## LIST OF PRODUCTS

- Vacamulo 2019

AMANDI-RIBEIRA SACRA

Don Bernardino is a family winery of 5th generations located in subappellation of Amandi in Ribeira Sacra D.O. This area is very special because is one of the most sloped vineyards in the world by these reason we can't work with machines and all is made by hand. Our goal is put these incredible vineyards in a bottle for the best and the most demanding palates.

#### LIST OF PRODUCTS

• Circe Verdejo 2023	DO Rueda
• Fuentespina 3 meses 2023	DO Ribera del Duero
• Fuentespina Crianza 2021	DO Ribera del Duero
• Fuentespina Reserva 2019	DO Ribera del Duero
• F de Fuentespina 2020	DO Ribera del Duero
• AVELINO VEGAS 100 Aniversario 2018	DO Ribera del Duero
• AVELINO VEGAS Aureo 2018	DO Ribera del Duero

Avelino Vegas is a family-owned company founded in 1950. Nowadays we own three consolidated wineries where we elaborate wines from principal wine growing areas in Spain: Ribera del Duero and Rueda D.O.

In D.O. Rueda, Avelino Vegas has one of the most important assets in the quality of its Verdejo grapes from old vines, harvested in the province of Segovia, which wines have earned an outstanding recognition in international contest. In Ribera del Duero the winery controls century-old, low-yielding vineyards which soils have a chalky and sandy component, these, together with the altitude (between 800 and 900 m), are quality factors for Tempranillo grapes of extraordinary quality to elaborate wines aromatic, fruity, fine and elegant.

70% of the production goes to the national market and 30% to export to about 30 countries.

Our hallmark is the excellent quality/price ratio of our wines and the continuous support to our customers.

| • CARODORUM AUTOR 2021              | DO Toro |
| • CARODORUM SELECCION ESPECIAL 2015 | DO Toro |

Bodegas CARODORUM is a small, family owned, artisan winery situated in the prestigious "Pago" of La Cascajera, in the heart of the region of TORO. Quite simply, it was founded on the family's passion for wine on the 2004. Each bottle of Carodorum joins family values, small scale production advantages, modern wine making technology and traditional grape growing techniques amongst a backdrop of the TINTA DE TORO variety. This variety is the region's point of difference and point of inspiration for the family at Carodorum.

The family-owned vineyards are planted on the banks of the Duero River in gravel and limestone soils which create perfect growing conditions. Following a strict selection and control process, each individual parcel of vineyard is harvested at its peak of ripeness and produced separately allowing Carodorum to produce wines which represent the individual parcels of land they come from.

State of the art technology is used to preserve the characteristics of the TINTA DE TORO (Tempranillo) variety. Fermentation takes place in temperature controlled stainless tanks while a wide array of premium oak barrels is used for ageing. The wines are aged for a minimum of 6 months to add the necessary structure and depth.

## 5. BODEGA LAR DE MAÍA

| • Lar de Maía 7º Autor 2020  | IGP VTCYL |
| • Lar de Maía Garnacha 2022  | IGP VTCYL |

We are a family winery producing quality wines in a traditional way, taking care of each part of the process carefully to get the best of the results. We make wines that leave a mark.

Our experience in the wine business working for other wineries and our passion for a job well done made us to take the decision of starting our own dream. In 2015, Lar de Maía was born. We were very interested in making wines with personality, from the inside of the bottle, the most important part, to the outside. This is what the consumer sees first before taking the decision to buy the bottle.

Our philosophy is making natural wines, without additives, with character so when you taste them you will know that things well done are always the best.

We look for the typicity and true expression of the terroir that is reflected in our wines.

The wine of Lar de Maía is distinguished by its eco-friendly production. Throughout the production process an ecological philosophy has been followed. It is made from grapes of organic farming, respecting the environment and maintaining soil fertility through good management of natural resources.

We are located in Castilla y León (Spain) and we belong to the D.O. Vino de la Tierra de Castilla y León. Our wines are mainly produced with the native grape variety from OLD VINEYARDS (80-100 years old): "TEMPRANILLO" and "GARNACHA".

## 6. BODEGA LAS CEPAS

| • Rebuzno 2020             | DOCa Rioja |
| • Garnacha 1921 2020       | DOCa Rioja |

Being part of Rioja DOCa, Spain's most important region for fine wines, presents a unique set of challenges and opportunities. Organic production in Rioja is currently only around 5% of the total, which highlights both the rarity and the importance of sustainable practices in this esteemed region. Our focus on organic viticulture in such a context not only sets our wines apart but also emphasizes our commitment to quality and environmental stewardship.

