WE ASPIRE TO BECOME A MARKET LEADER IN THE AGRICULTURAL INDUSTRY ACROSS CENTRAL ASIA

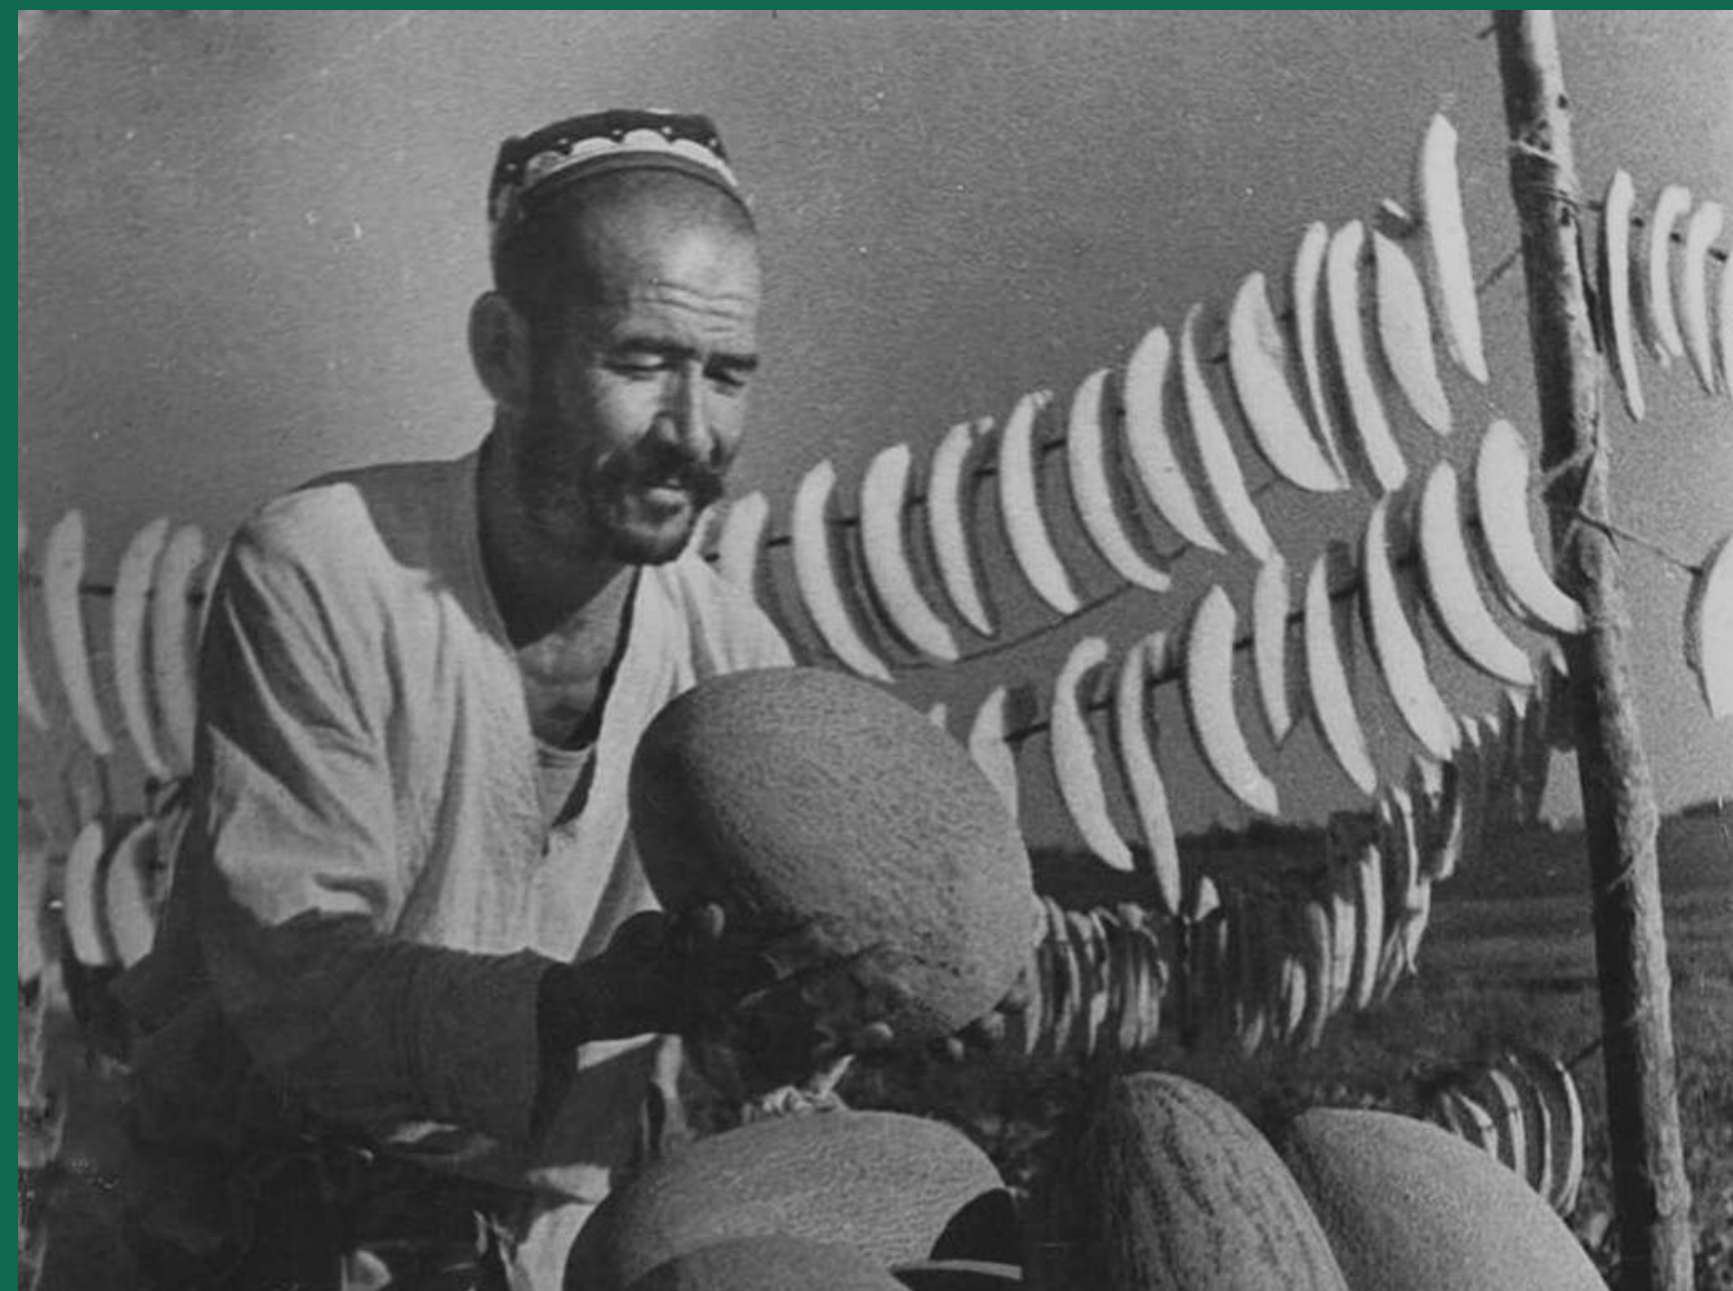

Our forefathers, understood the value of land that comes with its blessings, and the past hundreds of years have proved their point, regionally.

Due to excellent quality of arable lands and soil fertility in Uzbekistan, various types of agricultural products are produced in the country based on their seasonalities.

HISTORY

During the Second World War, 1941-1945, Uzbekistan, labelled as the breadbasket of the country, was strategically chosen to supply the Soviet Union with its 200 million population with food, fruits and vegetables, for obvious reasons.
