Is it possible to make life easier
with milk?

Yes, we believe so.

We are Hungary's best-known dairy brand.

Mizo

- Mizo is the trendsetter and leading brand in multiple dairy categories.
- For Mizo, the consumer comes first. This is the reason we have a separate product portfolio for those who are lactose intolerant, children and those who prefer sugar-free products.
- Mizo is the main supplier of dairy products to the largest German discount store chain in Hungary and a significant supplier to neighboring countries.
- Sole-Mizo is the largest MPC producer in Central and Eastern Europe, with the most modern technology (investment completed in 2021).
