COMPRESSION GARMENTS

This product is a medical device. Use it in accordance with the instructions for use or the label.

Expert
in the production
of compression
products

Everyone
should feel
their best.
Every day.

This has been our focus for over 150 years.

*Our portfolio is based on brands which are aimed
at different needs and indications related to medical care.*

We focus on helping patients to live freely, even with venous disease, lymphoedema, lipoedema or venous oedema of the limbs. We really care about patients who suffer from orthopaedic disorders. We provide them with medical equipment that offers significant support in their recovery process.

We continue to work on and develop innovations, based on our 158 years of experience in the production of compression products. We have developed the **Sigvaris Aesthetic** line of compression garments which is a good fit in our product portfolio. Products with high medical competence and effective performance. Easy to use, characterised by an appealing design.

TOP 10
reasons
to choose
Sigvaris
Aesthetic

1. controlled compression force of the products, ensuring comfort and medical effectiveness, confirmed by the international **HOHENSTEIN INSTITUTE**
2. all raw materials used in the production of the Sigvaris Aesthetic line have passed the **biocompatibility test**
3. raw materials have international **OEKO-TEX® certification**
4. **optimal selection of raw materials** in terms of composition, metal elements – hooks and eyes and locks do not contain nickel, which may cause allergic reactions to the skin
5. product lines **developed alongside plastic surgery specialists**
6. approved by the **Polish Society of Plastic, Reconstructive and Aesthetic Surgery**
7. all products are registered as **Class I medical devices**
8. produced in accordance with **ISO 13485:2016** quality standards
9. **compact** product portfolio
10. **easy selection of the right product** for every patient thanks to the optimal number of sizes
