synthesize diamond and implement it into an instrument.

At the moment, we have significantly expanded our range of tools and deliver our products to more than 70 countries around the world.

The company is certified by Bureau VERITAS according to the ISO 9001:2015 standard.

Our company offers to you few lines by performance with different price ranges, from wheels "Expert" up to the "Premium" type:

- Grinding wheels with synthetic diamonds or borazon(CBN) for the manufacture and sharpening of carbide-tipped circular saw blades with machines: VOLLMER, ISELI, AKEMAT, LAKFAM, WEINIG, LINSINGER and the manufacture of axial tools with Walter, ANCA, SAACKE, Gühring.
- Wheels with Borazon (CBN) grit for sharpening band saws for wood, such as Wood-Mizer frame form and similar (winter / summer);
- Diamond dressing rollers
- Diamond dressing sticks, honing bars, sharpening stones for knives

- Diamond and CBN wheels on vitrified bond
- Special diamond tool according to your drawings (custom-made). We can marking tools with your logo, by the request of the client.
- Variety and quality of production can satisfy any wishes and request of our clients
- Flexible discount system is available for regular clients and trade companies
