TASDEER

EXPORT DEVELOPMENT, FINANCE & PROMOTION AGENCY

Qatar Development Bank exporting arm, Tasdeer, offers export financial packages and provides a platform for Qatari exporters and global importers to interface, engage and foster business communities aimed at improving future growth prospects.

Launched in 2011, Tasdeer provides access to finance, credit insurance and advisory services for exporters and supports businesses to develop their export capabilities through identifying thrust products and target markets, providing trade information and foreign market intelligence across various geographic borders and conducting market entry studies for the target markets.

Moreover, Tasdeer supports Qatari exporters to participate in global trade exhibitions and identify potential importers.

All Qatari exporters, regardless of the size of their export contracts, sector or turnover are eligible for Tasdeer support.

STATE OF QATAR

ECONOMIC EVOLUTION AND UNRIVALED OPPORTUNITY

Qatar, officially known as the State of Qatar, is an oil-rich Middle East peninsula, located on the Arab Gulf west coast.

Fuelled by progressive Government strategies driving free trade and foreign investment, Qatar's economy has been transformed into one of the most buoyant in the region. Liberal taxation, relaxed barriers to investment and wide-ranging development programs provide a marketplace bursting with opportunity. With the world's highest GDP per capita, the world's third largest proven gas reserves, and foreign business queuing

up to be part of Qatar's future – including the Qatar World Cup 2022 – the country is enjoying burgeoning prosperity and delivering excellent returns on investment. The benefits of doing business in Qatar are many, like easy access to locally produced raw materials, easy availability of skilled and inexpensive manpower, extremely low energy costs and 100% repatriation of profits and capital after income tax.

In short Qatar is open for business and ripe for enterprise.

QATAR

HOME TO DIVERSE INDUSTRIES

Qatar is home to several industries that catalyze change and revolutionize the world. Industries like plastics, chemicals, aluminium and steel, food and fiberglass supply raw material for diverse products that form a main part of Qatar's exports thereby augmenting the nation's economic growth and development.

The majority of the companies in these industries have been certified by ISO 9001 and other international bodies inspiring the end users with confidence in the superior quality of their products and services. They contribute to a clean and green environment by using cutting edge degradable and biodegradable technology.

Building on their existing customer base in Qatar these companies are looking to expand their business interests worldwide.

QATAR DEVELOPMENT BANK

AN INSIGHT

Qatar Development Bank was established in 1997 to reflect the farsighted vision of H.H. Sheikh Hamad Bin Khalifa Al-Thani, towards diversifying Qatar's economy through supporting the private sector.

QDB is 100% owned by the Government of the State of Qatar, with the main objective to contribute to the development and diversification of the economic and industrial investments of the country, for which QDB has aligned its strategy to Qatar National Vision 2030 to promote and facilitate the development and growth of the private sector in core economic sectors that will result in long-term socio-economic benefits to the people of Qatar.

Over the years, QDB has significantly contributed towards carving a dynamic and productive private sector in Qatar. From providing financing solutions and value-added services to private sector companies, to developing exports and promoting access to new markets for Qatari Enterprises, the Bank has been a powerful catalyst for Qatar's socio-economic development.

Today, QDB continues to play a vital role in the development of many leading projects in Qatar, with a focus on not only providing financial assistance, but also advisory support and guidance to SME's on how to start up, grow and expand their activities, with an overall aim to developing a diversified and sustainable economy.

스포닉스 테크
SPONIX TECH

서비스 - 스포츠 테크
Services - Sports Tech

Sponix Tech, is a technology company that provides solutions and services which help leagues, clubs, broadcasters, and advertisers increase viewers and enhance the fan experience. We are offering two novel technologies. Both technologies are pure software without any need to install hardware in the venues, based on A.I., machine learning, and computer vision.

By our SPov' Immersive Replay technology', Sponix Tech assists its clients to acquire more viewers, enhance their fan engagement and experience by producing immersive content.

By our SPboard' Virtual Advertisement technology', we help sponsors increase their engagement with fans. It creates a new era of sponsorship in sports industry which further enhances the viewership experience for advertisers to be interested in that. We help the clubs, leagues, and T.V. channels sell more digital sponsorship through our technology.

PRODUCT DETAILS

- Pure software
- Based on AI and machine learning
- No impact on TV production

MOSAFER TRAVEL AND TOURISM

서비스 - 여행 & 관광
Services - Travel & Tourism

Mosafer Travels, founded by Abuissa Holding, is a leading Travel Management Company based in Doha, Qatar. With over a decade of experience, we strive to enhance the travel experience for our customers by offering comprehensive services including air travel, luxury hotel bookings, holiday reservations, and corporate travel solutions.

Since 2010, we've worked tirelessly to become one of Qatar's premier Travel Management Companies, serving a diverse clientele.

Utilizing state-of-the-art technology and innovation, we launched GoMosafer, Qatar's first fully online travel agency, earning recognition with the Digital Transformation Award. Through our online platform, we provide luxury travel packages and streamline booking processes, ensuring convenience and savings of up to 20% on travel expenses.

Our 24/7 contact center support, flexible payment options, and negotiated deals on flights and hotels further enhance the customer experience.
