

Since 1992

PEPLINSKI
& BANASZEWSKI

www.pb.com.pl

We sell high-quality lumber manufactured from European, American and exotic woods. We supply furniture production as well as manufacturers of floors, stairs, windows and doors, carpentry plants, and wood warehouses. Our clients are both European and Asian companies. At our warehouse in Jarocin near Poznan, we have about 2000 m³ of dry wood in stock at all times.

Delivering lumber that fully meets the ordered specification is our most important task. We strive to offer customers grades of qualities that guarantee the best price-to-performance ratio. Thanks to our efforts, we have gained the trust of many of our clients. We have achieved this thanks to our crew, which identifies themselves with set goals and constantly improves the quality of service. We form a harmonious collective that is up for the challenge.

We look forward to working with you.

Jerzy Banaszewski
