Creative Interiors

BHM specialises in the production of upholstered furniture for hotels, restaurants, apartments, cruise ships, and other public facilities.

BHM provides its model database in the pCon program for architects. This allows architects to easily integrate high-quality BHM furniture into their designs using ready-made 3D models. This solution speeds up the design process and enables precise fitting of the furniture to any interior.

Poufs and benches collection

The poufs in the BHM catalog are versatile pieces that can serve both as additional seating and stylish decorative accents. They are available in various shapes, sizes, and colors, ranging from simple geometric forms to more organic shapes. Poufs are perfect for living rooms, teen rooms, and commercial spaces like hotels or reception areas.
