CARROT JUICER

**Fresh carrot
juice easier
than ever**

Sulapro

CARROT JUICER

SULAPRO Carrot Juicer brings to the consumer freshly pressed, healthy, **100% natural carrot juice**. Developed specially for supermarkets with an aim to transform the time-consuming and messy process of juicing carrots at home into a **quick** and **eye-catching self-service experience** at the store.

 **Carrot size** ø 20-40mm, up to 260mm

 **Processing time** up to 0,5L/30"

 **Juice yield** up to 1L/2,5kg of carrots

Getting all the benefits of a

freshly made carrot juice

is now **easier than ever!**

BENEFITS OF CARROT JUICE

Carrot juice is a slightly sweet, highly **nutritious low-calorie drink** consumed and appreciated for its taste and its many well-known health-promoting capacities.

Containing high levels of **natural vitamin A** and **beta-carotene**, as well as a wide variety of other **essential vitamins** and **minerals**, this vegetable juice is **cholesterol-free** and has plenty of **gut-friendly dietary fiber**. Carrot juice is a **tasty** and **nutrient-dense** alternative to fresh fruit juices.

With **SULAPRO Carrot Juicer** your store can **expand its retail range** and **stand out** amongst others by being the first offering the customers a healthy **vegetable juice alternative** and an eye-catching self-service experience: while holding the tap, the customer can observe carrots ascending and dropping one-by-one into the pressing system and flowing out as freshly made carrot juice.

Technical specifications

Carrot parameters	up to 260mm, ø 20-40mm, unpeeled, washed
Basket capacity	15kg
Inbuilt bottle dispenser	optional
Waste bin capacity	60L
Dimensions (WxDxH)	1000 x 700 x 1860mm
Weight	330kg
Power	220-240V, 50Hz, 1phase, 10A
Safety	Doors with safety lock. Multiple safety sensors
Cleaning time	5min

SULAPRO Carrot Juicer works efficiently and profitably. Carrots have **high juice yield** and are considerably less expensive than most fruits conventionally used for juicing, hence **higher profit margins** are achieved. Carrot Juicer is **easy** and **safe to use** and requires only **five minutes of cleaning** at the end of the day.

OUR STORY

STORY

Founded in 1994, it is a family-owned company started by three generations of doctors who recognize the importance of clean water in every step of life.

SOURCE

Discovered in 1936, Začumuiža is a source known for its pure and naturally balanced mineral water. We bottle our water from an underground source in a protected, clean area.

MINERALS AND TASTE

Perfect for health-conscious consumers, it is low in sodium and has just the right minerals with a total dissolved solids of 210mg/L. It has a clean, pleasant taste and is perfect for daily consumption. Its pH balance of 8 creates a healthy environment for your body.

ZAKU

NATURAL MINERAL WATER

QUALITY

Bottled in its original state, our water maintains a constant level of minerals and trace elements and is protected from any risk of contamination. The 2011-opened bottling facility holds ISO22000 certification, upholding rigorous quality standards. ZAKU Water is a true premium natural mineral water. It offers the best quality and a stunning presentation.

Total dissolved solids, mg/L: 210. Total hardness, mmol/L: 1,4. Main components, mg/L: Ca^{2+} = 33, Mg^{2+} = 9, Na^{+} = 15, K^{+} = 1,2, HCO_3^{-} = 140, SO_4^{2-} = 13, Cl^{-} = 26, $\text{F} < 0,2$, $\text{NO}_3 = 1$.

DESIGN

True luxury lies in refined simplicity. The slim, unique bottle design draws inspiration from water's pure, cleansing nature. It showcases the mineral water's natural character, purity, and taste. Perfect for consumers who appreciate style and clean design lines. This purest natural mineral water is perfect for fine restaurants, hotels, gourmet shops, and convenience stores.

THE BENEFITS OF ALKALINE WATER

ZAKU

NATURAL MINERAL WATER

Neutralizes Acid in the Body

Alkaline water can help neutralize excess stomach acid, which may relieve symptoms of acid reflux. It's also believed to support the body's pH balance, especially if your diet is high in processed foods, sugar, or alcohol.

Improved Hydration

Alkaline water may hydrate you more effectively, making it a great choice after a hard workout. It's also packed with minerals like calcium, potassium, and magnesium to help replenish lost electrolytes.

Antioxidant Properties

Alkaline water is thought to have some antioxidant power, helping to fight off cell-damaging free radicals. By reducing oxidative stress, it may even play a role in slowing aging and supporting long-term health.

Bone Health

Alkaline water could help your bones by reducing mineral loss, potentially supporting bone density and lowering the risk of osteoporosis. Think of it as a little extra help to keep your skeleton strong.

Detoxification

Alkaline water can help your body detox by flushing out toxins more efficiently, giving your kidneys a break and promoting overall wellness.

Improved Digestion

Alkaline water can ease digestion by neutralizing excess acidity, helping to reduce discomfort from acidic foods and supporting overall digestive health.