The uniqueness of Graciano and Maturana, representing just 2% and 1% respectively of the red grapes in Rioja, is central to our identity. This scarcity allows us to offer something truly unique in the market. Our winemaking is tailored to highlight the distinct characteristics of these varietals, while our marketing emphasizes their rarity and the distinctive terroir of Rioja DOCa. It's about showcasing the exceptional quality and uniqueness of our wines, derived from these lesser known, yet historically significant grapes.

Our challenge is to continue advocating for organic practices and to educate consumers about the distinctiveness of Graciano and Maturana wines. As awareness grows, we believe we'll see an increase in both the demand for and the production of organic wines in Rioja DOCa, further cementing its reputation as a region that not only values tradition but also innovation and sustainability.

| • CM MATARROMERA PRESTIGIO 2017 | DOCa Rioja          |

In Valbuena de Duero, the birthplace of Tempranillo in the Ribera del Duero, lies the roots of Winery Matarromera. It was founded in 1988 on the slopes of a hill facing south, from which the impassive Duero River can be seen. This cosy winery is the perfect setting for ageing, as the conditions provided by its halfburied cellars are perfect for the production of wines balanced in which the oak barrel and Tempranillo grapes are the stars. The first vintage of Winery Matarromera won the Grand Gold Medal at the International Wine Competition, which was an incredible starting point for a history full of successes.

• Lecco Roble 2023	DO Ribera del Duero
• Lecco Crianza 2020	DO Ribera del Duero
• Lecco Reserva 2018	DO Ribera del Duero

Bodegas Resalte is a project that was born over 20 years ago, marked by the highest standards to produce wines with a distinctive identity within the Ribera del Duero Designation of Origin. Resalte was born with the philosophy of making signature wines, in which each vineyard, winemaking and ageing is specifically designed. A marked character in which the terroir and the ageing are combined to improve the characteristics of the native grapes of Ribera del Duero: Tempranillo for red wine and, Albillo Mayor for white wine. Bodegas Resalte is now one of the top Spanish wines with highest accolades from international critics, including being chosen as one of the 100 best wines in the world five times, among other numerous recognitions.

We produce from 80Ha, consisting of over 120 small plots very widely distributed across the Golden Mile and Ribera del Duero Burgalesa. Our vineyards are grown using organic practices and the grapes are hand-harvested. In the winery, we implemented gravity-flow processes, fermenting plot-by-plot to enhance the personality of each terroir. Aging is also tailor made to each label and terroir.

• 912 de altitud Crianza 2022	DO Ribera del Duero
• 912 de altitud al cuadrado 2022	DO Ribera del Duero

Bodegas Veganzones was born in 2007, following a tradition of wine growers that started in 1956 when the founders' grandfather started to make his own wine.

It is a family owned winery located in Fompedraza, one of the highest towns in Ribera del Duero.

Our vision is to produce great quality wines combining traditional viticulture and the latest technology in the cellar.

We produce wine from more than 50 hectares in different plots. However, the vineyard in the limestone plateau (912 m.a.s.l) is where our flagship wines "912 de altitud" come from. The high altitude of the vineyard provides the grapes with special qualities that result in unique wines.

| • Cossetania White Wine 2023                          | DO Penedés          |

Castell d'Or is a union of 16 cooperative wine-elaborating cellars from Catalonia. Our winery specializes in elaborating cava and other sparkling wines (non-alcohol sparkling, wines made with the Charmat method, etc), but we also produce still wines from different appellations of Catalonia. We represent 2200 farmer families who work more than 6000 ha of vines.

Nevertheless, we stay regional, in contact with our land and local people. We produce wine only from the grapes we grow!!! Wine is born in the field, so we control the process initially. Furthermore, having vineyards in different climatic zones allowed us to plant each grape variety in the most suitable conditions to get the best possible result. The winery has IFS certificate, and a big part of our vineyards is organic. All products are certified vegan.

Dominio de Eguren was founded by the fourth generation of the Eguren family (Sierra Cantabria), with the vision of offering high-quality inexpensive wines to all audiences.

The philosophy of the project is the selection and vinification of the highest quality grapes from controlled vineyards in Manchuela (Castilla-la-Mancha). These vines of Tempranillo, Bobal, Viura (Macabeo), and Airén, planted on trellis, were selected by the family for their advanced age, poor soils, and unique microclimate. A significant percentage of the production is also sourced from their young vineyards in Rioja and/or Toro, planted with old clone massal selection Tempranillo and Tinta de Toro, before the vines are deemed old enough to be used for the estate bottled wines.

“Our wines are youthful, fresh, and affordable— just like the ones our grandparents used to enjoy and share.”

Familia Martínez Bujanda is a family group formed by 5 different wineries with a common denominator, the philosophy to always vinify our wines from our own vineyards located in privileged areas.

