

*'We believe that even the largest rely on the smallest.
We are one people, one earth, one ocean.'*

About Us

Hungry Whale Group is an Australian family owned business with its HQ and manufacturing facility based in Sydney, Australia. We specialise in the manufacture and marketing of high volume gourmet chocolates through brands: KREENUTS, BLUCOA and CHOCIFY.

We have sales support and marketing teams based in Vietnam and the Philippines, who are responsible for in-market research and advertising to assist retailers drive awareness and build sales. No matter what market you're in, we'll be there to support you.

Our GFSI (Global Food Safety Initiative) accredited facility is capable of producing 1500kgs of panned products per day and thousands of pralines and bars.

We source the highest quality peanuts, almonds, macadamias, sugar and milk powders from Australian farmers.

Our nearest port is Sydney, Australia.

OUR BRANDS

KREENUTS

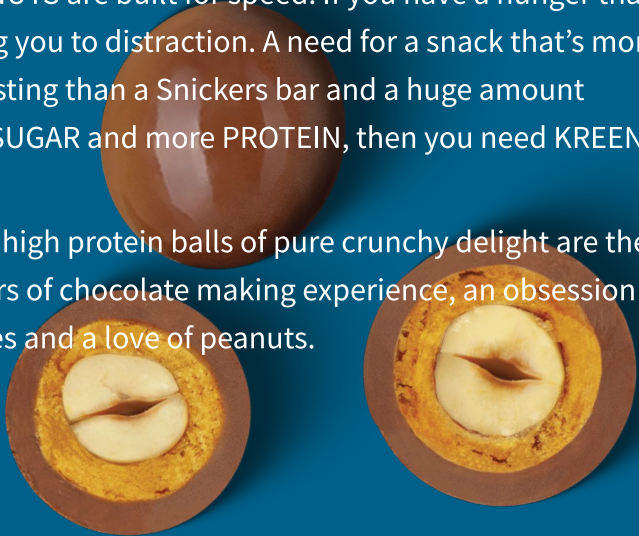

BLUCOA

KREENUTS®

It's not often you find a product that can take on the big guys; Snickers, Mars, Twix, but with KREENUTS you have your next BIG THING.

KREENUTS are built for speed. If you have a hunger that's driving you to distraction. A need for a snack that's more interesting than a Snickers bar and a huge amount LESS SUGAR and more PROTEIN, then you need KREENUTS.

These high protein balls of pure crunchy delight are the result of years of chocolate making experience, an obsession with cookies and a love of peanuts.

Upgrade your store with KREENUTS for convenience and grocery.

CUSTOM SIZES AVAILABLE

BLUCOA

World's First Collagen Chocolate

Collagen is the body's most abundant protein and building block, accounting for one-third of our body's protein.

It helps us form connective tissue - a vital component of our skin, bones, muscles, tendons and cartilage.

As we reach our mid-20s and beyond, the body's production of collagen begins to decrease. This contributes to the hallmarks of ageing, including thinning skin, bone loss and wrinkles.

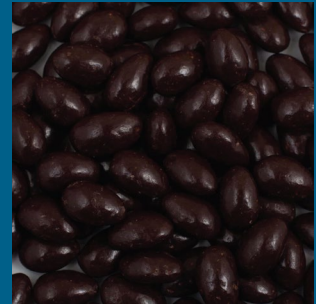

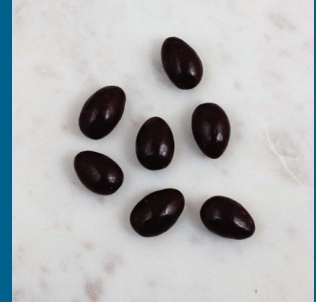

Collagen peptides supplementation measurably increases bone mineral density, decreases wrinkle formation, increases skin elasticity and hydration!

BLUCOA® Chocolate is 15% Pure Hydrolyzed Collagen.

With every 40g serve of Blucoa Almonds, providing your body with 3000mg of pure Hydrolyzed Collagen Peptides.

BLUCOA - chocolate that loves your body!
