The world goes crazy about amber, all thanks to the success of the film "Jurassic Park". From then on, every Steven Spielberg fan wants their own piece of prehistory locked in petrified resin.

Extremely dynamic growth of the company leads to the decision - to train our own talented young specialised jewellers.

Specially commissioned set of amber jewellery as a gift for First Lady Anna Komorowska.

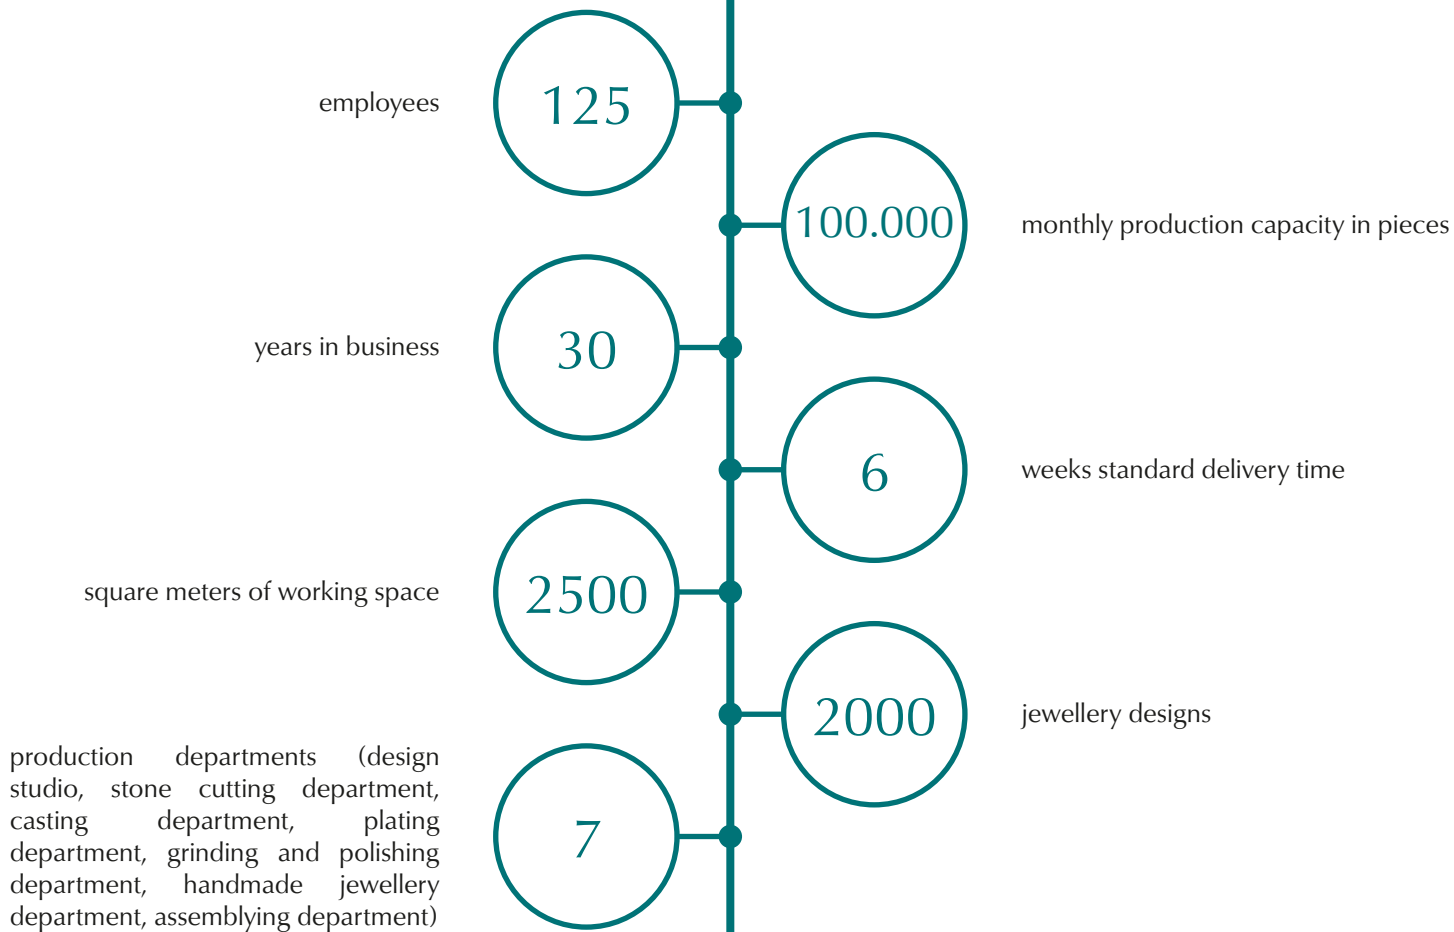

The first amber crown for Miss Polonia is designed and made by S&A jewellery design.

