ABOUT TURKISH STONES

The homeland of natural stone, Türkiye has been a source of inspiration in architecture in stone for more than 12.000 years. Today, Türkiye is home to the world's largest natural stone reserves with a wide variety of Turkish Stones offered in more than 150 stone types and more than 650 colors and patterns. Türkiye offers this abundance of natural stone to designers, architects and buyers with patterns and colors of high quality marbles such as Anadolu Beige, Anadolu White, Anadolu Black and Anadolu Travertines, alongside its unique and signature marbles like Elaziğ Cherry, Milas Lilac & Marmara Marble. As the leading global source for natural stone, Türkiye exports a host of Turkish Stones to global architecture projects. In addition to marble and travertine, Türkiye exports basalt, dolomite, limestone and granite either as blocks or as processed stone products such as tiles and mosaics.

More than 1.500 marble quarries, 200 factories and about 9.000 workshops operate in the sector.

As being the number one marble and travertine exporter with 2 billion dollars exportation, Türkiye exports various stone types either as blocks or as processed stone. Turkish Stones exporters are known for their high level of service and know-how. Applying technology, Turkish Stone producers can create natural stones, in any shape and forms that can be imagined and designed. Turkish natural stones can be transformed from monolith organic forms to the thinnest sheet to decorate interiors from home to automobile.

The production natural Stones in Türkiye has grown rapidly in the last decade. Large scale private companies invested in integrated processing plants, which resulted in developments in the local market. With the introduction of modern production equipment and methods, Türkiye has become one of the world's prominent natural stone producers.

LEONARDO MARBLE

A. Babür BAŞLANGIÇ Tarık Ali GELEN

Company Profile

ABOUT

LEONARDO MARBLE: Pioneering Global Trends in Natural Stone for Over Three Decades With an impressive lineage spanning 32 years, Leonardo Marble stands tall as a paramount trader and manufacturer of Turkish natural stone. Our journey began in 1992, marking our foray into the granite trading business, importing blocks from nations such as Ukraine, Russia, and Kazakhstan to diverse markets including Turkey, Italy, and the Far East. Responding to a surging demand, our pursuits expanded, exporting the splendors of Turkish marble, travertine, and limestone. Our deep-rooted experience and insightful feedback propelled our focus towards Italy, an undeniable maven in stone-related architectural trends. This realization culminated in the birth of our first Italian partnered venture, A&G 23 S.R.L. in the historic city of Carrara in 2008. Since then, we have been at the epicenter of evolving global stone trends, offering the richness of both Turkish and Italian blocks and slabs to countries spanning the continents. In addition to our trading endeavors, we pride ourselves on our direct involvement in the very essence of stone extraction. In 2012, we initiated quarry operations with the Moca Quarry, nestled in the Elazig Province of Türkiye. Here, we extract limestone in two mesmerizing shades: the world-renowned Gold Moca and Silver Moca. Whether it's a trading partnership or a quest for the finest stone, Leonardo Marble promises excellence, heritage, and an undying commitment to the world of natural stones.

Company Profile

ABOUT

NATAMAR: A Pioneer in Travertine Production: Founded in Denizli, NATAMAR has dedicated 25 years to producing high-quality travertine stone, expanding its offerings over time to include marble, limestone, and other Turkish raw materials. With over 100 employees, NATAMAR collaborates with chains and wholesalers in 30+ countries, ensuring reliability and transparency in its operations.

PRODUCTION: High Quality, Cost Effectiveness, and Timely Delivery: Utilizing advanced technologies and lean production techniques, NATAMAR optimizes its production lines for efficiency, quality, and timely delivery. With a quarry and two factories, it supplies a diverse range of natural stone products, upholding the highest standards to meet customer expectations.

Factory Facilities: Factory#1, located in Acipayam-Denizli, spans 10,000 sqm with additional space on a 54,000 sqm property, while Factory#2 in the Gurleyik-Denizli travertine quarry region primarily serves as a raw material production facility.

Quality Travertine from NATAMAR Quarry: NATAMAR's quarry in Belevi, Denizli, yields travertine known for its tight and solid structure, resulting in stones with superior strength and quality.

Distinctive Travertine Selections: NATAMAR's travertine raw material stands out for its unique colors and character compared to regional alternatives, leveraging exclusive techniques for consistent quality and color continuity.

Innovative Geometric Formed Tiles: Through extensive research and development, NATAMAR offers progressive designs in Tiles and Mosaics, featuring precise cutting methods for various geometric forms, providing both creative freedom for designers and sustainable production costs.

PRODUCTS

Travertine, Marble, and Limestone Tiles ranging from 30.5 x 61 x 1,2cm to 61 x 122 x 1,2cm, along with Geometric Tiles, Pavers, Mosaics, Decorative Pieces, and Accessories.

EXPORT MARKETS

USA, Romania, Greece, Malta, England, Puerto Rico, Guyana, France, Czech Republic, Honduras, Costa Rica.

PRODUCTION CAPACITY

30.000 m² in 1 shift.
