One of the basic pillars of the philosophy of Azzayt Olive Oils lies in the production and sale of quality products. This is achieved thanks to the continuous work of its team of experts and guaranteed by the fulfilment of quality and food safety standards.

Azzayt Olive Oils holds the following certifications:

We are the source

Most of the Azzayt Olive Oils production plants are located next to the Mediterranean Sea, where there are good climatic conditions for the growth of the olive grove and produce the best olive oil.

In addition, this makes it easier to meet the demand of our customers anywhere in the world, both in bulk and in packaging, quickly and efficiently.

Our main goal is to satisfy customers and focus on long term relationships. Through this Azzayt has created many strategic partnerships around the influenced areas of the first producer country of olive oil in the world and is able to have a worldwide presence for meeting the demand. Azzayt has become one of the biggest private olive oil producers of Spain.

Sustainability and organic production

One of the basic pillars of the business philosophy of Azzayt Olive Oils lies in the production and sale of healthy and quality products, which is achieved through the continuous work of its technical team, which supervises each of the phases, from the harvesting of the fruit at the optimum point of ripeness, to the delivery of the completely finished product to its customers.

We are producers of **organic olive oil**, which provides the purest flavors, the highest quality and respect for the environment.

Azzayt

Azzayt Olive Oils uses the most modern technology for the production of its oils, always respecting the environment and without using aggressive cultivation techniques.

Your own olive oil

Our extensive experience and specialization in **bulk olive oil** production makes **Azzayt Olive Oils** one of the biggest producers in the Spanish olive oil industry. Thanks to our great production capacity, we can offer you different formats and the highest quality.

Azzayt Olive Oils gives the possibility, to customers who wish, to **per-**

sonalize the packaging, with their own label, logo and brand information without increasing the cost of production.

Azzayt Olive Oils through is several crashing mills produce and guarantee a constant supplying to its customers of **extra virgin olive oil, virgin olive oil, pure olive oil and pomace olive oil.**

Castizzo

PREMIUM

EXTRA VIRGIN OLIVE OIL

Castizzo is the Spanish olive oil with the most character and personality. Born in the warm south of Spain from our centenary olive trees, we obtain a product of the highest quality, with numerous nuances of smell and taste and all the beneficial properties of olive oil.

Castizzo offers a range of Premium and Organic extra virgin olive oil. With the best quality that gives the best tastes and the sustainability that helps us get the most respectful way of production.

Castizzo the quality and flavor of **Castizzo** oil enhance its strong personality that is incapable of leaving anyone indifferent.

Avocado oil has several multiple properties that enrich the cooking. Thanks to its rich composition and its fatty acids it gets an appearance similar to olive oil, which enriches the product and its attributes to offer your dishes a note of originality.

Sesame oil is very popular in Asian cuisine. It provides a different flavor and aroma that is reminiscent of the seeds from which it comes. In addition, it has different benefits for cardiovascular, nervous and bone health.

Chia oil has been crowned as a colossus in the world of health thanks to being a great source of omega 3 and being very useful against cholesterol.

Logistic information

Castizzo Tropical offers you the most original vegetables Oils: Avocado, Toasted Sesame and Chia. In addition, our extensive logistics experience gives you the possibility of obtaining these oils in bulk in different formats with the best quality and the guarantee of a great company.