Finca Valpiedra, (D.O. Ca. Rioja) in the best area of the appellation, one of the Spain's great terroirs. Viña Bujanda, D.O. Ca. Rioja, owns 127 ha. of vineyards in different plots. Finca Antigua (D. O. La Mancha), this vineyards has given us the freedom to innovate with new grape varieties and new styles of wine. Finca Montepedroso (D.O. Rueda), has 25 ha. of vineyards at 750 m of altitude and there we elaborate two white wines 100% Verdejo variety other of the Spain's great terroirs. Cosecheros & Criadores wines have a great diversity of styles and presentations that allows them to cover almost the whole market segment.

| • Sal de Mallorca Limón y Pimienta 500gr              | Spain |

Organic Fleur de sel from the Mediterranean in Spain, harvested and packaged by hand. A tradition dating back to the 5th century BC. Salinas d'Es Trenc has been a world reference for sea salt since 1958. The production system has remained the same ever since, the sea water is still the raw material, the action of the sun and the wind are the natural clean energies used to evaporate the water and thus crystallize it to create sea salt.

The Salinas d'Es Trenc occupy a third of the wetland area, approximately 155 hectares, within the 1,441.06 hectares of land and 2,327.20 hectares of sea and land of the Es Trenc-Salobrar de Campos Natural Park. This is a European Union nature reserve.

The water flows from the unspoiled beach of Es Trenc into the salt flats. Benefits directly from the salt activity, as it promotes continuous and maximum care of the environment, ensuring that the wetlands are in their optimum state and ensuring the regeneration of the ecosystem, which is the natural habitat of many species of flora and fauna.

The harvest of Flor de Sal d'Es Trenc only takes place in the summer between June and September in the ponds where, depending on the weather conditions, temperature, humidity and wind, the crystals that form on the surface of the water are harvested.

Harvested daily by hand by the "Maestros Salineros" (artisans salt masters). The profession of "Maestro Salinero" is registered in the catalogue of artisan food products of the Balearic Islands.

Muriel Wines was founded in 1926 by José Murúa in Elciego, Rioja Alavesa, and nowadays the 3rd generation is involved in the business. We are producers of a diversified portfolio: Bodegas Conde de los Andes (DOCa Rioja – Alta) – A unique winery from 16th century. It's the sum of respect for the historical heritage, the commitment to the custody of hundreds of thousands of bottles of old vintages and the renovation that symbolises the current range of wines.

Sourced from small plots of old vineyards planted in high places, they represent a new interpretation of Rioja Alta wine under the recovered brand of Conde de los Andes.

Bodegas Luis Alegre (DOCa Rioja - Alavesa) – It was established in 1968 and it's located in Laguardia. We produced Single Vineyards wines from very special terroirs: FINCA LA REÑANA planted in 1920 and at 620 m of altitude and PARCELA N°5 planted in 1945 in the bank of a natural saline lake in a natural Biotope

Bodegas Valdecuriel (DO Ribera del Duero) – Our boutique winery in the region where we produce very fresh wines, intense and with free characters.

Raventós Codorníu is the oldest wine company in Spain, with more than 470 years of history in the production of quality wines and cavas. This oenological expertise has led us to establish 15 wineries in some of the best winegrowing areas in the world and to have a sales presence in more than 50 countries.

The Raventós Codorníu group is now the largest producer of organic cava in the world, leading the global transition to sustainability. Since we were founded in 1551, we have combined tradition and innovation, carving out our place as a centuries-old business which always seeks innovation.

Today, Raventós Codorníu has over 3,000 hectares of vineyards that are owned directly by the company or under its direct supervision, making us one of the largest vineyard owners in Europe. We believe in a sustainable winegrowing model that revolves around respect at the source so as to generate value beyond our own benefit. We love the land: its fruits are our roots and the foundation for our business.

We could just make wine... but we have chosen to add value to the land.

## 21. ROQUETA ORIGEN

• The Freaky Wines Tempranillo 2023	Vino de la Tierra de Castilla
• Abadal Picapoll 2023	DO Pla de Bages
• LaFou El Sender 2021	DO Terra Alta

Over 800 years of experience in the wine sector:

The origins of our wine-making activity date back to the 12th century, specifically to the year 1199, closely linked to Bages region (province of Barcelona).

At the end of the 19th century, Ramon Roqueta Torrentó laid the foundations so that his family's activity would take on the dimensions of a business. He did this in 1898 when he founded Ramon Roqueta (DO Catalunya), the first of the family's wineries. Later on, the family founded more wineries: Abadal (DO Pla de Bages) and Lafou Celler (DO Terra Alta).

## 22. TERRA CELLARS SLU