S&A is named TREND EXHIBITOR at VicenzaOro for innovative design and trend creation.

ABOUT S&A

In 1992, a young graduate of jewellery school, later president of the company, opens his first workshop and, in time, his own design studio. Through consistency, determination and persistence in quality assurance, the founder and his committed team, have grown the company to become a well-known designer and manufacturer of jewellery with its own inimitable style. Instead of outsourcing work, we decided to open new production departments at the headquarters in Gdynia which guaranteed full integration of the production process and assured continuous quality control. We maintain continuity of production and the highest standards of customer service. We pay attention to every detail, combining traditional production methods with modern technologies to offer exceptional customized collections.

S&A DESIGN

The magic starts either from the designs of our own professionals or designs delivered by the customer, the skills of the S&A team of designers have led us to become a recognized brand with an unmistakable style. S&A has won many prestigious awards worldwide and was named "TREND EXHIBITOR" for excellence and innovative design at the VicenzaOro Exhibition in Italy.

S&A PRODUCTION

S&A merges traditional techniques with the newest of production technologies. The best Polish jewellers process the raw materials, treating and setting amber and gemstones in precious metals. State-of-the-art machinery and the professionalism and commitment of production staff guarantee products of the highest global quality.

ELIPSE

ELIPSE - cufflinks for Prince William, Duke of Cambridge, cufflinks in rhodium-plated silver with cherry Baltic amber.

QULE

QULE - for Catherine, Duchess of Cambridge, a handmade, milk amber, ball-shaped pendant, set in 14K gold.

GIFTS FOR THE ROYAL FAMILY

In recognition of 25 years of work in the design, production and promotion of amber jewellery around the world, S&A was chosen by the Polish government to create gifts for members of the British Royal Family.

AMBER FOR LECH WAŁESA

During a gala celebrating the 75th birthday and 35th anniversary of his Peace Nobel Prize, S&A honoured President Lech Wałęsa with a special Baltic amber statuette to mark the Solidarity leader's relationship with Pomerania.

FIRST AMBER CROWN

S&A designed and created the first ever amber crown, inspired by elfish fantasy. This spectacular crown for Miss Polonia was fashioned from a single piece of silver, nearly 2000 hand-mounted gemstones, and specially selected Baltic amber. Designed by a famous designer, whole masterwork was executed by three of S&A's most highly skilled goldsmiths.

K2079

STAY CLASSIC

This collection shows the beauty and uniqueness of amber: simple, but at the same time, unmistakable, S&A trademark shapes, made with a patented technique, in a full range of colours of amber framed in gold or silver is always a hit.

ORNAMENTICA

Clear, smoothly and gently polished amber is at the centre of S&A's creations, embraced by silver openwork frames, handmade by the best goldsmiths. Contrasting the boldness of the larger amber pieces within a delicate setting gives an atypical look, guaranteed to catch the eye.

K3055

GO FASHION

The combination of amber and natural stones set in gold and silver is our view on the latest global jewellery and fashion trends. The Armena collection, which forms part of Go Fashion was recognised at the VicenzaOro Exhibition in Italy.

PLAY COLOUR

Get away from boredom. No more black or white. Free your imagination and play with a variety of shapes and colours of amber and gemstones in the latest S&A collection. With cuts of coloured stones unique to S&A that are so outstanding that no other company in the world can imitate them.

CHOOSE GLAMOUR

Using complex cutting techniques and artful gold settings, the purity and the depth of natural stones are brought to life in fancy and gentle cuts, sparkling in an elegant, glamorous collection.

BE UNIQUE

Each amber piece is carefully selected to give you the best of genuine Baltic amber. Of an organic origin, amber retains its mystery until the first cut is made and often this first cut inspires the entire design process, giving you a unique piece of beautiful jewellery, framed in a halo of precious metals, silver or gold.

RAINDROP

MAAMU

An exceptional collection that combines mammoth tusk from certified legal sources in Siberia, natural Baltic amber and white topaz, all framed 24K gold-plated silver. The winner of the Gold Medal in Jewellery Championship, Amberif 2018, Poland.
