The Embassy of the Republic of Guatemala in the Republic of Korea presents its compliments to the Korea Importers Association (KOIMA), on the occasion of transferring the informative brochure regarding air plants exported by the Guatemalan company "Corporación Riany S.A", from Guatemala to the United States, the European Union and Thailand, where they are used commercially as ornamental plants in homes.

This type of vegetable is commercially called Air Plants, because in their feeding habit they are Epiphytes, due to this, they do not require roots for their ideal growth, they feed on nutrients from the air and rainwater in their natural state, which makes their exportation easier because they do not use soil or substrate to be transported. For their ideal growth and export quality, they are cultivated in nurseries where the necessary nutrients and care are added.

The Embassy of the Republic of Guatemala in the Republic of Korea, was contacted by the above mentioned company with the purpose of finding interested companies/organizations in importing air plants to the Republic of Korea. In that regard, the Embassy of the Republic of Guatemala to the Republic of Korea kindly requests the Korea Importers Association to share the attached catalog with potential importers.

Product HS code: 06021000

Contact information: Ricardo Rafael Rivera Cardona. PhD. CEO, Corporación Riany S.A. Phone: 502-58057158 e-mail: ricardorafael2807@gmail.com

The Embassy of the Republic of Guatemala in the Republic of Korea avails itself of this opportunity to renew to the Korea Importers Association the assurances of its highest consideration.

Seoul, June 5, 2024

To the Korea Importers Association
